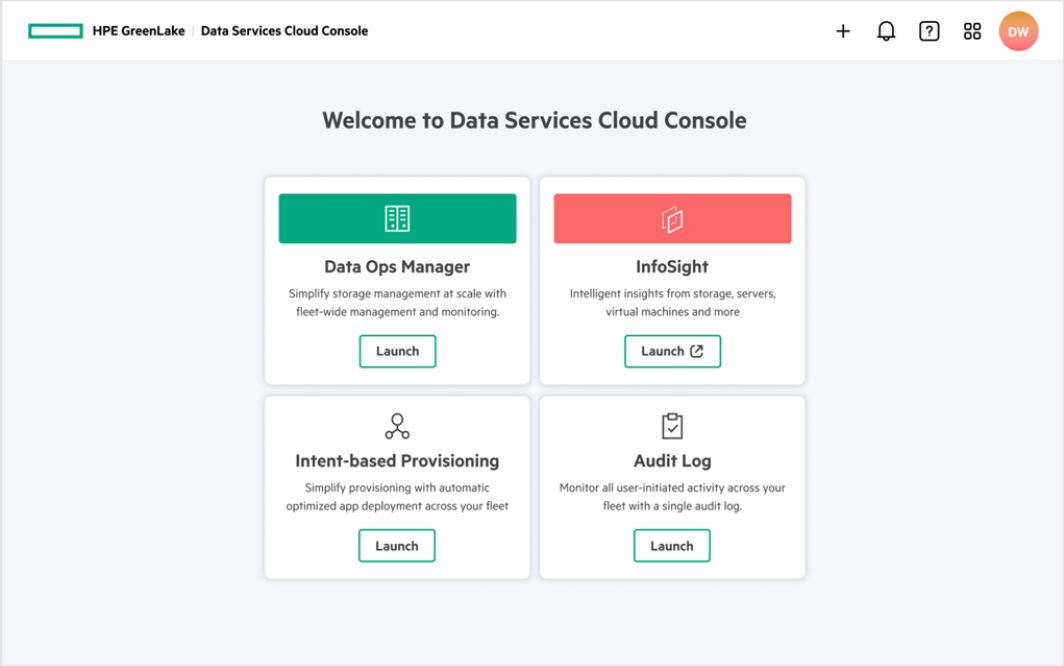
# HPE Data Ops Manager

## HPE Alletra Storage 9000 per TB Upgrade 3-year Software and Support SaaS (S0R54AAE)



## Overview

Are you looking for single pane of glass for managing your data infrastructure?

HPE Data Ops Manager allows customers manage their fleet from anywhere - simplifying infrastructure operations with cloud agility. Delivering global unified management, enabling customers to manage data infrastructure across edge to cloud from a single web interface. Everything organizations need to easily manage their fleet of data infrastructure across its lifecycle is available at their fingertips with an intuitive SaaS-based user experience – accessible from anywhere and from any device. Deploy apps faster by transforming provisioning from LUN-based to intent-based. Orchestrate infrastructure workflows at scale so managing hundreds of systems is as simple as managing one. Deploy, manage infrastructure on demand with simple discovery, activation, and configurations. Everything is delivered as-a-service so for our customers there is no software to deploy, manage or

maintain.

## Features

### Intent-based Provisioning

Intent-based Provisioning eliminates guesswork and spreadsheets by ensuring workloads are always deployed on the right resource. It leverages real-time context into resource headroom and application-specific SLAs to optimize where your data is stored — automatically.

### Capacity and Performance Trends

Determine resource utilization of storage system using key performance indicators of capacity (Used and host written), latency, IOPS and bandwidth in an interactive  time-series graph for storage system, volume and hosts.

### Alerts and Notifications

Receive fleet wide alerts and notifications with pursuant actions to manage storage systems at scale.

Monitor data infrastructure at scale with exception based monitoring and reporting of highlighting issues with appropriate resolution steps.

### Snapshots

Manage read-only images of a volume at a specific point in time within the dashboard of HPE Data Ops Manager.

# HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

### Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

### Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

### Support services

Optimize your entire IT environment and drive innovation.  Manage day-to-day IT operational tasks while freeing up valuable time and resources.

— **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.

— **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

— **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

### Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

### HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject.  Schedule training in a way that works best for your business with flexible continuous learning options

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

### GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

— Streamline IT Operations across compute, storage, and networking without the chaos

— Unify and secure data, as you move faster

— Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
