HPE Aruba Networking ClearPass Policy Manager

What's new

- New Hardware Appliances: N1000
  Featuring increased RAM and conversion to SSD with support for serial console communication, ideal for remote data centers.
- New Hardware Appliances: N3000, N3001
  Featuring highspeed SSD for better data replication in clustering and increased RAM to support a higher number of concurrent connections.
- Intuitive policy configuration templates and visibility troubleshooting tools.
- Supports multiple authentication/authorization sources (AD, LDAP, SQL dB) within one service.
- Self-service device onboarding with built-in certificate authority (CA) for bring your own device (BYOD).
- Role-based network access enforcement for multi-vendor Wi-Fi, wired and VPN networks with industry-leading performance, scalability, high availability and load balancing.

Overview

The HPE Aruba Networking ClearPass Policy Manager provides role- and device-based network access control for employees, contractors and guests across multi-vendor wired, wireless and VPN infrastructures. With a built-in context-based policy engine, RADIUS, TACACS+ protocol support, device profiling and comprehensive posture assessment, onboarding, and guest access options, HPE Aruba Networking ClearPass Policy Manager is unrivaled as a foundation for network security.

HPE Aruba Networking ClearPass Policy Manager supports enterprise level security with self-service capabilities for end-user convenience. Users can configure their own devices for enterprise use or internet access. This comprehensive and scalable policy management platform that goes beyond traditional authentication, authorization and accounting (AAA) solutions to deliver extensive enforcement capabilities for IT-owned and bring-your-own-device (BYOD) security.

Features

Enterprise Level Security for Mobile Environments

HPE Aruba Networking ClearPass Policy Manager is a wired and wireless, multi-vendor policy platform to centrally enforce enterprise-grade access security. Granular policy enforcement is based on a user's role, device type, device health, location, and time of day.

Offers extensive multi-vendor wireless, wired and VPN infrastructure support which enables IT to easily rollout enterprise level security mobility policies across the enterprise.

Deployment scalability supports tens of thousands of devices and authentications which surpasses the capabilities offered by legacy authentication, authorization and accounting (AAA) solutions.

The HPE Aruba Networking ClearPass Policy Manager is available as hardware or as a virtual appliance.

Advanced Policy Management

With HPE Aruba Networking ClearPass Policy Manager, organizations can deploy wired and wireless networking using standards-based 802.1X enforcement for strong authentication.

HPE Aruba Networking ClearPass Guest simplifies workflow processes so that receptionists, employees and other non-IT staff can create temporary guest accounts for WAP2 Wi-Fi and wired internet access.

The optional HPE Aruba Networking ClearPass Onboard Software add-on provides automated provisioning of Windows, Mac OS X, iOS, Android, Chromebook, and Ubuntu devices via a user driven self-guided portal.

HPE Aruba Networking ClearPass OnGuard Software, an optional add-on, leverages persistent and dissolvable agents, to perform advanced endpoint posture assessments over wireless, wired and VPN connections.

Stronger, Together – Security in Depth

With over 140 security technology partners including PaloAlto Networks, Duo and Carbon Black, HPE Aruba Networking ClearPass Policy Manager safeguards your business from the inside, acting against what the perimeter does not see.

Multi-vendor is in our culture. Delivering enterprise infrastructure, securing wired and wireless, mobile and fixed assets, Corporate, IOT and bring your own device (BYOD) environments.

HPE Aruba Networking Services

HPE Aruba Networking services simplify and accelerate the network technology lifecycle, enabling your network to scale with better predictability and cost-effectiveness. Whether you operate your own network and need to improve your IT efficiencies, or you want to offload some of the burden, we have the services you need to reach your goals.

Learn more about what HPE Services - Aruba Networking has to offer at: hpe.com/edge/services

Support Services

Our support portfolio provides the essential support elements as well as proactive and preventive features to help you improve your team's productivity and get the most from your network. Our support customers benefit from faster issue resolution, simplified operations and efficiencies, and reduced network issues.

Professional Services

With deep intellectual capital and purpose-built tools, our team delivers a range of standard and custom professional services designed to accelerate your value from HPE Aruba Networking technology.

Project based services include:

— Planning, audit, and assessment
— Architecture review and design
— Deployment, migration, and knowledge transfer

Annual subscription services include:

— Network optimization
— Intelligent Operations
— Customer Experience Management

Our Education Services allow your team to come up to speed quickly.

GreenLake for Networking

Deliver innovative business outcomes by leveraging new ways to consume, deploy and manage networks.
