

HPE 3PAR MPIO SOFTWARE FOR MICROSOFT WINDOWS

Storage Device Management Software

OVERVIEW

Have you been foregoing the benefits of multi-pathing due to cost, complexity, or limited operability?

HPE 3PAR MPIO Software for Microsoft Windows delivers a highly available, robust, and trouble-free multi-pathing solution for Microsoft Windows 2003 environments. With MPIO for Windows, I/O is intelligently routed through multiple paths between a host server and the HPE 3PAR Storage System for greater availability and load balancing. This solution is designed to utilize all available paths to prevent overloading of any single path and the accumulation of I/O bottlenecks. MPIO Software for Windows accomplishes this through a combination of autonomic load balancing, path failover capabilities, and ease of management. In the event of a path failure, MPIO for Windows routes data to an alternate path to prevent application disruption. Simple administration and affordability make MPIO for Windows an ideal solution for enhancing performance and reliability in Microsoft Windows environments.

FEATURES

Highly Available, Robust, and Trouble-Free Multi-pathing Solution for Microsoft Windows 2003

HPE 3PAR MPIO Software for Microsoft Windows intelligently routes I/O through multiple paths between a host server and the HPE 3PAR Storage System for greater availability and load balancing

Active-active configuration policy enables dynamic load balancing

Automatic failover and the ability to recover failed paths reduces the need for offline or manual reconfigurations after a failure

Automatic detection of devices simplifies deployment while automatic load balancing and path failover capabilities ease management

Simple administration and affordability make MPIO for Windows an ideal solution for enhancing performance and reliability in Microsoft Windows 2003 environments

Technical specifications

HPE 3PAR MPIO Software for Microsoft Windows

Supported hardware environment

HPE 3PAR T-Class and F-Class Storage Systems

Compatible operating systems

HPE 3PAR Operating System
