1. A reconciliation of non-GAAP measures to the most directly comparable GAAP measure, where available, is in our earnings release which can be found at <https://investors.hpe.com>

2. Adjusted to eliminate the effects of currency

3. Annualized Revenue Run-Rate ("ARR") is a financial metric used to assess the growth of the Consumption Services offerings. ARR represents the annualized value of all [net] GreenLake services revenue, related financial services revenue, and Software-as-a-Service, subscription, and other as-a-Service offerings recognized during a quarter and multiplied by four

4. Free cash flow = cash flow from operations less net capital expenditures; net capital expenditures = investments in property, plant and equipment less proceeds from the sale of property, plant and equipment

5. Includes Nimble Services
