1 HP-UX TN3270 Release Notes for R6.11.23.002

Announcement

This version of TN3270 (R6.11.23.002) is supported on machines running HP-UX 11i v2 operating system. One feature has been added in this version - Support for Euro currency symbol. The list of fixes for this product is in the section, "Patches and Fixes for this Version."

What Is in This Version

This version of TN3270 supports the HP-UX 11i v2 operating system.

Features and Benefits

This version of TN3270 supports Euro currency symbols.

Fixes

Please refer to the section “Patches and Fixes in this Version” for the fixes in this release.

Documentation

The following manuals have been revised for this release:

- HP-UX SNAplus2 3270 and TN3270 HLLAPI Programmers Guide, J2656-90043

Known Problems and Workarounds

This section discusses limitations, open known problems, and workarounds.

Both HP-UX SNAplus2 3270/3179G (J2722BA/J2732BA) and HP-UX TN3270 Client (J2636BA/J2637BA) are delivered with the same HLLAPI library. Programs written using TN3270 HLLAPI are portable to SNAplus2 3270/3179G. It is not necessary to recompile or link TN3270 transaction programs (TPs) when moving to SNAplus2 3270/3179G HLLAPI.

Restrictions apply when both products are installed on the same HP-UX system. Because both products use the same HLLAPI library, the HLLAPI library on the HP-UX system will be the library from the latest product installed (TN3270 or SNAplus2 3270/3179G).

NOTE The release number of all HP-UX SNA products can be obtained using `/opt/sna/bin/snapwhat`. Use `/usr/bin/uname -a` to find the HP-UX release number.

Compatibility Information and Installation Requirements

The following section lists the installation requirements for the TN3270 product.

Installation Requirements

After determining that you have the hardware, software and host requirements for the TN3270 product, you will need to load the TN3270 product files as follows:

- Step 1.** Make sure that you have a CD-ROM drive attached to your system to read the product file. This drive should be configured on your system with an entry in the `/dev` directory.
- Step 2.** Use `swinstall` to load the TN3270 product (load J2636BA for HP-UX servers or workstations). Refer to the man pages of the HP-UX system for instructions on how to do this.
- Step 3.** Once you have loaded the TN3270 product file, you can use the `swverify` command to verify that TN3270 has been correctly installed.

Patches and Fixes in This Version

This section lists the fixes and patches for this release.

Fixes

The following problems have been fixed and incorporated into this release:

Table 1-1 Software Fixes

SR Number	Problem
8606194398	Add Euro support to 3270.
8606277943	TN3270 does not reset keyboard if WCC reset on first reply chain but not second.

Table 1-2 Documentation Fixes

SR Number	Problem
5003450569	Missing directory structures in the TN3270 Administrator's Guide.

Patches

There are no patches included in this release.

Software Availability in Native Languages

This version of TN3270 is available only in English.
