Description

There are two optional plug-ins that work with HP OneView for VMware vCenter (formerly HP Insight Control for VMware vCenter Server).

- **HP OneView for VMware vCenter Operations Manager**—Optional plug-in that is used to monitor and manage the health, capacity, and performance of your virtual environment.
- **HP OneView for VMware vCenter Log Insight**—Optional plug-in that supplies automated log management for iLO (integrated lights out), OA (onboard administrator), and VC (virtual connect) through aggregation, analytics, and search capabilities in cloud environments.

Product features and functionality

This is the initial release of HP OneView for VMware vCenter Operations Manager and HP OneView for VMware vCenter Log Insight. For detailed information on the features and functionality of these plug-ins, refer to the *HP OneView for VMware vCenter Operations Manager User Guide* and the *HP OneView for VMware vCenter Log Insight User Guide*.

These documents are available at:

<http://www.hp.com/go/ovcenter/docs>

Product models

HP OneView for VMware vCenter Operations Manager 1.0 based on VMware vCenter Operations Manager 5.8.2

HP OneView for VMware vCenter Log Insight 1.0 based on VMware vCenter Log Insight 1.5

Devices supported

For device support information, see the following:

- *HP OneView for VMware vCenter Installation Guide* at <http://www.hp.com/go/ovcenter/docs>.
- For Server support information, see the *HP Insight Management Support Matrix* at <http://www.hp.com/go/insightmanagement/docs>.
- For HP OneView for VMware vCenter StoreFront Module and array management software support, see the HP SPOCK website: <http://www.hp.com/storage/spock>.

Operating systems

Supported HP OneView systems

- HP OneView 1.1

Supported VMware operating systems

- ESXi 5.0 (initial release and U1, U2, and U3)
- ESXi 5.1 (initial release and U1 and U2)
- ESXi 5.5 (initial release and U1)

Installation instructions

For complete planning and installation instructions, see either the *HP OneView for VMware vCenter Operations Manager User Guide* or the *HP OneView for VMware vCenter Log Insight User Guide*.

Limitations

HP OneView Dashboard tab cannot be re-deployed after deletion

If the HP OneView Dashboard tab is manually deleted from the HP OneView VMware vCenter Operations Manager user interface, the tab cannot be re-deployed. It is recommended that you export or clone the Dashboard tab as a backup, in case it is deleted by mistake.

Documentation feedback

HP is committed to providing documentation that meets your needs. To help us improve the documentation, send any errors, suggestions, or comments to Documentation Feedback (docsfeedback@hp.com). Include the document title and part number, version number, or the URL when submitting your feedback.
