**Purpose:** The document is intended for use by end-of-life recyclers or treatment facilities. It provides the basic instructions for the disassembly of HPE products to remove components and materials requiring selective treatment, as defined by Directive 2012/19/EU of the European Parliament and of the Council on Waste Electrical and Electronic Equipment (WEEE).

### 1.0 Items Requiring Selective Treatment

1.1 Items listed below are classified as requiring selective treatment.

1.2 Enter the quantity of items contained within the product which require selective treatment in the right column, as applicable.

1.3 Quantities vary by product configuration

## 2.0 Tools Required

List the type and size of the tools that would typically be used to disassemble the product to a point where components and materials requiring selective treatment can be removed.

Tool Description	Tool Size (if applicable)
Torx driver	T10/T15
Phillips screwdriver	#2
Flathead screwdriver	Medium

## 3.0 Product Disassembly Process

3.1 List the basic steps that should typically be followed to remove components and materials requiring selective treatment:

1. Remove the Controller(PCBA) by Torx Driver and dispose properly.
2. Remove the Shiner Card(PCBA) by Torx Driver and dispose properly.
3. Remove the top cover and locate the Lithium battery on the system board. Remove the Lithium battery by medium flat head screw driver and dispose of properly.
4. Remove the top cover and locate the megacell on the system board. Remove the megacell by medium flat head screw driver and dispose of properly.
5. Remove the Capacitors > 2.5CM of the power supply(s) from the system. Remove the screws by #2 Philips screwdriver, securing the top cover and the heatsinks in the P/S, then locate the capacitors and pry from the PCB with a medium flat head screwdriver and dispose of properly.

3.2 Optional Graphic. If the disassembly process is complex, insert a graphic illustration below to identify the items contained in the product that require selective treatment (with descriptions and arrows identifying locations)
