HPE CLIENT VIRTUALIZATION WITH VMWARE HORIZON

VMware Virtualization Software

vmware®

WHAT'S NEW

- Flexible deployment options allow the delivery and management of virtual desktops and apps on-premises or in the cloud.
- Intrinsic security built into VMware® technologies across the network and supported by Horizon, provides complete security from any device across the network into the data center and the cloud.

OVERVIEW

Are you looking for a client virtualization solution optimized for a hybrid cloud environment?

HPE Client Virtualization with VMware Horizon® offers a modern solution based on the well-managed and virtualization-ready Hewlett Packard Enterprise server systems. VMware Horizon is a desktop replacement solution that provides IT teams with the flexibility to quickly and securely deliver and centrally manage full-featured, personalized virtual desktops and applications anytime,

- 
- VMware vSAN™ Advanced for Desktop available as a separate purchase for virtual storage needs.

anywhere, on any device. It lowers the complexity and cost of desktop management and protects against potential data loss, while continuing to provide end-users with the functionality of a stand-alone desktop across hybrid cloud.

FEATURES

Securely delivers virtual desktops and applications through a single platform

HPE Client Virtualization with VMware Horizon delivers full-featured, personalized Windows and Linux® virtual desktops and applications through a single platform to end users on any device, anywhere.

Optimized for the Software-defined Data Center

HPE Client Virtualization with VMware Horizon leverages VMware vSphere® expertise to deliver desktop and application workloads, extending the power of virtualization with virtual compute, storage, and networking and security to help reduce costs and enhance user experience.

Streamlined Management and Automation

HPE Client Virtualization with VMware Horizon allows IT to streamline management, automate delivery, protect compute resources, and provide feature-rich user experiences.

Make Just One Call for Service and Support

HPE Pointnext Services provides comprehensive support for the entire physical and virtual infrastructure delivering one stop, one call for VMware software and HPE server support. Choices include 1, 3 or 5 year unlimited 24x7 technical support and software updates.
