

HPE Multiyear Learning Credits

Get the right training throughout the duration of your project

- Are you implementing new products or technologies across multiple years?
- How do you plan to prepare your team for digital transformation and changing technologies?
- Are you implementing new products or technologies?
- How will you mitigate the risk of technology transition?
- Do your people have the right skills and knowledge to drive [digital transformation](#) and deliver a higher return on technology investment?
- Do you have new hires in your IT department who need to get up to speed quickly?
- Do you have existing employees who need to be reskilled or upskilled to address evolving technology?

Skills and expertise are important to the success of digital transformation and other technology investments. There may be times—especially at the start of a multiyear project—when the skill levels of your team are not clear. How can you make sure your people have the training they need to ensure project success?

HPE Multiyear Learning Credits solve this problem. With HPE Multiyear Learning Credits, you prefund training by purchasing credits ahead of time and redeem them as needed—across the multiple years of your project. For shorter term needs, we offer [HPE Education Learning Credits](#) that are valid for a single year. But if you have a project or training initiative that spans more than a single year—you should take advantage of our new HPE Multiyear Learning Credits.

HPE Multiyear Learning Credits—valid across multiple years (two, three, four, or five years)—are well suited for high-end and mission-critical projects (such as HPE Cray, high performance computing, HPE NonStop, and HPE Storage solutions). With this range of options, your staff gets the training they need—when they need it—and your business can avoid many of the human error problems that stem from a simple lack of knowledge.

How HPE Multiyear Learning Credits work

With HPE Education Multiyear Learning Credits, purchasing and managing training is easier than ever. Check out these features and benefits.

- HPE Multiyear Learning Credits allow the volume purchase of credits to meet your needs. With these prefunded training accounts, you redeem credits as needed throughout your redemption period.
- Using credits, you don't have to plan up front around specific courses, who should attend, or where and when to attend. You have flexibility to make the best training decisions for your organization at the moment of need.
- With the flexibility to align with budget cycles and multiyear projects, HPE Education Multiyear Learning Credits are an ideal way to manage tight training budgets. In addition, you greatly streamline the processes to purchase and manage your training needs—helping to ensure that training requirements are met.
