70%

of repeatable admin work can be automated, [Red Sea Global](#) notes, giving staff time for higher-touch guest service

90%

boost in operational efficiency at [Aethos London Shoreditch](#)

Why choose HPE Networking for hospitality?

Reliable guest & staff connectivity

High-performance, low-latency wired, Wi-Fi 6/6E, and private cellular options to support streaming, digital keys, mobile check-in, contactless payments, POS, and staff apps.

Built-in security for guest data and payments

Zero-trust architecture with micro-segmentation, device/user authentication, and role-based policies to isolate guest Wi-Fi, POS, and property systems.

Automate network operations

Self-driven networking monitors behavior, flags anomalies, and applies policy-based fixes to reduce manual troubleshooting across single or multiple properties.

Unified visibility and location insights

Aggregate telemetry, device status, and location data into a single pane for rapid diagnostics, housekeeping coordination, and capacity planning.

Comprehensive sourcing beyond networking

Gain access to an extensive portfolio that goes well beyond networking. HPE is the only company that can deliver security, compute, storage, AI, and private cloud solutions in one place.

What are the benefits you can expect?

Boost guest satisfaction and revenue

Consistent, high-quality connectivity and reliable digital services drive better reviews, longer stays, and higher ancillary spending.

Lower operation cost and complexity

Automation and centralized management reduce IT labor and contractor needs across multiple properties, including energy-efficient hardware and lifecycle services.

Reduce security and compliance risk

Consistent policies and centralized telemetry lower the chance and impact of breaches and simplify PCI/Data Privacy compliance.

Fast guest innovations

Faster guest-facing service launches, enable rapid deployment of digital check-in, mobile keys, contactless payments, and in-room services to improve guest satisfaction and revenue per stay.
