Version

HP P6000 Command View Software Suite 10.2.1

Description

This document describes the HP P6000 Command View 10.2.1 release for **server-based management**.

-
- ① **IMPORTANT:** General references to HP P6000 Command View can also refer to earlier versions of HP Command View EVA.
-

To determine which versions of array controller software support HP P6000 Command View 10.2.1, see Table 2.0, “HP P6000 Command View interoperability support,” in the *HP P6000 Enterprise Virtual Array Compatibility Reference*.

For more information about HP XCS, see the release notes for the specific XCS version.

Update recommendation

HP recommends that you upgrade to HP P6000 Command View 10.2.1 if HP P6000 Command View 10.2 is installed already. If HP P6000 Command View 10.2.1 is already installed when HP P6000 Command View 10.2.1 installation is initiated, HP P6000 Command View 10.2.1 will be installed again.

NOTE: HP P6000 Command View 10.2 with EVA to 3PAR Online Import feature installed is a prerequisite for installing HP P6000 Command View 10.2.1 patch.

If HP P6000 Command View 10.2 is not installed before installing HP P6000 Command View 10.2.1, the installation fails. The following error message appears:

The HP P6000 Command View Software Suite 10.2 needs to be installed on the system in order to apply the 10.2.1 patch.

HP P6000 Command View

This section contains information about the enhancements, fixes, licenses, compatibility and interoperability, and work arounds and limitations for HP P6000 Command View 10.2.1.

Enhancements

The following enhancements are made in this version of HP P6000 Command View:

- Support for IBM AIX 7.1.
- Support for HP-UX 11.31.
- Support for VMware vSphere 4.x and 5.x.

For storage system model support and version details please see *HP P6000 Enterprise Virtual Array Compatibility Reference*.

Installation and upgrade requirements

For supported HP P6000 Command View upgrade paths, see Table 2.1, "HP P6000 Command View upgrade support," in the *HP P6000 Enterprise Virtual Array Compatibility Reference*.

For complete information on requirements and installation and upgrade procedures, see the *HP P6000 Command View Software Suite Installation Guide*.

NOTE: Any references to Command View 10.2 in the HP P6000 Command View Installation Guide also refer to Command View 10.2.1.

Browser support

Internet Explorer 8.0 or later or Firefox 4.0 or later are supported for accessing HP P6000 software user interfaces. If you are using an earlier browser version, you must upgrade your browser. When using HP Command View, HP Performance Advisor, or HP Management Integration Framework, Adobe Flash Player 10 or later is required on the browser you are using.

To download the latest version of Adobe Flash Player:

1. Go to <http://adobe.com> and click **Downloads**.
2. Under **Readers and Players**, click **Get Adobe Flash Player**.
3. Click **Download Now** to install the Adobe Flash Player.

NOTE: If you use Internet Explorer, HP recommends that you add HP P6000 Command View to your list of trusted sites.

HP P6000 Command View compatibility with Internet Explorer 10

You must add the HP P6000 Command View local host to the Internet Explorer 10 compatibility view list in order to access the HP P6000 Command View GUI using Internet Explorer 10. You can change the compatibility view by clicking the compatibility view icon  located on the IE address bar.

NOTE: Internet Explorer 10 is supported with Windows Server 2012 only.

Documentation feedback

HP is committed to providing documentation that meets your needs. To help us improve the documentation, send any errors, suggestions, or comments to Documentation Feedback (docsfeedback@hp.com). Include the document title and part number, version number, or the URL when submitting your feedback.
