Product	E-LTU or Media Available*	User Category
HPE X10000 Data Intelligence software	Yes	Production and Evaluation licenses available

\* Any product sold as E-LTU or E-Media shall be delivered electronically, regardless of any contrary designation in a purchase order.

# Definition

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement or Supporting Material.

Term	Definition
Cluster	Means a set of virtual or physical Servers.
CPU	Means central processing unit (CPU) also referred to as processor. It is a system that has a single CPU with a single integrated circuit package with one or more discrete processing cores.
E-LTU and E-Media	Products that are electronically delivered only, and as such any reference to FOB destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Evaluation License	Evaluation License means a software license that is provided by HPE to the Licensee for the Licensee's internal use for trial, evaluation, testing, or similar non-production purposes, is expressly identified by HPE as evaluation software, as Not For Resale or NFR software, or any similar designation.
Licensee	License To Use is used when a license key is required to enable product use.
LTU	License To Use is used when a license key is required to enable product use.
Operating System	Means the low-level software that supports basic functions on a computer, such as managing hardware interfaces and resources and providing common services for software programs.
Production License	Production License means license to Software product installed which is used for executing product logic for production or commercial usage.
Server	Means any physical or virtual machine on which one or more instances of the Software is installed.
Software	Means the HPE Morpheus Enterprise Software product.
Subscription License	Means Right to Use the Software for a limited period of time, together with the associated support services as further described in the Supporting Material.
Supporting Material	Any additional documents, including service descriptions, data sheets, statements of work, additional license authorizations, and any other documents (excluding marketing material) which the parties identify as incorporated either by attachment or reference in the applicable agreement.
Use	To install, store, load, implement, and display one copy of the Software for internal use.

# Software-specific license terms

Unless the Software was obtained under a separate licensing agreement between you and Hewlett Packard Enterprise Company, its subsidiaries (“HPE”), or authorized HPE partners, these Additional License Authorizations apply to the Use of the Software in addition to HPE Customer Terms – Portfolio, which may be found at [hpe.com/us/en/about/end-user-agreement-terms.html](https://hpe.com/us/en/about/end-user-agreement-terms.html) or the HPE end user license agreement, which may be found at [hpe.com/software/SWLicenseing](https://hpe.com/software/SWLicenseing). These Additional License Authorizations shall govern delivery of the products described in this document and take precedence over any different terms in your agreement to the extent of a conflict.

## Non-HPE Hardware and Software

Unless the software was obtained under a separate licensing agreement between you and Hewlett Packard Enterprise Company, its subsidiaries (“HPE”), or authorized HPE partners, this Additional License Authorizations is subject to the end user license agreement (the "Agreement")., which may be (i) found at: [hpe.com/software/SWLicenseing](https://hpe.com/software/SWLicenseing) for HPE branded software, or (ii) deployed as a click through agreement when first using an Aruba branded software solution. Software products with software-specific license terms are described below.

Software products with software-specific license terms are described below.

Product	License Type	License Term
HPE X10000 Data Intelligence software	Subscription License	Each license entitles the Licensee to Use the Software for one (1) server during a period of 3 years, or 5 years (each a “Subscription Period”), as applicable.

During the Subscription Period, the Licensee is entitled to support services for the Software in accordance with the HPE Tech Care Service data sheet located here: [hpe.com/us/en/collaterals/collateral.a00108652enw.html](https://hpe.com/us/en/collaterals/collateral.a00108652enw.html).

## Software-specific prerequisites

The licensee is responsible for maintaining (updating and upgrading) the Red Hat® Operating System required to run on the physical Server that is part of any HVM Clusters provisioned from within the Software.

Interfering with or disabling any software designed to allow HPE to monitor consumption will be a material breach of this license.

## Additional license terms

Term
A Software may contain open-source and/or third-party software and associated specifications that are confidential to, and trade secrets of, such parties. You will not take any action other than to use it as authorized under the applicable agreement as part of the software products and will not disclose it to third parties.
B All Evaluation Licenses are provided “as is” and to the extent permitted by law, HPE disclaims all warranties and liability.

# Open-source Software and the HPE Open-source Download Site

Open-source software (such as OpenSSL) or third-party software (such as Java) is sometimes included in HPE products, including the software. The table below lists the open-source software components and respective licenses included in the Software as of the date of this ALA.

In addition to the following open-source licenses referenced and contained in this document, Customers may also obtain license information documents for certain HPE products and solutions that use open-source software at [hpe.com/software/opensource](https://hpe.com/software/opensource).

## List of Open-source by HPE X10000 data intelligence software components
