

HPE CN1200R 10GBASE-T Converged Network Adapter (Q0F26A)

What's new

- HPE CN1300R 10/25GbE dual port converged network adapter
- HPE CN1200R 10GBASE-T converged network adapter

Overview

HPE Converged Network Adapters (CNAs) are dual port adapters that provide Ethernet, iSCSI, and Fibre Channel (FC) connectivity over 10 GbE/25 GbE using both Fibre Channel over Ethernet (FCoE) and Converged Enhanced Ethernet (CEE) standards. By consolidating Ethernet, iSCSI, and Fibre Channel onto a converged adapter, HPE CNAs reduce the number of separate adapters and cables required for your data center and also reduce operational, power, and cooling costs while preserving existing Ethernet and Fibre Channel infrastructure. HPE CNAs have also been thoroughly tested with HPE ProLiant servers and HPE Top of Rack (ToR)

switches to help ensure a better HPE FCoE solution for your data center.

Features

Converged Infrastructure

Combines the functionality of a NIC (Ethernet/iSCSI) and Fibre Channel Host Bus Adapter (FC HBA) onto a single converged adapter reducing the number of adapters and cables thus reducing acquisition and operational costs.

Dual port 10/25 Gb ethernet converged network adapter.

It provides Active Health System (AHS).

Reliability

Sends Fibre Channel data packets via Fibre Channel over Ethernet (FCoE) using Converged Enhanced Ethernet (CEE) functionality helping ensure high standards of data integrity and lossless Ethernet.

Provides HPE ProLiant Connectivity to Storage and Networks

Provides an HPE-branded Converged Network Adapter solution which has undergone extensive Hewlett Packard Enterprise interoperability testing for connecting HPE ProLiant servers into storage and networking environments.

Efficient for connecting into the B-series and C-series FCoE converged network switches.

Flexible Connect

Choose between SFP+ SR (optical) or direct attach copper cable connectivity allowing increased flexibility in connecting to HPE FCoE converged network switches.

Technical specifications

HPE CN1200R 10GBASE-T Converged Network Adapter

Product Number	Q0F26A
Data rate	10 GbE/25 GbE Ethernet
Bus type	PCIe
Server type supported	HPE ProLiant platforms Refer to server QuickSpecs for details regarding option support
Compatible operating systems	Microsoft Windows Microsoft® Windows® Red Hat® Linux® SUSE Linux VMware® Please visit www.hpe.com/storage/spock for the latest available information on Operating System support.
Connector type	Dual
Supported cables	SFP+ Ethernet Optical Modules or Direct Attach Copper

[For additional technical information, available models and options, please reference the QuickSpecs](#)

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GreenLake

HPE GreenLake edge-to-cloud platform is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
