

HPE CN1200R 10GBASE-T CONVERGED NETWORK ADAPTER (Q0F26A)

Host Adapters

WHAT'S NEW

- HPE CN1300R 10/25GbE dual port converged network adapter
- HPE CN1200R 10GBASE-T converged network adapter

OVERVIEW

HPE Converged Network Adapters (CNAs) are dual port adapters that provide Ethernet, iSCSI, and Fibre Channel (FC) connectivity over 10 GbE/25 GbE using both Fibre Channel over Ethernet (FCoE) and Converged Enhanced Ethernet (CEE) standards. By consolidating Ethernet, iSCSI, and Fibre Channel onto a converged adapter, HPE CNAs reduce the number of separate adapters and cables required for your data center and also reduce operational, power, and cooling costs while preserving existing Ethernet and Fibre Channel infrastructure. HPE CNAs have also been thoroughly tested

with HPE ProLiant servers and HPE Top of Rack (ToR) switches to help ensure a better HPE FCoE solution for your data center.

FEATURES

Converged Infrastructure

Combines the functionality of a NIC (Ethernet/iSCSI) and Fibre Channel Host Bus Adapter (FC HBA) onto a single converged adapter reducing the number of adapters and cables thus reducing acquisition and operational costs.

Dual port 10/25 Gb ethernet converged network adapter.

It provides Active Health System (AHS).

Reliability

Sends Fibre Channel data packets via Fibre Channel over Ethernet (FCoE) using Converged Enhanced Ethernet (CEE) functionality helping ensure high standards of data integrity and lossless Ethernet.

Provides HPE ProLiant Connectivity to Storage and Networks

Provides an HPE-branded Converged Network Adapter solution which has undergone extensive Hewlett Packard Enterprise interoperability testing for connecting HPE ProLiant servers into storage and networking environments.

Efficient for connecting into the B-series and C-series FCoE converged network switches.

Flexible Connect

Choose between SFP+ SR (optical) or direct attach copper cable connectivity allowing increased flexibility in connecting to HPE FCoE converged network switches.

Technical specifications**HPE CN1200R 10GBASE-T Converged Network Adapter**

Product Number	Q0F26A
Data rate	10 GbE/25 GbE Ethernet
Bus type	PCIe
Server type supported	HPE ProLiant platforms Refer to server QuickSpecs for details regarding option support
Compatible operating systems	Microsoft Windows Microsoft® Windows® Red Hat® Linux® SUSE Linux VMware® Please visit www.hpe.com/storage/spock for the latest available information on Operating System support.
Connector type	Dual
Supported Cables	SFP+ Ethernet Optical Modules or Direct Attach Copper

For additional technical information, available models and options, please reference the [QuickSpecs](#)

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
