## About HPE Tech Pro

[HPE Tech Pro](#) is a free, exclusive, global technical community for partner solution architects and HPE presales professionals to connect, learn, and grow together. Everything you need to design solutions is now in one place.

## About HPE Discover Las Vegas 2025

Hewlett Packard Enterprise Discover is returning to Las Vegas this year to bring together industry experts and HPE leaders for another exciting week of community engagement, idea exchange, and learning associated with multiple programs. Join us with your customers and discover what's next across Networking, AI, and Hybrid Cloud. Come to learn and share with your customers the latest technologies and solutions for accelerating business outcomes, creating connected, data-driven insights, and advancing the way we live and work.

## HPE Tech Pro University at HPE Discover Las Vegas 2025

Great news—your HPE Discover Las Vegas 2025 registration allows you to benefit from HPE Tech Pro University offers at an exclusive discounted rate. Check out the broad range of certification training classes and register on a “first come, first served” basis. At HPE Discover Las Vegas 2025, we're dedicating more hours than ever to technical training programs to help customers and partners build skills and advance their careers with certification training options.

Payment by credit card is required to complete your course registration. The registration fee is \$600 for a four-day class and \$200 for a one-day class.

## Key Benefits

- In-person training with peer engineers, architects and technologists, led by HPE Tech Pro University Certified Instructors
- Interactive hands-on labs and focused exam preparation, with lab access from Sunday, June 22, until the end of Thursday, June 26
- Courses range in length from one to four days and are delivered onsite, with most courses beginning on Sunday, June 22, 2025
- Three training courses with accelerated four-day class format (typically five days)
- Significantly discounted pricing
- One on-site exam included, with additional exams available at a discount
- Access to all HPE Discover Las Vegas 2025 breakout sessions, demos, Tech Talks, networking events, and more
- All classes held in English, with limited class sizes

## Training Days

Four-day classes start on Sunday, June 22, following this schedule:

- Sunday, June 22: 1:00 p.m.–5:00 p.m. PT
- Monday, June 23: 8:00 a.m.–5:00 p.m. PT
- Tuesday, June 24: 1:00 p.m.–5:00 p.m. PT
- Wednesday, June 25: 8:00 a.m.–5:00 p.m. PT

One-day classes will be held on Monday, June 23 or Wednesday, June 25, from 08:00 a.m.-5:00 p.m.

## Class Registration Instructions

After completing the HPE Discover Las Vegas 2025 registration, you will be asked to add certification training to your profile. If you have already registered and would like to add certification training to your agenda, please log in to the registration portal and go to your event profile to sign up for the HPE Tech Pro University class options.

For complete details on all HPE's technical certifications, check out the [Certification and Learning website](#).

## HPE Discover Las Vegas 2025 certification training courses, Instructor-Led Training

Course Information	Course Description
<b>Course Title:</b> HPE Hybrid Cloud Solutions, Rev. 25.11	
<b>Course ID:</b> 0001197140	
<b>Course Start Date:</b> June 22, 2025	The HPE Hybrid Cloud Solutions course exposes you to the HPE portfolio and HPE GreenLake services. It focuses on HPE networking, server, and storage solutions for SMB customers. Through customer scenarios and extensive hands-on labs, you will learn how to match different types of workloads with HPE products, learn about HPE management tools, and get an introduction to virtual and containerized workloads.
<b>Duration:</b> 4 days – accelerated format. Course Capacity: 18 seats.	
<b>Certification:</b> HPE ATP - Hybrid Cloud	
<b>Exam:</b> HPE0-V25 - HPE Hybrid Cloud Solutions	
<b>Ideal Candidate:</b> Consultants, Customers, Field Engineers, Systems Engineers, and Solutions Integrators	
<b>Course Title:</b> HPE Compute Solutions, Rev. 25.21	
<b>Course ID:</b> 0001174342	
<b>Course Start Date:</b> June 22, 2025	This course teaches you how to plan and design HPE compute solutions based on industry standard computing technologies and workloads. Hands-on lab activities will guide you through exercises exploring HPE Synergy components, managing HPE OneView server profiles and HPE ProLiant servers as well as working with HPE Superdome Flex and HPE Superdome Flex 280. You will learn to recommend and position HPE compute products, solutions, and appropriate services for customer use cases and workloads.
<b>Duration:</b> 4 days – accelerated format. Course Capacity 12 seats.	
<b>Certification:</b> HPE ASE - Compute Solutions	
<b>Exam:</b> HPE0-S59 HPE Compute Solutions	
<b>Ideal Candidate:</b> Sales Consultants, Customers, Technical Consultants, Sales Engineers, Systems Engineers, and Pre-Sales Engineers	

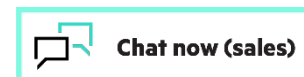

Course Information	Course Description
<b>Course Title:</b> HPE Storage Solutions, Rev. 25.11	
Course ID: 0001207683	
Course Start Date: June 22, 2025	
Duration: 4 days – accelerated format, Course Capacity: 8 seats.	This course teaches you to identify, recommend, and explain HPE Storage solution architectures and technologies. You will learn to translate business requirements into storage solution designs that support applications and data across physical, virtual, and cloud environments with a common architecture and converged management.
Certification: HPE ASE - Storage Solutions	
Exam: HPE0-J68 HPE Storage Solutions	
Ideal Candidate: Sales Consultants, Technical Consultants, Customers, Sales Engineers, Systems Engineers, and Pre-Sales Engineers	
<b>Course Title:</b> HPE Private Cloud AI Solutions, Rev. 25.11	
Course ID: 0001211723	
Course Start Dates: June 23 or June 25, 2025	This class provides a foundational understanding of Artificial Intelligence (AI) and its applications within private cloud environments. Students will review core AI concepts, learn to assess and understand customers' AI requirements, and explore how to leverage HPE Private Cloud AI with NVIDIA technologies. The curriculum focuses on designing and deploying scalable, high-performance AI solutions using HPE and NVIDIA tools. You will also learn about aligning AI solutions with business needs while mastering private cloud deployment. By the end of the course, you will be equipped to deliver tailored AI strategies, optimize performance, and drive innovation within enterprise environments.
Time: 8:00 a.m.-5:00 p.m. PT	
Duration: 1 day – standard format. Course Capacity: 20 seats.	
Certification: HPE Solution Certified - Private Cloud AI	
Exam: HPE2-B08 HPE Private Cloud AI Solutions	
Typical Candidate: HPE Partners and customers in presales and consulting roles who plan and design complex HPE solutions.	

## Reference guide

Course Information	Course Description
<b>Course Title:</b> HPE VM Essentials, Rev. 25.21	
Course ID: HPE Tech Pro Continuous Learning Accreditation	In this course, you will gain a foundational understanding of HPE's Hybrid Cloud Strategy and its alignment with modern business needs. The course covers designing HPE VM Essentials solutions with guidance on the installation process to ensure seamless deployment. You will also learn to manage and optimize environments using HPE VM Essentials, maximizing operational efficiency. You will explore VMware vCenter integration with HPE VM Essentials in hybrid cloud environments.
Course Start Date: June 22, 2025	
Duration: 4-day – standard format. Course Capacity: 12 seats.	
Related Certification: HPE Product Certified - VM Essentials	
Ideal Candidate: HPE partners and customers, in presales and consulting roles who plan and design complex HPE solutions.	
<b>Course Title:</b> HPE Morpheus Certified Administrator, Rev. 25.11	
Course ID: 0001211713	This course teaches you the standard Morpheus Administration practices and enables you to manage the core platform operations effectively. Your understanding of the Morpheus platform includes: <ul style="list-style-type: none"><li>• Morpheus installation, maintenance, and configuration processes</li><li>• Morpheus RBAC and fundamental provisioning concepts such as Instances, Layouts, Node Types, Virtual Images, Hosts, Servers, and Apps</li><li>• Morpheus tenancy and Morpheus Blueprints to provision applications and Infrastructure as Code (IaC) workflows</li><li>• Morpheus built-in logging and monitoring capabilities</li><li>• Morpheus Service plans</li></ul>
Course Start Date: June 22, 2025	
Duration: 4 days – standard format. Course Capacity: 20 seats.	
Certification: HPE Advanced Product Certified - HPE Morpheus Administrator	
Exam: HPE0-G04: HPE Morpheus Certified Administrator Exam
