

Overview

Commvault

Commvault provides an industry-leading Intelligent Data Services platform that is tested and validated with HPE Storage and Server products, including Primera, Nimble Storage, StoreOnce Systems, Apollo, ProLiant, SimpliVity and dHCI platforms and Cloud Volumes Backup. These services enable your organizations to efficiently manage their data regardless of where it lives (on-premises or the cloud), protect and recover from threats like ransomware, and modernize your data protection. Through the HPE Complete program, you get the benefit of a convenient, one-stop shop for validated backup and recovery solutions, reducing risk and improving recovery readiness. This allows you to focus on enhanced business outcomes like:

- **Data protection for hybrid cloud** environments enabling improved multi-cloud support to optimize flexibility
- **Enhanced ability to protect and recover from threats like ransomware through a multi-layered approach.**
- **Backup as-a-Service** offerings providing turnkey, consumption-based service through HPE GreenLake and Metallic BaaS

Data Protection for Hybrid Cloud	Protect and Recover from Ransomware	Backup as a Service
<p>Improve recovery SLAs (IntelliSnap® integration w/ HPE Primera, HPE 3PAR, Nimble Storage and HPE XP)</p> <p>Enable seamless backup to cloud (HPE StoreOnce Catalyst, HPE SimpliVity, HPE dHCI, HPE Cloud Volumes Backup and Cloud Bank Storage integration)</p> <p>Provide predictable/scalable performance (Commvault HyperScale™ X Reference Designs with HPE Apollo and HPE ProLiant)</p> <p>Protect data in hybrid cloud environments (HPE ProLiant for MS Azure Stack protection)</p>	<p>Secure foundation with integrated multifactor authentication</p> <p>Advanced monitoring and alerting for quicker response to potential attacks.</p> <p>Automated copy management to immutable/air gapped locations.</p> <p>Integration with HPE StoreOnce Catalyst and HPE Cloud Volumes Backup to enable seamless backup to secondary locations with immutability.</p> <p>Rapid recovery of data with granular precision via integration of Commvault IntelliSnap(R) technology with HPE storage arrays</p>	<p>Deliver a consumption-based offering (via HPE GreenLake)</p> <p>Provides a complete solution (includes all HW, SW and Services)</p> <p>Offer simplified consumption model</p> <p>Improve time to market (extra capacity available as needed)</p> <p>Allows customer to scale their infrastructure in line with the needs of the business</p> <p>Now includes option to scale out with Commvault HyperScale™ X</p>

Benefits of Commvault and HPE

Data Protection for Hybrid Cloud

HPE and Commvault integrated solutions simplify protecting data in hybrid cloud environments with flexible deployment options across traditional scale-up and modern scale-out architectures that allow customers to:

- **Improve recovery SLAs** through Commvault IntelliSnap® technology integration with HPE Primera, , Nimble Storage, and XP.
- **Seamlessly backup data to the cloud** for long-term retention and reliable disaster recovery through Commvault Backup and Recovery integration with HPE StoreOnce Catalyst. Customers can directly backup to the cloud with HPE Cloud Volumes Backup. StoreOnce customers can easily move their backup data to the cloud using HPE Cloud Bank Storage, for long term retention of data in the cloud.
- **Deliver predictable and scalable performance** using a software-defined scale-out architecture with Commvault HyperScale™ X Technology Reference Designs for HPE Apollo and ProLiant servers. Eliminates forklift upgrades.
- **Protect, recover, and manage data** on-premises in hybrid environments through integration with HPE ProLiant for Microsoft Azure Stack.

Overview

HPE and Commvault solutions provide customers robust, multi-layered protection that keeps your organization safe from ransomware and ensures business continuity through rapid recovery of data.

- Hardened, secure foundation built on zero-trust principles
- Commvault integration with HPE StoreOnce Catalyst, HPE Cloud Volumes Backup, and HPE storage technologies, including HPE StoreEver tape, to leverage the immutability and air gapped capabilities to automate the secure storage of secondary copies for recovery.
- AI-based anomaly detection and “honeypot” files to detect potential attacks faster
- Single pane of glass for advanced monitoring, dashboards, and alerting capabilities across your entire data portfolio
- Rapid recovery of mission-critical data using the intelligent index to accelerate the search and recovery of files. This is enabled through the seamless integration of Commvault IntelliSnap® technology with HPE Primera, Nimble and XP.

HPE GreenLake Backup as-a-Service

Data Protection through HPE GreenLake is a consumption-based service offering that combines the simplicity, agility, and economics of public cloud with the security and performance benefits of an on-premises backup environment. It provides the following benefits:

- **Complete solution.** Data Protection through GreenLake includes all required hardware, software (including Commvault Backup and Recovery), and services to deliver an end-to-end solution, eliminating the challenges of backup capacity planning, provisioning, and billing.
- **Simplified metering.** Consumption is based on front-end terabytes (FET) metering. Simply determine the amount of data to be protected, freeing you from worrying about the number of copies that will be kept. This allows you to predictably control backup costs.
- **Improved time to market.** HPE creates a local buffer of backup resources beyond what is needed now. The extra capacity is deployed ahead of any oncoming demand and ready to be activated when needed.
- **Commvault HyperScale™ X** integration with HPE storage enables modern scale out storage options for cost optimization and cloud economics on-premises and for optimized hybrid cloud.

Commvault Metallic Backup as a Service, Powered by Commvault, delivers enterprise-grade, industry-leading data protection, with the simplicity of SaaS.

- Comprehensive coverage across on-prem, cloud, and SaaS workloads
- Ransomware protection, with built-in anomaly detection and air gapped, immutable backups
- Truly turnkey -- rapid deployment to get you up-and-running in minutes
- Hardened security, with Azure Government Cloud and FedRAMP High options

Metallic for FedRAMP

Commvault recently announced its new Metallic Government Cloud offerings along with achievement of high ready status for its Metallic Backup-as-a-Service (BaaS) portfolio and Metallic Cloud Storage Service (MCSS) from FedRAMP.

- This makes Metallic the only comprehensive SaaS data protection solution to currently meet the highest confidentiality, integrity and availability standards recognized by the US government.
- FedRAMP High approval represents the gold standard for security, covering critical controls of automation, management oversight, reporting, monitoring, and more.

Overview

HPE Complete- Resell of Third Party Branded Products

Benefits

- One Stop Shop - Purchase complete solutions from HPE that include best in class third-party branded products, all on a single HPE purchase order.
- Validated Solution - Confidence of the HPE interop assurance validation for third party branded products that complement HPE Storage and Server solutions.
- Customer Experience - HPE Complete utilizes third-party expertise for installation, support, and warranty of their products. However, HPE Complete will step in to facilitate third-party issue resolution when needed to assist in overall customer satisfaction. HPE products that are part of the overall solution are supported per HPE Pointnext services and support purchased. For Commvault, HPE Pointnext offers Deployment and Consulting Services.
- Unique Value – Minimize risk, complexity and cost when deploying multi-vendor products and technologies into the HPE ecosystem. Many solutions come with custom HPE/Partner configuration and integration guides and tools.

Hewlett Packard Enterprise is making the following Commvault SKUs available via HPE Complete:

Notes: All Subscription SKUs include Commvault Premium 24X7 support

Description

SKU

Commvault Complete™ Data Protection for Non-Virtual and File per TB

Commvault Data Protection for Non-virtual and File per Front End TB 1-year Subscription E-LTU	R6Y75AAE
Commvault Data Protection for Non-virtual and File per Front End TB 3-year Subscription E-LTU	R6Y76AAE
Commvault Data Protection for Non-virtual and File per Front End TB 5-year Subscription E-LTU	R6Y77AAE
Commvault Data Protection for Non-virtual and File per Front End TB Perpetual E-LTU	R6Y74AAE
Commvault Data Protection for Non-virtual and File per Front End TB 1-month Maintenance	R6Y78AAE

Commvault Complete™ Data Protection for Virtual Machines per VM 10-packs

Commvault Data Protection for Virtual Machines per VM 10-pack 1-year Subscription E-LTU	R6Y80AAE
Commvault Data Protection for Virtual Machines per VM 10-pack 3-year Subscription E-LTU	R6Y81AAE
Commvault Data Protection for Virtual Machines per VM 10-pack 5-year Subscription E-LTU	R6Y82AAE
Commvault Data Protection for Virtual Machines per VM 10-pack Perpetual E-LTU	R6Y79AAE
Commvault Data Protection for Virtual Machines per VM 10-pack 1-month Maintenance	R6Y83AAE

Commvault Backup and Recovery for Non-Virtual and File per TB

Commvault Backup and Recovery for Non-virtual and File per Front End TB 1-year Subscription E-LTU	R6Y60AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB 3-year Subscription E-LTU	R6Y61AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB 5-year Subscription E-LTU	R6Y62AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB Perpetual E-LTU	R6Y59AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB 1-month Maintenance	R6Y63AAE

Commvault Backup and Recovery for Non-Virtual and File per OI

Commvault Backup and Recovery for Non-virtual and File per Operating Instance 1yr Subscription E-LTU	R6Y50AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance 3yr Subscription E-LTU	R6Y51AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance 5yr Subscription E-LTU	R6Y52AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance Perpetual E-LTU	R6Y49AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance 1-month Maintenance	R6Y53AAE

Commvault Metallic Salesforce Backup and Recovery (BUR)

Notes: The monthly tiers represents the number of Salesforce users that require Metallic BUR Essentials, per month

Commvault Metallic Salesforce Backup and Recovery Monthly Tier A 1-year Subscription E-LTU	R8U45AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier B 1-year Subscription E-LTU	R8U46AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier C 1-year Subscription E-LTU	R8U47AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier D 1-year Subscription E-LTU	R8U48AAE

Commvault Metallic Non-Commit Monthly SKUs

Notes: The non-commit monthly SKUs are for customers that desire to “pay by consumption per month” and do not want to purchase Metallic as a prepaid subscription

Commvault Metallic Dynamics Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U05AAE
Commvault Metallic Database Backup Non-commit Monthly E-LTU	R8U10AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Education Non-commit Monthly E-LTU	R8U19AAE
Commvault Metallic Endpoint Backup and Recovery eDiscovery Non-commit Monthly E-LTU	R8U24AAE
Commvault Metallic Endpoint Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U29AAE
Commvault Metallic File and Object Backup Non-commit Monthly E-LTU	R8U34AAE
Commvault Metallic Office 365 Backup and Recovery eDiscovery Non-commit Monthly E-LTU	R8U39AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U44AAE
Commvault Metallic Salesforce Backup and Recovery Non-commit Monthly E-LTU	R8U53AAE
Commvault Metallic VM and Kubernetes Backup Non-commit Monthly E-LTU	R8U58AAE

Commvault Metallic Cloud Storage Service

Notes: These Metallic Cloud Storage Services licenses are for per TB of cloud storage needed per month

Commvault Metallic Cloud Storage Service per TB Monthly US/CA Cool Tier Subscription E-LTU	R8T52AAE
Commvault Metallic Cloud Storage Service per TB Monthly US/CA Hot Tier Subscription E-LTU	R8T53AAE

Standard Features

Commvault

Offers products and solutions that fall into several different product lines: Commvault Complete™ Data Protection, Commvault Backup and Recovery, Commvault Disaster Recovery, Commvault HyperScale™ X Technology, and Commvault Activate™. Each product line carries with it a specific set of features and benefits that align to the customer value it provides.

Commvault Complete™ Data Protection

Commvault Complete™ Data Protection helps ensure data availability and business continuity across both your on-premises and cloud environments. It provides simple, scalable backup, replication and disaster recovery orchestration for all your workloads. It combines the features of Commvault Backup & Recovery and Commvault Disaster Recovery to provide robust enterprise-grade data protection and recovery for your entire IT infrastructure – from legacy applications to containers and cloud-native workloads. And it's all easily managed through an intuitive, web-based user interface with role-based access control, freeing-up your IT staff to focus on higher-value activities. It is a complete solution that:

- Delivers edge to cloud intelligent data services, providing end-to-end data protection
 - Protects and recovers from ransomware threats leveraging AI-based anomaly detection to identify suspicious activities, and automated copy management with integration into HPE storage
 - Simplifies the journey to cloud and also effectively manages data across cloud environment
-

Commvault Backup and Recovery.

Commvault Backup & Recovery provides enterprise-grade protection and recovery of virtual machines, containers, databases, applications, files and endpoints, with a single view for managing your entire environment. Commvault allows you to manage backed-up data and workloads efficiently and securely, both on-premises and in any public cloud. It provides

- Increased visibility and role-based access control that enables self-service, restricting unauthorized access while helping to eliminate data sprawl.
- Commvault's market-tested technology helps organizations extract more business value from that data to facilitate business planning and to improve business outcomes.
- Best-in-class flexibility, scalability and protection for the data – regardless of where it resides.

Commvault Disaster Recovery

As the number and types of your workloads increase – the cloud, VMs, containers, applications, databases and endpoints – so too does the complexity of protecting and managing it all. Commvault Disaster Recovery is a simplified, flexible and scalable solution that provides DR automation, replication and cost-optimized cloud data mobility. With multi-cloud integration, one-click failover, multi-tenancy support, live replication and intuitive reporting, Commvault enables you to protect and recover your entire data environment, wherever it resides.

- Ensures data and application availability and mitigates cyber threats
- Automated compliance reporting
- Verifiable recovery via copy data management

Commvault Metallic Backup as a Service

Powered by Commvault, delivers enterprise-grade, industry-leading data protection, with the simplicity of SaaS.

- Comprehensive coverage across on-prem, cloud, and SaaS workloads
- Ransomware protection, with built-in anomaly detection and air gapped, immutable backups
- Truly turnkey -- rapid deployment to get you up-and-running in minutes
- Hardened security, with Azure Government Cloud and FedRAMP High options

Metallic for FedRAMP

Commvault recently announced its new Metallic Government Cloud offerings along with achievement of high ready status for its Metallic Backup-as-a-Service (BaaS) portfolio and Metallic Cloud Storage Service (MCSS) from FedRAMP.

- This makes Metallic the only comprehensive SaaS data protection solution to currently meet the highest confidentiality, integrity and availability standards recognized by the US government.
 - FedRAMP High approval represents the gold standard for security, covering critical controls of automation, management oversight, reporting, monitoring, and more.
-

Standard Features

Commvault HyperScale™ X Technology

HyperScale X is an intuitive and easy to deploy, scale-out solution that is fully integrated with Commvault's intelligent data management platform to help enterprises transition from legacy scale-up infrastructures. It provides unmatched scalability, security, and resiliency to accelerate an organization's digital transformation journey as they move to hybrid cloud, container, and virtualized environments. Its flexible architecture allows you to get up and running quickly and grow as your needs demand.

Commvault HyperScale™ X Technology is available as a reference design (Commvault HyperScale™ X Software) using HPE Apollo or HPE ProLiant servers. It provides

- A modern data protection and management platform to enable cloud-like agility, resiliency and availability, improved hardware utilization and optimized costs;
- End-user efficiency with automation and self-service capabilities, and seamless storage scalability without forklift upgrades.
- True scale-out appliance, scalable by a single node, with innovative distributed storage platform.

Commvault Activate™

Actionable insight across your data – that's the power that Commvault Activate delivers to your fingertips. With dynamic and customizable dashboards, you can look into your data that resided in both your live systems and your backups and visualize that information. From our data analytics you can proactively manage your data risk, drive greater efficiency and be ready to respond to requests.

Commvault Activate is available as 3 stand alone offerings, based on customer needs and priorities:

Data Governance

Leverage AI/ML to find and identify sensitive data across your primary and/or backup data sources via the Entity Manager. Quickly remediate issues by quarantining live production data or even deleting sensitive files from backup copies. Redact sensitive information from files prior to export and review. Orchestrate review, audit and reporting for compliance processes with Request Manager's built-in workflows.

File Storage Optimization

Lower operating costs and avoid data sprawl by easily identifying and removing obsolete, duplicate, or redundant data. Assign ownership to remediate orphaned data and reduce the risk of data loss or exposure with the Entitlement Manager. Drive efficiency with insights into storage consumption by user, file type, age and tree size – facilitating chargeback and better data tiering.

eDiscovery & Compliance

A single global search for compliance related data across your on-premises, cloud, virtual, physical and endpoint data. Use Case Manager to flag relevant data for legal hold and further review. Integration and data export to external stakeholders as part of compliance or legal responses. Use document chaining to expand your search results

Service and Support

Service and Support for Commvault products

Are provided directly by Commvault. For any support and generic queries please visit the Commvault customer support portal at <https://ma.commvault.com>. Commvault's customer support organization will be responsible for responding to a call and working with the customer to assign a severity level to the call. The support request will be processed by Commvault in accordance with its support policies which can be found at <https://ma.commvault.com/Content/pdf/CommVault-Support-Terms.pdf>.

Commvault Premium Support

Premium Support is designed to address the needs of many enterprises with mission-critical data management environments. The Premium Support option includes access to:

- Commvault's Customer Support Center (anytime, including holidays)
- The Commvault Maintenance Advantage self-help website, on a 24x7 basis
- Critical software updates, product enhancements, and new release notifications
- e-Support Platforms including Incident Management, Knowledge Database, Commvault Documentation, and Commvault Forums

Commvault Enterprise Support

Enterprise Support Program is Commvault's most comprehensive support offering and is designed to provide strategic, world-class technical management for all aspects of our customers' enterprise data management solution. We partner fully with our customers to enable their success, and to provide business stakeholders with the highest level of customer satisfaction, all while safeguarding technology investments and intellectual property. HPE/Commvault customers can choose from a variety of Enterprise Support options that met the needs of their business.

Notes: Commvault Enterprise Support is an add-on service to Commvault Premium Support.

Metallic Support

Access Metallic Customer Support via chat, phone, or by submitting a customer support case via the Metallic Hub. Live agents are available 24/5 and Critical support is available 24/7.

Metallic Customer Support SLAs response targets to cases under the Metallic offering will be based on the assigned priority level, ranging from Critical priority (1 hour response target) to Low priority (24 hour response target). For more information on Metallic support, visit: <https://metallic.io/support>

Warranty

With the exception of products provided for beta, demonstration, test or evaluation purposes or that is labeled "Not for Resale", Commvault warrants that the products licensed hereunder shall be new and shall operate substantially in accordance with its user documentation for a period of ninety (90) days from the date of shipment by Commvault or its licensors (hereinafter the "Warranty Period"). If, during the Warranty Period, any product is defective, Commvault's sole liability, and the customer's sole remedy, shall be, at Commvault's option, (i) repair or replacement of the product which does not comply with this warranty, or (ii) return of the amount paid for the product which does not comply with the warranty.

See other Warranty Limitations and Restrictions below. This warranty is subject to the more complete description of the warranty for the Commvault products which can be found in the End User License and Limited Warranty Agreement. Nothing in this warranty is intended to exclude, restrict or modify any rights that a customer may have under any applicable legislation, which may not be excluded, restricted or modified by agreement.

Return Policy for Resellers

The purchase of Commvault products is final and non-refundable. Stocking of Commvault products is not recommended. Please purchase accurate quantities required to fulfill the customer order.

Service and Support

Limitations and Restrictions

The terms of the warranty are limited to the remedies as set forth in this warranty. This warranty is provided in lieu of all other rights, conditions and warranties, express or implied, in fact or by operation of law. Commvault makes no other express or implied warranty with respect to the software, hardware, other products, services, documentation or Commvault support, including, without limitation, any warranty of merchantability, fitness for a particular purpose lack of viruses and non-infringement of third party rights. Commvault does not warrant that any products will operate uninterrupted or be error-free, or that any defects that may exist in its products can be corrected.

In no event shall Commvault, or its licensors, be liable for cost of procurement of substitute products or services, lost profits or any other special, indirect, consequential or incidental damages (including but not limited to lost information or data), however caused whether or not Commvault has been advised of the possibility of such damages. Some jurisdictions do not allow limitation or exclusion of liability for consequential or incidental damages, so that limitation or exclusion may not apply. In the event that Commvault, or its licensors, are subject to any liability in connection with the products or services, for any reason whatsoever, their liability shall not exceed the amount paid by the customer for the products or services, respectively, which gave rise to the liability. This limitation shall apply even if Commvault has been advised of the possibility of such damages.

HPE Pointnext - Service and Support

Get the most from your HPE Products. Get the expertise you need at every step of your IT journey with **HPE Pointnext Services**. We help you lower your risks and overall costs using automation and methodologies that have been tested and refined by HPE experts through thousands of deployments globally. HPE Pointnext **Advisory Services** focus on your business outcomes and goals, partnering with you to design your transformation and build a roadmap tuned to your unique challenges. Our **Professional** and **Operational Services** can be leveraged to speed up time-to-production, boost performance and accelerate your business. HPE Pointnext specializes in flawless and on-time implementation, on-budget execution, and creative configurations that get the most out of software and hardware alike.

Consume IT on your terms

HPE GreenLake brings the cloud experience directly to your apps and data wherever they are—the edge, colocations, or your data center. It delivers cloud services for on-premises IT infrastructure specifically tailored to your most demanding workloads. With a pay-per-use, scalable, point-and-click self-service experience that is managed for you, HPE GreenLake accelerates digital transformation in a distributed, edge-to-cloud world.

- Get Faster time to market
- Save on TCO, align costs to business
- Scale quickly, meet unpredictable demand
- Simplify IT operations across your data centers and clouds

Recommended Services

HPE Pointnext Tech Care*.

Notes: *Minimum required level of support is 3yr Tech Care Basic

HPE Pointnext Tech Care is the new operational service experience for HPE products. Tech Care goes beyond traditional support by providing access to product specific experts, an AI driven digital experience, and general technical guidance to not only reduce risk but constantly search for ways to do things better. HPE Pointnext Tech Care has been reimagined from the ground up to support a customer-centric, AI driven, and digitally enabled customer experience to move your business forward. HPE Pointnext Tech Care is available in three response levels. Basic, which provides 9x5 business hour availability and a 2 hour response time. Essential which provides a 15 minute response time 24x7 for most enterprise level customers, and Critical which includes a 6 hour repair commitment where available and outage management response for severity 1 incidents.

Configuration Information

Configuration

Commvault via HPE Complete configurations are as follows: (Commvault standard Backup & Recovery License options and solutions are listed in steps 1 to 26, while the Metallic Backup as a service options are listed in step 27)

Select Commvault Licenses and Services (Step number)

- Complete™ Data Protection for Non-Virtual and File per TB Subscriptions (1a) or Perpetual (1b and 1c)
- Complete™ Data Protection for Virtual Machines per VM 10-pack Subscriptions (2a) or Perpetual (2b and 2c)
- Backup and Recovery for Non-Virtual and File per TB Subscriptions (3a) or Perpetual (3b and 3c)
- Backup and Recovery for Non-Virtual and File per OI Subscriptions (4a) or Perpetual (4b and 4c)
- Backup and Recovery for Non-Virtual File and Object Data per TB Subscriptions (5a) or Perpetual (5b and 5c)
- Backup and Recovery for Virtual Machines per VM 10-pack Subscriptions (6a) or Perpetual (6b and 6c)
- Backup and Recovery for Mail and Cloud Applications per User Subscriptions (7a) or Perpetual (7b and 7c)
- Backup and Recovery for Endpoints per User Subscriptions (8a) or Perpetual (8b and 8c)
- Disaster Recovery for Non-Virtual and File per TB Subscriptions (9a) or Perpetual (9b and 9c)
- Disaster Recovery for Virtual Machines per VM 10-pack Subscriptions (10a) or Perpetual (10b and 10c)
- eDiscovery for Non-Virtual and File per TB Subscriptions (11a) or Perpetual (11b and 11c)
- eDiscovery for Virtual Machines per VM 10-pack Subscriptions (12a) or Perpetual (12b and 12c)
- eDiscovery for Mail and Cloud Applications per User Subscriptions (13a) or Perpetual (13b and 13c)
- eDiscovery for Endpoints per User Subscriptions (14a) or Perpetual (14b and 14c)
- File Optimization for Non-Virtual and File per TB Subscriptions (15a) or Perpetual (15b and 15c)
- File Optimization for Virtual Machines per VM 10-pack Subscriptions (16a) or Perpetual (16b and 16c)
- Sensitive Data Governance for Non-Virtual and File per TB Subscriptions (17a) or Perpetual (17b and 17c)
- Sensitive Data Governance for Virtual Machines per VM 10-pack Subscriptions (18a) or Perpetual (18b and 18c)
- Sensitive Data Governance for Mail and Cloud Applications per User Subscriptions (19a) or Perpetual (19b and 19c)
- Sensitive Data Governance for Endpoints per User Subscriptions (20a) or Perpetual (20b and 20c)
- HyperScale™ X Reference Architecture 4-drive Node Subscriptions (21b) or Perpetual (21c and 21d)
- HyperScale™ X Reference Architecture 12-drive Node Subscriptions (22b) or Perpetual (22c and 22d)
- HyperScale™ X Reference Architecture 24-drive Node Subscriptions (23b) or Perpetual (23c and 23d)
- Commvault and HPE Professional Services and Training (24a, 24b and 24c)
- Commvault Enterprise Support and Perpetual Renewal Support (25a and 25b)
- Choose HPE Server Nodes (26)
- Commvault Metallic Backup as a service (27a, to 27n)

Notes: OI Licensing will be capped at 500GB. When a protected operating instance exceeds 500GB, an additional OI license will be consumed for every additional 500GB protected on that server, NAS, or file repository.

Notes: The Commvault Metallic for FedRAMP offerings are available via the HPE Ordering (OCA) tool and require an approval for quoting and ordering. The approval is required to verify that these products are being sold to a US Fed account only.

Step 1 – Complete Data Protection for Non-Virtual and File per TB

Commvault Complete Data Protection for Non-Virtual and File per front-end terabyte consists of all the software required to conduct backup and recovery activities, as well as automated Disaster Recovery operations on non-virtualized systems, such as physical Application or File servers, NAS Devices, and Cloud File repositories, with additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology. Does not include Mailbox Granular Level backup/archive or Endpoint Protection, which must be added on a per-user license basis.

Configuration Information

Step 1a – Complete Data Protection for Non-Virtual and File per TB Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Description

	SKU
Commvault Data Protection for Non-virtual and File per Front End TB 1-year Subscription E-LTU	R6Y75AAE
Commvault Data Protection for Non-virtual and File per Front End TB 3-year Subscription E-LTU	R6Y76AAE
Commvault Data Protection for Non-virtual and File per Front End TB 5-year Subscription E-LTU	R6Y77AAE

Step 1b – Complete Data Protection for Non-Virtual and File per TB Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Data Protection for Non-virtual and File per Front End TB Perpetual E-LTU	R6Y74AAE
---	----------

Step 1c – Complete Data Protection for Non-Virtual and File per TB Perpetual Maintenance

Commvault Complete Data Protection for Non-Virtual and File per front-end terabyte maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Data Protection for Non-virtual and File per Front End TB 1-month Maintenance	R6Y78AAE
---	----------

Step 2 – Complete Data Protection for Virtual Machines per VM 10-pack

Commvault Complete Data Protection for Virtual Machines per VM 10-pack consists of all the software required to conduct backup and recovery activities, as well as automated Disaster Recovery operations for data contained within Virtual Machines with additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology. Does not include Mailbox Granular Level backup/archive or Endpoint Protection, which must be added on a per-user license basis.

Step 2a – Complete Data Protection for Virtual Machines per VM 10-pack Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Commvault Data Protection for Virtual Machines per VM 10-pack 1-year Subscription E-LTU	R6Y80AAE
Commvault Data Protection for Virtual Machines per VM 10-pack 3-year Subscription E-LTU	R6Y81AAE
Commvault Data Protection for Virtual Machines per VM 10-pack 5-year Subscription E-LTU	R6Y82AAE

Step 2b – Complete Data Protection for Virtual Machines per VM 10-pack Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Data Protection for Virtual Machines per VM 10-pack Perpetual E-LTU	R6Y79AAE
---	----------

Step 2c – Complete Data Protection for Virtual Machines per VM 10-pack Perpetual Maintenance

Commvault Complete Data Protection for Virtual Machines per VM 10-pack maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Data Protection for Virtual Machines per VM 10-pack 1-month Maintenance	R6Y83AAE
---	----------

Step 3 – Backup and Recovery for Non-Virtual and File per TB

Commvault Backup and Recovery for Non-Virtual and File per TB licensing consists of all the software required to conduct backup and recovery activities on non-virtualized systems, such as physical Application or File servers, NAS Devices, and Cloud File repositories with additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology. Does not include Mailbox Granular Level backup/archive or Endpoint Protection, which must be added on a per-user license basis.

Configuration Information

Step 3a – Backup and Recovery for Non-Virtual and File per TB Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for the total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Description

	SKU
Commvault Backup and Recovery for Non-virtual and File per Front End TB 1-year Subscription E-LTU	R6Y60AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB 3-year Subscription E-LTU	R6Y61AAE
Commvault Backup and Recovery for Non-virtual and File per Front End TB 5-year Subscription E-LTU	R6Y62AAE

Step 3b – Backup and Recovery for Non-Virtual and File per TB Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Non-virtual and File per Front End TB Perpetual E-LTU	R6Y59AAE
---	----------

Step 3c – Backup and Recovery for Non-Virtual and File per TB Perpetual Maintenance

Commvault Backup and Recovery for Non-Virtual and File per TB maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Backup and Recovery for Non-virtual and File per Front End TB 1-month Maintenance	R6Y63AAE
---	----------

Step 4 – Backup and Recovery for Non-Virtual and File per OI

Commvault Backup and Recovery for Non-Virtual per OI consists of all the software required to conduct backup and recovery activities on non-virtualized systems, such as physical Application or File servers, NAS Devices, and Cloud File repositories with additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology. Does not include Mailbox Granular Level backup/archive or Endpoint Protection, which must be added on a per-user license basis.

An Operating Instance is defined as any physical operating environment with a distinct server name or identity that has a Commvault intelligent Data Agent (iDA) configured to capture data from it. Physical Servers are any Server or NAS Entity that is not running a Commvault-recognized Hypervisor.

Notes: Capped Operating Instance licensing is limited to protecting up to 500GB on a given server or entity. If more than 500GB of data is protected, an additional OI license will be consumed for each additional 500GB increment.

Step 4a – Backup and Recovery for Non-Virtual and File per OI Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Commvault Backup and Recovery for Non-virtual and File per Operating Instance 1yr Subscription E-LTU	R6Y50AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance 3yr Subscription E-LTU	R6Y51AAE
Commvault Backup and Recovery for Non-virtual and File per Operating Instance 5yr Subscription E-LTU	R6Y52AAE

Step 4b – Backup and Recovery for Non-Virtual and File per OI Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Non-virtual and File per Operating Instance Perpetual E-LTU	R6Y49AAE
---	----------

Step 4c – Backup and Recovery for Non-Virtual and File per OI Perpetual Maintenance

Commvault Backup and Recovery for Non-Virtual and File per OI maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Backup and Recovery for Non-virtual and File per Operating Instance 1-month Maintenance	R6Y53AAE
---	----------

Configuration Information

Step 5 – Backup and Recovery for Non-Virtual File and Object Data per TB

Commvault Backup and Recovery for Non-Virtual File and Object storage consists of all the tools needed to backup a limited set of data types, such as unstructured File Systems, NAS, Cloud Storage Repositories, and Object Storage. Rights to protect structured databases (such as SQL, Oracle, etc) are excluded from this package. Additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology. Does not include Mailbox Granular Level backup/archive or Endpoint Protection, which must be added on a per-user license basis. This package may be used in conjunction with the more encompassing Non-Virtual TB Packaging to provide a complete solution for both Applications/Databases as well as unstructured file data.

Step 5a – Backup and Recovery for Non-Virtual File and Object Data per TB Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for the total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Description

	SKU
Commvault Backup and Recovery for Non-virtual File and Object Data per Front End TB 1-year E-LTU	R8D42AAE
Commvault Backup and Recovery for Non-virtual File and Object Data per Front End TB 3-year E-LTU	R8D43AAE
Commvault Backup and Recovery for Non-virtual File and Object Data per Front End TB 5-year E-LTU	R8D44AAE

Step 5b – Backup and Recovery for Non-Virtual File and Object Data per TB Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Non-virtual File and Object Data per Front End TB Perpetual E-LTU	R8D41AAE
---	----------

Step 5c – Backup and Recovery for Non-Virtual File and Object Data per TB Perpetual Maintenance

Commvault Backup and Recovery for Non-Virtual File and Object Data per TB maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Backup and Recovery for Non-virtual File and Object Data per Front End TB 1mo Maintenance	R8D45AAE
---	----------

Step 6 – Backup and Recovery for Virtual Machines per VM 10-pack

Commvault Backup and Recovery for Virtual Machines per VM 10-pack licensing consists of all software required to conduct backup and recovery activities for data contained within Virtual Machines with additional features included for VM archive, operational reporting, and VM snapshot management, commonly known as Commvault IntelliSnap® technology.

Step 6a – Backup and Recovery for Virtual Machines per VM 10-pack Subscriptions

1,3 & 5 year; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Commvault Backup and Recovery for Virtual Machines per VM 10-pack 1-year Subscription E-LTU	R6Y70AAE
Commvault Backup and Recovery for Virtual Machines per VM 10-pack 3-year Subscription E-LTU	R6Y71AAE
Commvault Backup and Recovery for Virtual Machines per VM 10-pack 5-year Subscription E-LTU	R6Y72AAE

Step 6b – Backup and Recovery for Virtual Machines per VM 10-pack Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Virtual Machines per VM 10-pack Perpetual E-LTU	R6Y69AAE
---	----------

Step 6c – Backup and Recovery for Virtual Machines per VM 10-pack Perpetual Maintenance

Commvault Backup and Recovery for Virtual Machines per VM 10-pack maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Backup and Recovery for Virtual Machines per VM 10-pack 1-month Maintenance	R6Y73AAE
---	----------

Configuration Information

Step 7 – Backup and Recovery for Mail and Cloud Applications per User

Backup and Recovery for Mail and Cloud per User consists of all software required to protect the leading mail and user productivity platforms. Each user and application combination will be considered a unique user. For instance, a user that has their Office365 data and their Salesforce.com data protected would require two user licenses. One for each User/Application combination.

Notes: Licenses are per User

Step 7a – Backup and Recovery for Mail and Cloud Applications per User Subscriptions

Backup and Recovery for Mail and Cloud per User Subscriptions

Notes :

- 1, 3 & 5 year Subscriptions can be renewed at the end of the commitment period.
- Subscription LTUs include 24X7 Commvault Premium support.

Description

	SKU
Commvault Backup and Recovery for Mail and Cloud Applications per User 1-year Subscription E-LTU	R6Y65AAE
Commvault Backup and Recovery for Mail and Cloud Applications per User 3-year Subscription E-LTU	R6Y66AAE
Commvault Backup and Recovery for Mail and Cloud Applications per User 5-year Subscription E-LTU	R6Y67AAE

Step 7b – Backup and Recovery for Mail and Cloud Applications per User Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Mail and Cloud Applications per User Perpetual E-LTU	R6Y64AAE
--	----------

Step 7c – Backup and Recovery for Mail and Cloud Applications per User Perpetual Maintenance

Backup and Recovery for Mail and Cloud per User Perpetual Maintenance

Commvault Backup and Recovery for Mailboxes maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault Backup and Recovery for Mail and Cloud Applications per User 1-month Maintenance	R6Y68AAE
--	----------

Step 8 – Backup and Recovery for Endpoints per User

Backup and Recovery for Endpoints per User consists of all software required to protect desktops and laptops, with end-user self service additionally being provided. Additional features used for securing the device and its data are also covered under this license package. In order for this licensing to be engaged, an end-user account must be assigned to the targeted device(s). If no user is assigned, licensing will revert to per TB or OI licensing.

Notes: Licenses are per Endpoint User

Step 8a – Backup and Recovery for Endpoints per User Subscriptions

Notes:

- 1, 3 & 5 year Subscriptions; can be renewed at the end of the commitment period.
- Notes: Subscription LTUs include 24X7 Commvault Premium support.

Commvault Backup and Recovery for Endpoint Users per User 1-year Subscription E-LTU	R6Y55AAE
Commvault Backup and Recovery for Endpoint Users per User 3-year Subscription E-LTU	R6Y56AAE
Commvault Backup and Recovery for Endpoint Users per User 5-year Subscription E-LTU	R6Y57AAE

Step 8b – Backup and Recovery for Endpoints per User Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault Backup and Recovery for Endpoint Users per User 1-month Maintenance	R6Y58AAE
---	----------

Configuration Information

Step 8c – Backup and Recovery for Endpoints per User Perpetual Maintenance

Commvault Backup and Recovery for Endpoints per User maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Description

Commvault Backup and Recovery for Endpoint Users per User 1-month Maintenance

SKU

Configuration Information

Step 11 – eDiscovery for Non-Virtual and File per TB

Commvault eDiscovery for Non-Virtual and File per TB consists of eDiscovery and search compliance for Files which uses Commvault's extended content index and search capabilities in conjunction with Case Management tools to create review sets and provide legal hold for data that may be subject to inspection. Licensing is per TB analyzed. These can be ordered standalone and do not require any other Commvault SW installation. For further details consult the Commvault license guide at <http://documentation.commvault.com/commvault/v11/others/pdf/commvault-complete-license-guide.pdf>

Step 11a – eDiscovery for Non-Virtual and File per TB Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Description

	SKU
Commvault eDiscovery for Non-virtual and File per Front End TB 1-year Subscription E-LTU	R6Z00AAE
Commvault eDiscovery for Non-virtual and File per Front End TB 3-year Subscription E-LTU	R6Z01AAE
Commvault eDiscovery for Non-virtual and File per Front End TB 5-year Subscription E-LTU	R6Z02AAE

Step 11b – eDiscovery for Non-Virtual and File per TB Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault eDiscovery for Non-virtual and File per Front End TB Perpetual E-LTU	R6Y99AAE
--	----------

Step 11c – eDiscovery for Non-Virtual and File per TB Perpetual Maintenance

Commvault eDiscovery for Non-Virtual and File per TB maintenance and support. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault eDiscovery for Non-virtual and File per Front End TB 1-month Maintenance	R6Z03AAE
--	----------

Step 12 – eDiscovery for Virtual Machines per VM 10-pack

Commvault eDiscovery for Virtual Machines per VM 10-pack consists of eDiscovery and search compliance for VMs which uses Commvault's extended content index and search capabilities in conjunction with Case Management tools to create review sets and provide legal hold for data that may be subject to inspection. Licensing is per 10 VMs analyzed. These can be ordered standalone and do not require any other Commvault SW installation. For further details consult the Commvault license guide at <http://documentation.commvault.com/commvault/v11/others/pdf/commvault-complete-license-guide.pdf>

Step 12a – eDiscovery for Virtual Machines per VM 10-pack Subscriptions

1, 3 & 5 Year Subscription Licenses; pricing listed for total term of the subscription; can be renewed at the end of the commitment period.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Commvault eDiscovery for Virtual Machines per VM 10-pack 1-year Subscription E-LTU	R6Z10AAE

Commvault Sensitive Data Governance for Endpoint Users per User 1-month Maintenance	R6Z28AAE
---	----------

Configuration Information

Step 21 – HyperScale™ X Reference Architecture 4-drive Node

Commvault HyperScale™ X Software for RA is a simple and flexible way to implement Commvault HyperScale™ Technology into both new and existing Commvault environments. HyperScale X is licensed as an add-on to the Commvault software portfolio, providing the flexibility to choose the licensing model that best fits your organization's needs. Commvault HyperScale™ X Software can be acquired either as perpetual or as subscription licensing. However, rather than being licensed on usable capacity, new Commvault HyperScale™ X Software is licensed per node based on the physical data drive count in the storage server.

Commvault HyperScale™ X Software is installed initially as a three-node solution with capacity added in single node or multi-node increments. Adding nodes to an existing deployment requires additional per node licensing in the same increments. Commvault HyperScale™ X Software per node licensing is consistent regardless of drive size used in the node.

Step 21a – HPE Server Configuration for HyperScale™ X

The recommended 4-drive HPE ProLiant DL360 based server configuration has been set up (with validated default options), as a pre-defined menu, in OCA, under Storage>HPE Complete Solutions.

If the pre-defined configuration above does not meet the customer use case, the HPE ProLiant DL360 based server configurations should be built via the HPE ordering (OCA) tool, using the BoM guidelines for Commvault HyperScale X validated 4-drive HPE server configurations, provided in this document:

<https://h20195.www2.hpe.com/v2/Getdocument.aspx?docname=a00060014enw&skiptml=1>

Step 21b – HyperScale™ X Reference Architecture 4-drive Node Subscriptions

1-5 year subscription license, which can be renewed at the end of the term. If not renewed, software will enter into a read/recover-only state where no new backups can be executed. May be added to any existing or new Commvault deployment, however Commvault HyperScale™ X Software will not function without other Commvault Complete Data Protection licensing present.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

Description

SKU

Commvault HyperScale X 4-drive Node per Node 1-year Subscription E-LTU	R8S99AAE
Commvault HyperScale X 4-drive Node per Node 2-year Subscription E-LTU	R8T00AAE

Commvault HyperScale X 4-drive Node per Node 5-year Subscription E-LTU	R8T03AAE

Step 21c – HyperScale™ X Reference Architecture 4-drive Node Perpetual License

Notes: Perpetual License; requires minimum of 12 months maintenance and support with initial purchase.

Commvault HyperScale X 4-drive Node per Node Perpetual E-LTU	R8S97AAE
--	----------

Step 21d – HyperScale™ X Reference Architecture 4-drive Node Perpetual Maintenance

Commvault HyperScale™ X software maintenance and support per Back End TB. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault HyperScale X 4-drive Node per Node 1-month Maintenance	R8S98AAE
--	----------

Step 22 – HyperScale™ X Reference Architecture 12-drive Node

Commvault HyperScale™ X Software for RA is a simple and flexible way to implement Commvault HyperScale™ Technology into both new and existing Commvault environments. HyperScale X is licensed as an add-on to the Commvault software portfolio, providing the flexibility to choose the licensing model that best fits your organization's needs. Commvault HyperScale™ X Software can be acquired either as perpetual or as subscription licensing. However, rather than being licensed on usable capacity, new Commvault HyperScale™ X Software is licensed per node based on the physical data drive count in the storage server.

Commvault HyperScale™ X Software is installed initially as a three-node solution with capacity added in single node or multi-node increments. Adding nodes to an existing deployment requires additional per node licensing in the same increments. Commvault HyperScale™ X Software per node licensing is consistent regardless of drive size used in the node.

Configuration Information

Step 22a – HPE Server Configuration for HyperScale™ X

The recommended 12-drive HPE ProLiant DL380 based server configuration has been set up (with validated default options), as a pre-defined menu, in OCA, under Storage>HPE Complete Solutions.

If the pre-defined configuration above does not meet the customer use case, the HPE ProLiant DL380 based server configurations should be built via the HPE ordering (OCA) tool, using the BoM guidelines for Commvault HyperScale X validated 12-drive HPE server configurations, provided in this document:

<https://h20195.www2.hpe.com/v2/Getdocument.aspx?docname=a00060014enw&skipthtml=1>

Step 22b – HyperScale™ X Reference Architecture 12-drive Node Subscriptions

1-5 year subscription license, which can be renewed at the end of the term. If not renewed, software will enter into a read/recover-only state where no new backups can be executed. May be added to any existing or new Commvault deployment, however Commvault HyperScale™ X Software will not function without other Commvault Complete Data Protection licensing present.

Notes: Subscription LTUs include 24X7 Commvault Premium support.

---	----------

Step 22d – HyperScale™ X Reference Architecture 12-drive Node Perpetual Maintenance

Commvault HyperScale™ X software maintenance and support per Back End TB. Minimum commitment of 12 months maintenance and support with initial purchase. Maintenance is listed in a monthly rate.

Commvault HyperScale X 12-drive Node per Node 1-month Maintenance	R7K50AAE
---	----------

Step 23 – HyperScale™ X Reference Architecture 24-drive Node

Commvault HyperScale™ X Software for RA is a simple and flexible way to implement Commvault HyperScale™ Technology into both new and existing Commvault environments. HyperScale X is licensed as an add-on to the Commvault software portfolio, providing the flexibility to choose the licensing model that best fits your organization's needs. Commvault HyperScale™ X Software can be acquired either as perpetual or as subscription licensing. However, rather than being licensed on usable capacity, new Commvault HyperScale™ X Software is licensed per node based on the physical data drive count in the storage server.

Commvault HyperScale™ X Software is installed initially as a three-node solution with capacity added in single node or multi-node increments. Adding nodes to an existing deployment requires additional per node licensing in the same increments. Commvault HyperScale™ X Software per node licensing is consistent regardless of drive size used in the node.

Step 23a – HPE Server Configuration for HyperScale™ X

The recommended 24-drive HPE Apollo 4200 based server configuration has been set up (with validated default options), as a pre-defined menu, in OCA, under Storage>HPE Complete Solutions.

If the pre-defined configuration above does not meet the customer use case, the HPE Apollo 4200 based server configurations should be built via the HPE ordering (OCA) tool, using the BoM guidelines for Commvault HyperScale X validated 24-drive HPE server configurations, provided in this document:

<https://h20195.www2.hpe.com/v2/Getdocument.aspx?docname=a00060014enw&skipthtml=1>

Configuration Information

Step 23b – HyperScale™ X Reference Architecture 24-drive Node Subscriptions

1-5 year subscription license, which can be renewed at the end of the term. If not renewed, software will enter into a read/recover-only state where no new backups can be executed. May be added to any existing or new Commvault deployment, however Commvault HyperScale™ X Software will not function without other Commvault Complete Data Protection licensing present.

Step 25b – Premium Perpetual Support Renewal

Commvault Premium Renewal Support	R6M20AAE
-----------------------------------	----------

Step 26 – Choose HPE Server Nodes (optional)

Select HPE Server for Commvault Software to run on (optional)

For installations that require a server to load and run the Commvault software on; HPE has created an, easy to order, optimized hardware bundle for use with the Commvault software.

Notes:

- Please create the HW configuration per the guidance provided in these Configuration guides:
HyperScale: <https://h20195.www2.hpe.com/v2/Getdocument.aspx?docname=a00060014enw>
CommCell: <https://www.hpe.com/h20195/v2/Getdocument.aspx?docname=a00058251enw>
- The Commvault software is server agnostic and is supported on all HPE Server platforms. However, it is critical that the selected server platform is configured to meet the specifications provided by Commvault. Here are links to Commvault's hardware requirements

[Hardware Specifications for Media Agents](#)

Step 27 – Commvault Metallic Backup as a service

Step 27a – Commvault Metallic Dynamics Backup and Recovery (BUR) Essentials Edition

Notes: The monthly tiers represents the number of MS Dynamics users that require Metallic BUR Essentials, per month.

The tiering limits have been provided in the table below

Commvault Metallic Dynamics Backup and Recovery Essentials Monthly Tier A 1-year Subscription E-LTU	R8T27AAE
Commvault Metallic Dynamics Backup and Recovery Essentials Monthly Tier B 1-year Subscription E-LTU	R8T28AAE
Commvault Metallic Dynamics Backup and Recovery Essentials Monthly Tier C 1-year Subscription E-LTU	R8T29AAE
Commvault Metallic Dynamics Backup and Recovery Essentials Monthly Tier D 1-year Subscription E-LTU	R8T30AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Configuration Information

Step 27b – Commvault Metallic Database Backup and Recovery

Notes: The monthly tiers represents the Database Front-End TBs that require Metallic BUR, per month
The tiering limits have been provided in the table below

Description

	SKU
Commvault Metallic Database Backup and Recovery Monthly Tier A 1-year Subscription E-LTU	R8T31AAE
Commvault Metallic Database Backup and Recovery Monthly Tier B 1-year Subscription E-LTU	R8T32AAE
Commvault Metallic Database Backup and Recovery Monthly Tier C 1-year Subscription E-LTU	R8T33AAE
Commvault Metallic Database Backup and Recovery Monthly Tier D 1-year Subscription E-LTU	R8T34AAE

Tier type	Minimum Front-End TBs	Maximum Front-End TBs
Tier A	1	49
Tier B	50	199
Tier C	200	999
Tier D	1000	1000000

Step 27c – Commvault Metallic Endpoint Backup and Recovery eDiscovery Edition

Notes: The monthly tiers represents the number of Endpoint users that require Metallic BUR, per month
The tiering limits have been provided in the table below

Commvault Metallic Endpoint Backup and Recovery eDiscovery Monthly Tier A 1-year Subscription E-LTU	R8T35AAE
Commvault Metallic Endpoint Backup and Recovery eDiscovery Monthly Tier B 1-year Subscription E-LTU	R8T36AAE
Commvault Metallic Endpoint Backup and Recovery eDiscovery Monthly Tier C 1-year Subscription E-LTU	R8T37AAE
Commvault Metallic Endpoint Backup and Recovery eDiscovery Monthly Tier D 1-year Subscription E-LTU	R8T38AAE
Commvault Metallic Endpoint Extended Retention per User Monthly Subscription E-LTU	R8T39AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27d – Commvault Metallic Endpoint Step-up from Essentials to eDiscovery

Notes: The monthly tiers represents the number of Endpoint users that require a step up from Metallic BUR Essentials to eDiscovery, per month
The tiering limits have been provided in the table below

Commvault Metallic Endpoint Essentials to eDiscovery Monthly Tier A 1-year Subscription E-LTU	R8T40AAE
Commvault Metallic Endpoint Essentials to eDiscovery Monthly Tier B 1-year Subscription E-LTU	R8T41AAE
Commvault Metallic Endpoint Essentials to eDiscovery Monthly Tier C 1-year Subscription E-LTU	R8T42AAE
Commvault Metallic Endpoint Essentials to eDiscovery Monthly Tier D 1-year Subscription E-LTU	R8T43AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Configuration Information

Step 27e – Commvault Metallic Endpoint Backup and Recovery Essentials Edition

Notes: The monthly tiers represents the number of Endpoint users that require Metallic BUR, per month
The tiering limits have been provided in the table below

Description

	SKU
Commvault Metallic Endpoint Backup and Recovery Essentials Monthly Tier A 1-year Subscription E-LTU	R8T44AAE
Commvault Metallic Endpoint Backup and Recovery Essentials Monthly Tier B 1-year Subscription E-LTU	R8T45AAE
Commvault Metallic Endpoint Backup and Recovery Essentials Monthly Tier C 1-year Subscription E-LTU	R8T46AAE
Commvault Metallic Endpoint Backup and Recovery Essentials Monthly Tier D 1-year Subscription E-LTU	R8T47AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27f – Commvault Metallic File and Object Backup

Notes: The monthly tiers represents the File and Object Front-End TBs that require Metallic BUR, per month
The tiering limits have been provided in the table below

Commvault Metallic File and Object Backup Monthly Tier A 1-year Subscription E-LTU	R8T48AAE
Commvault Metallic File and Object Backup Monthly Tier B 1-year Subscription E-LTU	R8T49AAE
Commvault Metallic File and Object Backup Monthly Tier C 1-year Subscription E-LTU	R8T50AAE
Commvault Metallic File and Object Backup Monthly Tier D 1-year Subscription E-LTU	R8T51AAE

Tier type	Minimum Front-End TBs	Maximum Front-End TBs
Tier A	1	49
Tier B	50	199
Tier C	200	999
Tier D	1000	1000000

Step 27g – Commvault Metallic Office 365 Backup and Recovery (BUR) eDiscovery Edition

Notes: The monthly tiers represents the number of MS Office 365 users that require Metallic BUR eDiscovery, per month
The tiering limits have been provided in the table below

Commvault Metallic Office 365 Backup and Recovery eDiscovery Monthly Tier A 1yr Subscription E-LTU	R8T54AAE
Commvault Metallic Office 365 Backup and Recovery eDiscovery Monthly Tier B 1yr Subscription E-LTU	R8T55AAE
Commvault Metallic Office 365 Backup and Recovery eDiscovery Monthly Tier C 1yr Subscription E-LTU	R8T56AAE
Commvault Metallic Office 365 Backup and Recovery eDiscovery Monthly Tier D 1yr Subscription E-LTU	R8T57AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Configuration Information

Step 27h – Commvault Metallic Office 365 Backup and Recovery (BUR) Step-up from Essentials to eDiscovery

Notes: The monthly tiers represents the number of Office 365 users that require a step up from Metallic BUR Essentials, to eDiscovery, per month

The tiering limits have been provided in the table below

Description	SKU
Commvault Metallic Office 365 Essentials to eDiscovery Monthly Tier A 1-year Subscription E-LTU	R8T58AAE
Commvault Metallic Office 365 Essentials to eDiscovery Monthly Tier B 1-year Subscription E-LTU	R8T59AAE
Commvault Metallic Office 365 Essentials to eDiscovery Monthly Tier C 1-year Subscription E-LTU	R8T60AAE
Commvault Metallic Office 365 Essentials to eDiscovery Monthly Tier D 1-year Subscription E-LTU	R8T61AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27i – Commvault Metallic Office 365 Backup and Recovery (BUR) Essentials Edition

Notes: The monthly tiers represents the number of MS Office 365 users that require Metallic BUR Essentials, per month. The tiering limits have been provided in the table below

Commvault Metallic Office 365 Backup and Recovery Essentials Monthly Tier A 1yr Subscription E-LTU	R8T62AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Monthly Tier B 1yr Subscription E-LTU	R8T63AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Monthly Tier C 1yr Subscription E-LTU	R8T64AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Monthly Tier D 1yr Subscription E-LTU	R8T65AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27j – Commvault Metallic VM and Kubernetes Backup

Notes: The monthly tiers represents the number of VMs that require Metallic BUR, per month

The tiering limits have been provided in the table below

Commvault Metallic VM and Kubernetes Backup Monthly Tier A 1-year Subscription E-LTU	R8T66AAE
Commvault Metallic VM and Kubernetes Backup Monthly Tier B 1-year Subscription E-LTU	R8T67AAE
Commvault Metallic VM and Kubernetes Backup Monthly Tier C 1-year Subscription E-LTU	R8T68AAE
Commvault Metallic VM and Kubernetes Backup Monthly Tier D 1-year Subscription E-LTU	R8T69AAE

Tier type	Minimum number of VMs	Maximum number of VMs
Tier A	1	49
Tier B	50	199
Tier C	200	999
Tier D	1000	1000000

Configuration Information

Step 27k – Commvault Metallic Office 365 Backup and Recovery (BUR) Essentials Education for Education

Notes: The monthly tiers represents the number of MS Office 365 users that require Metallic BUR Essentials, per month
The tiering limits have been provided in the table below

Description	SKU
Commvault Metallic Office 365 Backup and Recovery Essentials Education Monthly Tier A 1-year E-LTU	R8U11AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Education Monthly Tier B 1-year E-LTU	R8U12AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Education Monthly Tier C 1-year E-LTU	R8U13AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Education Monthly Tier D 1-year E-LTU	R8U14AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27l – Commvault Metallic Salesforce Backup and Recovery (BUR)

Notes: The monthly tiers represents the number of Salesforce users that require Metallic BUR Essentials, per month
The tiering limits have been provided in the table below

Commvault Metallic Salesforce Backup and Recovery Monthly Tier A 1-year Subscription E-LTU	R8U45AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier B 1-year Subscription E-LTU	R8U46AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier C 1-year Subscription E-LTU	R8U47AAE
Commvault Metallic Salesforce Backup and Recovery Monthly Tier D 1-year Subscription E-LTU	R8U48AAE

Tier type	Minimum number of users	Maximum number of users
Tier A	1	749
Tier B	750	1499
Tier C	1500	2499
Tier D	2500	1000000

Step 27m – Commvault Metallic Non-Commit Monthly SKUs

Notes: The non-commit monthly SKUs are for customers that desire to “pay by consumption per month” and do not want to purchase Metallic as a prepaid subscription

Commvault Metallic Dynamics Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U05AAE
Commvault Metallic Database Backup Non-commit Monthly E-LTU	R8U10AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Education Non-commit Monthly E-LTU	R8U19AAE
Commvault Metallic Endpoint Backup and Recovery eDiscovery Non-commit Monthly E-LTU	R8U24AAE
Commvault Metallic Endpoint Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U29AAE
Commvault Metallic File and Object Backup Non-commit Monthly E-LTU	R8U34AAE
Commvault Metallic Office 365 Backup and Recovery eDiscovery Non-commit Monthly E-LTU	R8U39AAE
Commvault Metallic Office 365 Backup and Recovery Essentials Non-commit Monthly E-LTU	R8U44AAE
Commvault Metallic Salesforce Backup and Recovery Non-commit Monthly E-LTU	R8U53AAE
Commvault Metallic VM and Kubernetes Backup Non-commit Monthly E-LTU	R8U58AAE

Step 27n – Commvault Metallic Cloud Storage Service

Notes: These Metallic Cloud Storage Services licenses are for per TB of cloud storage needed per month

Commvault Metallic Cloud Storage Service per TB Monthly US/CA Cool Tier Subscription E-LTU	R8T52AAE
Commvault Metallic Cloud Storage Service per TB Monthly US/CA Hot Tier Subscription E-LTU	R8T53AAE

Summary of Changes

Date	Version History	Action	Description of Change
06-Dec-2021	Version 19	Changed	Overview, Standard Features and Configuration Information sections were updated.
04-Oct-2021	Version 18	Changed	Overview, Standard Features, Service and Support and Configuration Information sections were updated.
07-Sep-2021	Version 17	Changed	Overview and Configuration Information sections were updated.
04-May-2021	Version 16	Changed	Overview and Configuration Information sections were updated.
01-Mar-2021	Version 15	Changed	Configuration Information section was updated.
01-Feb-2021	Version 14	Changed	Overview, Standard Features and Configuration Information sections were updated.
02-Nov-2020	Version 13	Changed	Overview, Standard Features and Configuration Information sections were updated.
