

DO BUSINESS FASTER

Transform your data center

Too many businesses are operating on outdated IT infrastructure. Bringing cloud-like operations to your data center speeds development and reduces time to market.

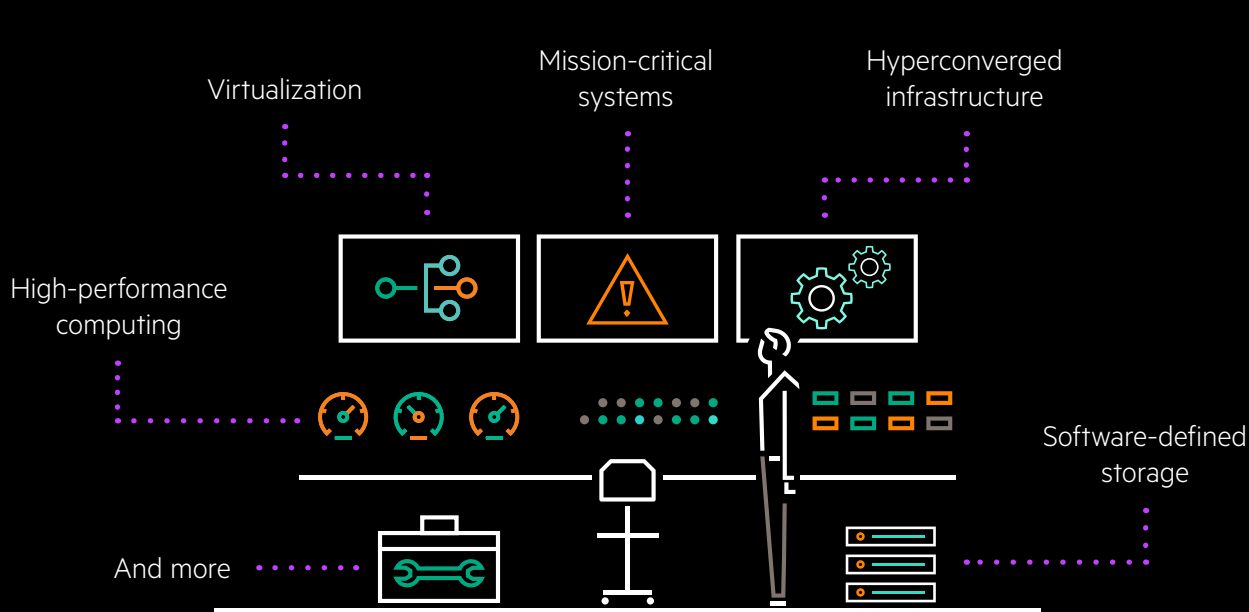

75%

Faster deployment of integrated and complex IT stacks

Aruba's entire portfolio can be consumed as a service with HPE GreenLake for Aruba. Customers who have deployed HPE GreenLake have reported up to 75% faster time to market while deploying complex global IT projects.¹

DID YOU KNOW ARUBA DOES DATA CENTER NETWORKING?

HPE and Aruba offer dozens of highly differentiated pre-engineered and tested IT infrastructure solutions delivering a wide variety of HPE compute, storage, and networking products that span a range of offerings.

HPE AND ARUBA SOLUTION INTEGRATION EXAMPLES

[VMware® Cloud Foundation™ on HPE ProLiant DL](#)

[SAP® HANA® on HPE Superdome Flex 280](#)

[Microsoft SQL Server on HPE DL360, HPE Primera](#)

[Oracle® 19c with VMware on HPE Synergy, HPE Primera](#)

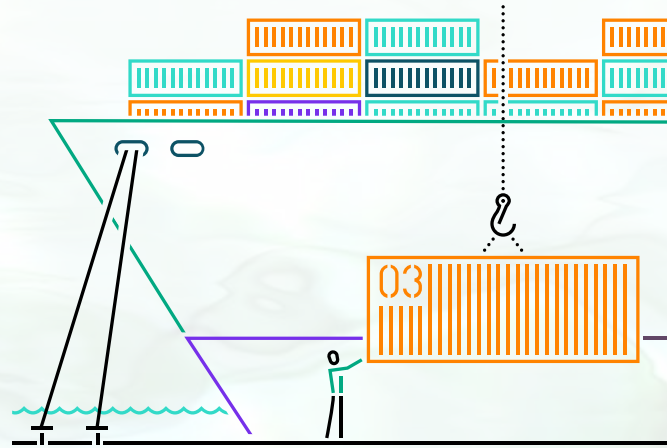

CASE STUDY

Customer: Patrick Terminals, Australia's leading seaport terminal operator

Challenge: To improve efficiency, Patrick Terminals needed to coordinate their ships, cranes, and heavy ground vehicles with autonomous machines orchestrated from a private cloud.

Solution: HPE GreenLake cloud services were employed to provide the necessary as-a-service private cloud operating model to support the company's operations during the update.

Key Results: By transforming its private cloud with HPE Synergy composable infrastructure, HPE Primera storage, HPE StoreOnce backup, HPE Cloud Bank storage, and Aruba CX 8235 switches, Patrick Terminals now provides a faster and more reliable service that has translated into savings in both time and fuel costs for the terminal and their customers.

“There was no need to go through a traditional six-week procurement process and wait for the equipment to arrive and get configured. Instead, we were able to move the project along without delay and benefit from important new capabilities that help us serve our customers more effectively and efficiently.”

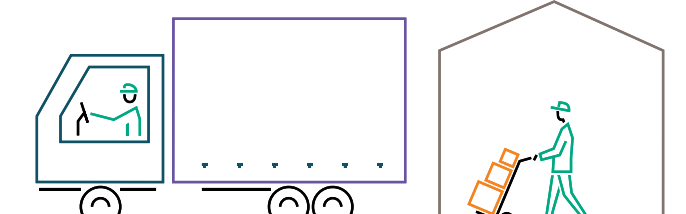

—Kevin Windsor, Head of IT Infrastructure, Patrick Terminals

KEY REASONS TO CONSIDER HPE AND ARUBA INTEGRATED SOLUTIONS

#1

Speed to market

Why waste months standing up new infrastructure when you can implement an integrated IT data center solution that is ready to deploy?

#2

Reduced risk

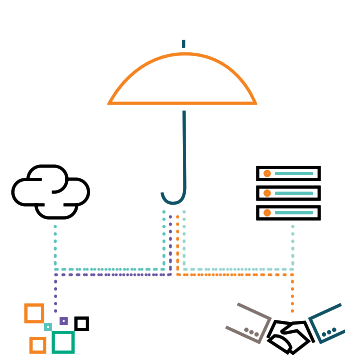

Ready-to-deploy, integrated IT data center solutions reduce deployment risks using a repeatable, best-practices reference to determine optimized configurations.

#3

Simplicity

Leveraging full-stack integrated IT solutions from a single vendor saves time and money and frees your business to focus on strategic priorities.

LEARN MORE ABOUT ARUBA DATA CENTER NETWORKING SOLUTIONS

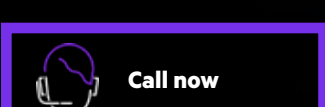

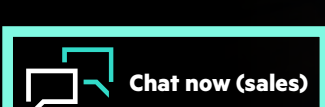

See how Aruba helps HPE compute and storage customers seamlessly extend high-performance 10/25/100/400 GbE connectivity to their mission-critical workloads:

- ✓ Accelerate IT service delivery
- ✓ Improve network/IT availability
- ✓ Increase security posture
- ✓ Lower cost and complexity
