

IT Asset Management

Where do you send used IT equipment?

Did you know that you have options other than a landfill that can help drive your business transformation and help protect the environment? HPE Financial Services creates investment capacity for digital transformation by extending the life of technology and repurposing products back into the economy. The process begins at the HPE Technology Renewal Centers—the largest IT manufacturer-owned tech renewal networks in the world located in Andover, MA and Erskine Scotland. At the TRCs, reuse is prioritized over recycle. This mindset enables HPEFS provide asset management solutions that help customers create financial vitality, support sustainability goals and maintain a competitive edge.

IT Asset Management solutions designed to help drive your transformation

» Virtual Warehouse Services

Ensure your assets and financial plans align to your business goals by warehousing decommissioned IT assets so that they can be redeployed for future projects.

» Proof of Concept Enablement

When pursuing an innovation project that's designed to keep your business ready for what's next, having an available pool of affordable assets delivers both the IT help needed and the freedom to do more with your budget.

» HPE Asset Upcycling Services

Take a portfolio approach to your IT estate by unlocking trapped capital. Create investment capacity while ensuring secure, environmentally responsible removal and disposal of assets—always with a reuse over recycle mindset.

» HPE Certified Pre-owned Services

Make your IT investment a force multiplier by deploying certified, pre-owned workplace and data center assets. Support your multi-vendor tech estate by giving new life to legacy assets and keep them in the circular economy.

» Data Center Consolidation

When decommissioning assets and consolidating multi-vendor data center investments, create financial vitality through pre-configured, customized systems that help streamline project complexity.

30%
Innovation

70%
Legacy Systems
Maintenance

According to Forrester¹, new project spending includes 25% to 30% of tech budgets firms dedicate to creating new tech capabilities.
