

HPE PEAK PERFORMANCE DIGITAL BADGING

Hewlett Packard Enterprise delivers the technologies, products, and services to spark IT transformation. Innovative HPE learning-as-a-service (LaaS) solutions help accelerate the digital transformation journey.

The HPE Peak Performance Program recognizes IT professionals for their talents, skills, and training achievements through verifiable credentials, which are displayed as digital badges. These significant badges motivate learners and promote continuous education, resulting in enhanced technical skills. Once earned, individuals can share their HPE badges via email, social networking, or websites.

Digital badges have replaced paper certificates as a means of non-degree verification and motivate learners to more quickly consume needed training. To earn HPE Peak Performance digital badges, individuals must successfully complete training requirements and skills assessments. Badges are not given based on "attendance only." There is no additional charge for assessment examinations.

View available badges and their requirements at hpe.com/ww/learnbadging.

ACCLAIM BADGE VERIFICATION AND SHARING

HPE Peak Performance badges are web-enabled versions of credentials, certifications, or learning outcomes, which can be verified online, in real time, by [Acclaim](#). By representing skills as badges, earners can share credentials online in a way that is simple, trusted, and easily verifiable. Badge earners have complete control over badge sharing and must choose to accept privacy terms. To view HPE enterprise badges and the Peak Performance collection, follow this [link](#).
