

HPE GreenLake cloud

Hybrid Cloud Program

Spotlight Session:

From Cloud Complexity to Competitive Advantage: Win in the AI Era with HPE GreenLake

Speakers: Patrick Osborne, SVP, Hybrid Cloud Technology Acceleration, HPE, Fidelma Russo, EVP & GM, Hybrid Cloud and CTO, HPE, Varma Kunaparaju, SVP & GM, Cloud Platform & OpsRamp, HPE, and Keith Perry, SVP & CIO, St. Jude Children's Research Hospital

Innovation demands a mix of legacy, cloud-native, and AI applications—but AI hybrid design adds complexity. Discover how HPE GreenLake turns disruption into opportunity with a unified platform that's hybrid by design and AI-driven. From a storage portfolio built for distributed, data-rich environments to a powerful CloudOps software suite, experience integrated capabilities that help you observe, manage, protect, and optimize workloads across any environment. Hear from customers simplifying operations and accelerating outcomes in the AI era. [SL1457](#)
