ARUBA 2530 8 SWITCH (J9783A)

Fixed Port L2 Managed Ethernet Switches

WHAT'S NEW

- Cost-effective, reliable and secure Aruba Layer 2 switch series for a better mobile-first experience.
- ACLs, EEE, traffic prioritization.
- 8-, 24-, and 48-port Gigabit or Fast Ethernet models.
- PoE+ models for voice, video and wireless.
- Supports Aruba ClearPass Policy Manager, AirWave and Central.
- Simple deployment with zero touch provisioning (ZTP).

OVERVIEW

The Aruba 2530 Switch Series provides security, reliability, and ease of use for enterprise edge, branch office, and SMB deployments. Fully managed switches deliver Layer 2 capabilities with optional PoE+, enhanced access security, traffic prioritization, sFlow, IPv6 host support, and power savings with Energy Efficient Ethernet. The Aruba 2530 Switch Series is easy to use and deploy, and delivers consistent wired/wireless user experience with unified security and management tools such as Aruba ClearPass Policy Manager, Aruba AirWave and cloud-based Aruba

Central.

FEATURES

Cost-Effective, Reliable and Secure Access Layer Switches

The Aruba 2530 Switch Series provides security, reliability, and ease of use for enterprise edge, branch office, and SMB deployments.

Fully managed switches deliver full Layer 2 capabilities with optional PoE+, enhanced access security, traffic prioritization, sFlow, and IPv6 host support.

Right size deployment with choice of 8-, 24-, and 48-port models available with Gigabit or Fast Ethernet ports, and optional PoE+.

Power savings with fanless models, Energy Efficient Ethernet (IEEE 802.3az), and ability to disable LEDs and enable port low power mode.

Delivers consistent wired/wireless user experience with unified security and management tools such as ClearPass Policy Manager, AirWave and cloud-based Central. Provides optimal configuration automatically when connected to Aruba APs for PoE priority, VLAN configuration, and rogue AP containment.

Security and Quality of Service (QoS)

The Aruba 2530 Switch Series supports flexible authentication methods including Local MAC, 802.1X, and MAC and Web for greater policy-driven application security.

Advanced denial of service (DOS) protection, such as DHCP Protection, Dynamic ARP protection, and Dynamic IP lockdown, enhance security. Flexible traffic controls include ACLs and QoS.

Traffic prioritization with IEEE 802.1p allows real-time traffic classification with support for eight priority levels mapped to either two or four queues using weighted deficit round robin (WDRR) or strict priority (SP).

Defend your IPv6 network with DHCPv6 Protection.

Simple Deployment and Management

The Aruba 2530 Switch Series supports a choice of management interfaces with Web GUI, command-line interface (CLI), and SNMP with either console or micro USB ports.

Quiet operation with fanless and variable speed fan models.

Flexible deployment with wall, table, and rack mounting options.

Zero touch provisioning (ZTP) provides quick and painless deployment at locations with few or no technical resources.

Single View of the Network

The Aruba 2530 Switch Series supports Aruba ClearPass Policy Manager for unified and consistent policy between wired and wireless users and simplifies implementation and management of guest login, user onboarding, network access, security, QoS, and other network policies.

Supports Aruba AirWave network management software to provide

aruba

common platform for zero touch provisioning management, and monitoring for wired and wireless network devices.

RMON and sFlow provide advanced monitoring and reporting capabilities for statistics, history, alarms, and events.

Aruba Central cloud-based management platform offers simple, secure, and cost effective way to manage switches.

Supports both cloud-based Central and on-premise AirWave with the same hardware ensuring change of management platform without ripping and replacing switching infrastructure.

Technical specifications   Aruba 2530 8 Switch

Product Number	J9783A
Differentiator	Small-form managed Fast Ethernet switch with 8x 10/100 ports and 2x Gigabit combo ports. This model has 8x 10/100 and 2x combo dual personality ports that operate at 10/100/1000 or as Gigabit SFP ports.
Ports	(8) RJ-45 autosensing 10/100 ports (2) dual-personality ports - each port can be used as either an RJ-45 10/100/1000 port (IEEE 802.3 Type 10Base-T IEEE 802.3u Type 100Base-Tx IEEE 802.3ab 1000Base-T Gigabit Ethernet) or as a SFP slot (for use with SFP transceivers) ports
Memory and processor	ARM9E @ 800 MHz 128 MB flash Packet buffer size: 1.5 MB dynamically allocated 256 MB DDR3 DIMM
Latency	100 Mb Latency: < 1.3 µs 1000 Mb Latency: < 1.3 µs
Throughput	up to 4.1 Mpps
Switching capacity	5.6 Gbps
Stacking capabilities	Virtual 16 switches
Management features	Aruba Central and Aruba AirWave Network Management IMC—Intelligent Management Center command-line interface Web browser configuration menu out-of-band management (serial RS-232C or Micro USB) IEEE 802.3 Ethernet MIB Repeater MIB Ethernet Interface MIB AirWave Network Management
Input voltage	100 - 127 / 200 - 240 VAC, rated
Operating humidity range	15 to 95% @ 104°F (40°C) (noncondensing)
Power Consumption	7.2 W (maximum)
Heat dissipation	25 BTU/hr (26.38 kJ/hr)
Product Dimensions (metric)	25.4 x 15.95 x 4.45 cm
Weight	0.82 kg

ARUBA GLOBAL SERVICES

Aruba Global Services simplifies and accelerates the network technology lifecycle, enabling your network to scale with better predictability and cost-effectiveness. Whether you operate your own network and need to improve your IT efficiencies or you want to offload some of the burden, we have the services you need to reach your goals.

Learn more about what Aruba Global Services has to offer at: arubanetworks.com/services/

Support Services from Aruba

Support services reduce complexity and increase your team's productivity, ensuring you keep pace with technology advances and software releases, and obtain break-fix support required to keep your network running. Access to premium services means you have the right help at the right time.

Professional Services from Aruba

With deep intellectual capital and purpose-built tools, our team delivers a range of standard and custom professional services designed to accelerate your value from Aruba technology.

QuickStart Services include:

- Planning, audit and assessment
- Architecture review and design
- Deployment, migration, and knowledge transfer

Proactive Engineering Services include:

- Intelligent Operations
- Customer Experience Management
- Network optimization

Our **Education Services** allow your team to come up to speed quickly.
Aruba Network as-a-Service (NaaS)

Our NaaS solution, Aruba Managed Connectivity Services, part of the HPE GreenLake services family, simplifies network operations, accelerates equipment handling, and increases the value of your Aruba network. If you need expert guidance and automation-based operations for your team, please explore the NaaS approach from Aruba here.
