

ARUBA INSTANT ON AP12 (US) 3X3 11AC WAVE2 INDOOR ACCESS POINT (R2X00A)

WLAN Access Points

WHAT'S NEW

- Entry-level wireless access points for small and growing businesses at a cost-sensitive price point.
- Comes with an integrated virtual controller for simple deployment of multiple access points.
- Support for WPA2/WPA3 protected

OVERVIEW

Aruba Instant On AP12 Indoor Access Points deliver affordable, business-grade Wave 2 802.11ac Wi-Fi for low to medium-density small business environments. Business-grade capabilities are designed to meet the mobile, IoT and security needs of small boutiques, tech-start-ups, and retailers at an attractive price point.

employee and guest login with Enhanced Open for per user guest access.

The compact form factor of the Aruba Instant On AP12 Indoor Access Points deliver multi-user capabilities and a maximum aggregate peak data rate of 1.6 Gbps for high-definition video streaming and cloud application requirements. These access points (AP) also come with a built-in controller to simplify deployment, making it easy to install and manage multiple access points without requiring extensive IT experience, additional hardware, or software applications.

FEATURES

Fast Connectivity with 802.11ac Wave 2 Access Points

Aruba Instant On AP12 Indoor Access Points include an easy to use web GUI and templates – so access points are simple to deploy and are up and running in minutes.

802.11ac Wave 2 features include 3x3:3SS and up to 80 MHz channel bandwidth.

Dual-band wireless (2.4GHz and 5GHz) for combined speeds of up to 1.6Gbps support high-bandwidth activities such as video, voice, and conferencing solutions.

Aruba Instant On AP12 Indoor Access Points allow any change to the primary access point configuration to be automatically pushed to every access point in the same cluster.

A secondary access point automatically takes over if the primary access point experiences an outage for always-on Wi-Fi.

Eliminates High Cost of Cabling with Full-scale Wireless Mesh Coverage

Aruba Instant On AP12 Indoor Access Points have built-in wireless mesh capabilities to cost-effectively extend Wi-Fi connectivity without additional cables.

Conveniently expands your network to hard-to-wire areas – nearly getting rid of spotty connections and dead zones, to provide Wi-Fi where you need it.

Safeguard Sensitive Data with WPA2/WPA3 and Enhanced Open

Aruba Instant On AP12 Indoor Access Points come with integrated Wi-Fi Alliance security standard WPA2/WPA3 and Enhanced Open support for protected wireless access.

Create up to eight different SSIDs under one network name to keep your data safe, whether surfing the web or checking HR data.

Simplicity is the Key to a Great Wi-Fi Experience

The Aruba Instant On AP12 Indoor Access Points are built with premium hardware and software quality that's as reliable and coming from a trusted vendor.

Effortless set-up right out of the box – in the palm of your hand.

The Aruba Instant On portfolio comes with flexible management options to choose from: The Aruba Instant On mobile app guides you through step-by-step from initial set-up to ongoing management.

Ideal for small and growing businesses like cafés, retail stores or professional offices, and other Wi-Fi hotspots.

Simple to build landing page lets you customize your guest access page with your logo, your own brand, and acceptance of use language.

Technical specifications

Aruba Instant On AP12 (US) 3x3 11ac Wave2 Indoor Access Point

| | |
|------------------------------------|--|
| Product Number | R2X00A |

ARUBA GLOBAL SERVICES

Aruba Global Services simplifies and accelerates the network technology lifecycle, enabling your network to scale with better predictability and cost-effectiveness. Whether you operate your own network and need to improve your IT efficiencies or you want to offload some of the burden, we have the services you need to reach your goals.

Learn more about what Aruba Global Services has to offer at: arubanetworks.com/services/

Support Services from Aruba

Support services reduce complexity and increase your team's productivity, ensuring you keep pace with technology advances and software releases, and obtain break-fix support required to keep your network running. Access to premium services means you have the right help at the right time.

Professional Services from Aruba

With deep intellectual capital and purpose-built tools, our team delivers a range of standard and custom professional services designed to accelerate your value from Aruba technology.

QuickStart Services include:

- Planning, audit and assessment
- Architecture review and design
- Deployment, migration, and knowledge transfer

Proactive Engineering Services include:

- Intelligent Operations
- Customer Experience Management
- Network optimization

Our **Education Services** allow your team to come up to speed quickly.

Aruba Network as-a-Service (NaaS)

Our NaaS solution, Aruba Managed Connectivity Services, part of the HPE GreenLake services family, simplifies network operations, accelerates equipment handling, and increases the value of your Aruba network. If you need expert guidance and automation-based operations for your team, please explore the NaaS approach from Aruba [here](#).
