

HPE AND ACRONIS

HPE Storage and Acronis Cyber Protect

Working together. Accelerating results.

A NEW STYLE OF PARTNERING

Hewlett Packard Enterprise and Acronis are collaborating in a fresh new way to bring increased value to customers like you.

We know that acquiring technology is only the first step in achieving a business goal. The technology pieces need to work together. They need to be tested. They need to provide rich functionality, quickly and effectively, so you can concentrate on your business needs.

To help satisfy these needs, Acronis is a member of the HPE Partner Ready for Technology Partner program, an industry-leading approach to supply sophisticated integrated technologies in a simple, confident, and efficient manner.

Acronis addresses modern data protection threats with uniquely comprehensive and secure data protection tools and cybersecurity solutions. It helps our joint customers accelerate innovation and transformation that brings value and achieves business needs, keeping costs low and productivity high.

PRODUCT OVERVIEWS

Acronis Cyber Protect: Acronis Cyber Protect integrates best-of-breed backup, advanced antimalware and endpoint protection management into a single solution. Integration and automation provide unmatched protection—increasing productivity while decreasing TCO.

Acronis Cyber Protect offers one agent, one management interface, one license – removing complexity and risks associated with non-integrated solutions. Proactive ransomware protection based on AI and ML technologies prevents system unavailability caused by 99.99 percent of strains. Acronis Universal Restore ensures quick, easy system migration between physical or virtual platforms and restore to dissimilar hardware. Acronis Cyber Protect’s single, intuitive, web-based management console,

provides full insights on infrastructure utilization and allows remote management of all backups from any modern browser on any device, including tablets and smartphones.

HPE StoreEver Tape Storage: Gain easy, affordable data protection and retention with a wide variety of tape media, standalone tape drives, and tape libraries with HPE StoreEver. Remove inactive data from your more expensive primary storage and migrate it to an accessible, cost-effective, and self-protecting storage tier. Get effective archive workflow that enables more growth by making data more accessible for the long term while reducing costs. HPE StoreEver Tape Drives provide easy, affordable data protection and retention, with 15 TB of capacity, plus high performance security, usability, and manageability. HPE StoreEver MSL Tape libraries provide scalable data protection and retention—up to 84 PB—for unattended tape backup, disaster recovery or low-cost, long-term archiving. With HPE StoreEver Tape Autoloaders, remote offices can benefit from cost-effective data protection and retention, with high-density storage of up to 120 TB.

HPE StoreOnce Systems: Reduce cost, risk, and complexity with this easy to manage, scalable, disk-based data protection platform. HPE StoreOnce provides on-premises and cloud secondary storage. Available from 4 TB to 1.7 PB, the high-efficiency deduplication enables effective capacities from 80 TB to 34 PB. Delivered as purpose built appliances or virtual appliances for software-defined secondary storage. HPE StoreOnce connects to data protection applications by presenting NAS targets, virtual tape or the data protection optimized catalyst interface.

COMPANY OVERVIEW

About Acronis

Acronis is a global leader in cyber protection. Acronis provides integrated backup, security, disaster recovery, and enterprise file sync and share solutions to address five vectors of cyber protection safety, accessibility, privacy, authenticity, and security. Enhanced by AI technologies and blockchain-based data authentication, Acronis protects all data, in any environment, including physical, virtual, cloud, mobile workloads and applications. Founded in 2003 in Singapore, with corporate headquarters in Switzerland, Acronis protects the data of more than 5 million consumers and 500,000 businesses in over 150 countries and 30 languages. With more than 100 patents, Acronis products are consistently named best product of the year and cover a range of features, including migration, cloning, and replication. Today, Acronis solutions are available worldwide through a global network of service providers, distributors, and cloud resellers. Learn more at [acronis.com](https://www.acronis.com).

About HPE

Hewlett Packard Enterprise is the edge-to-cloud company that helps organizations accelerate outcomes by unlocking value from all of their data, everywhere. Built on decades of reimagining the future and innovating to advance the way people live and work, HPE delivers unique, open, and intelligent technology solutions, with a consistent experience across all clouds and edges, to help customers develop new business models, engage in new ways, and increase operational performance.
