

Enlogic by nVent G3 Enterprise Power Distribution Units for HPE

Enlogic by nVent G3 Basic 1-phase 4.9kVA/24A/200-240V Outlets (16) C13 (4) Combo C13/C19 PDU for HPE (P59519-B21)

What's new

- Premium materials and robust construction provide power continuity and maintained performance at elevated temperatures.
- Wide range of mounting options to fit every application. Power where you need it—plus more room for compute.
- Optional dual-locking power cords secure the PDU to both power source and device, protecting against disconnection—accidental or

Overview

Do you need impressive power distribution with simple installation and maintenance?

Enlogic by nVent G3 Enterprise Power Distribution Units for HPE are designed to work precisely with Hewlett Packard Enterprise infrastructure and compute solutions to provide a compatible, industry-standard fit for use with HPE advanced, and enterprise server racks. Built with high-temperature grade premium components, Enlogic by nVent G3 PDUs for HPE can operate in temperatures up to 60°C over extended periods of time and provide reliable operation backed by a 5-year warranty.

intentional.

- Compatible fit and reliable operation is backed by a 5-year warranty.
- C13/C19 Combination outlets offer flexible configurations.

Features

Powerfully Built Power Distribution, Because no Two Environments are the Same

Enlogic by nVent G3 Enterprise Power Distribution Units for HPE are backed by a 5-year Manufacturer warranty.

Premium materials and robust construction offer power continuity and maintained performance at elevated temperatures.

Enlogic by nVent G3 PDUs for HPE include vertical and horizontal models with power output options ranging from 1.9 kVA to 22 kVA.

Single- and three-phase models to meet your facility power needs.

Get Power Where You Need it to Go – and Keep it There

Enlogic by nVent G3 Enterprise PDUs for HPE horizontal/modular PDU models can be installed in any U position in your rack.

Optional dual-locking power cords secure the PDU to both power source and device, protecting against disconnection— accidental or intentional.

Integrated cord retention to connect the right cord to the right outlet, quickly and easily.

Vertical PDU Models Use Button and Keyhole Mounting for Simple Drop in Install

Enlogic by nVent G3 Enterprise PDUs for HPE vertical form factor models have a wide range of single- and three-phase options providing up to 22 kVA of output power.

Flexible vertical mounts on either rear side use industry-standard button and keyhole mounting, preventing interference in the maintenance zone between rear RETMA rails.

Using the optional configuration of facing the outlets into the rack, multiple PDUs can be mounted on one side of the rack for higher power density.

Enlogic by nVent G3 PDUs for HPE have a wide range of mounting options to fit every application. Power where you need it—plus more room for compute.

From Purchase to Prime Time, Getting Power Where You Need It has Never Been Easier

Enlogic by nVent G3 Enterprise Power Distribution Units for HPE introduces the C13/C19 combination outlet providing flexible outlet configurations.

Impressive high-density PDUs mean more power and less headache for even the most demanding compute applications.

Toolless installation, low profile, and modular extensions simplify configuration and reduce time to deployment.

Technical specifications	Enlogic by nVent G3 Basic 1-phase 4.9kVA/24A/200-240V Outlets (16) C13 (4) Combo C13/C19 PDU for HPE
Product Number	P59519-B21
Mounting options	0U vertical, 1U horizontal with support for 0U mounting
Outlet type	C13/C19 Hybrid Combo, C13, C19, 5-20R
Power distribution	Single phase or three phase
Warranty	5-year manufacturer warranty

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

[GreenLake](#) is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
