In today's highly competitive and ever-evolving technology sector, employers consider certification as a measure of commitment, motivation, and expertise on a specific platform. HPE Digital Learner provides technical knowledge, skills, and exam preparation needed to help your certification journey.

HPE Digital Learner is a subscription-based, learning-as-a-service solution, which covers a vast array of HPE technology, industry technology, and business skills training. With a state-of-the-art online learning platform and self-paced, modular design, HPE Digital Learner offers unlimited access to learning and accommodates various skill levels. Learners focus on the exact training they need to achieve training and certification goals. Multiple subscription levels are available, providing the perfect blend of learning support tools to fit your schedule, learning style, and needs.

HPE Digital Learner is a valuable tool for employers seeking to attract, develop, nurture, and retain top IT talent. Even with the migration to remote work environments, HPE Digital Learner can help organizations build and foster the highest quality skills, cross train in modern technologies, achieve desired certifications, and keep up with ever-changing technologies. By providing opportunities for continual improvement and career development, HPE Digital Learner boosts morale and is conducive to personal growth. Individuals build important skills and provide greater impact to the business. They learn what they need, when they need it, and can earn high-value certifications—at their own pace—and in the safety of their remote work environments. For the company and the employee, HPE Digital Learner is a win-win.

HPE Digital Learner certification preparation training spans highly desirable business, desktop, and IT professional certifications. It can include self-paced eLearning courses, eBooks, videos, test preparation, and SME/mentoring access.
