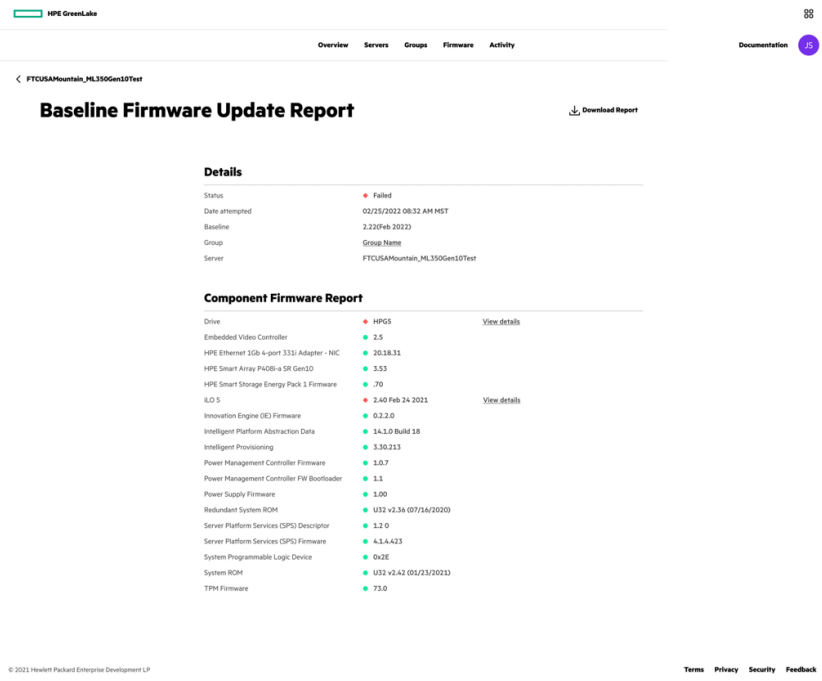
HPE Compute Ops Management

HPE Compute Ops Management Standard 1-year Upfront ProLiant SaaS (R7A10AAE)



What's new

- Introducing new HPE Compute Ops Management pre-configured SKUs specifically for Smart Choice.
- New license tier that creates a single, seamless subscription combining the newly renamed HPE Compute Ops Management Standard and HPE iLO Advanced under the name HPE Compute Ops Management Advanced
- Single sign-on (SSO)–based remote console to HPE iLO

Overview

HPE Compute Ops Management is a secure, software-as-a-service (SaaS) compute management tool that intelligently modernizes the compute lifecycle management experience, no matter where compute resides - from secure onboarding to simplifying updates and compliance, to unifying monitoring and management. Get HPE Compute Ops Management to work for you!

- VMware®-certified vCenter Server® plug-in module now available natively within HPE Compute Ops Management

- Raw active health system upload and parsed download

- For more on latest features visit: Announcement page

Features

Secure Gateway

Consolidate HPE iLO connection through secure gateway, and reduce firmware update time with built in firmware caching feature

Enables HPE GreenLake for Compute Ops Management as the default management tool.

SSO-Based Remote Console to HPE iLO

Securely login to HPE iLO using SSO credentials

Support Case History

View all auto-created support case history

Onboard devices: Simplify deploying new server hardware from bare metal to configuration. Set BIOS, update drivers and firmware. Label and Group devices for intuitive inventory management and monitoring. Firmware management and compliance:

Quickly set firmware baselines across devices and track compliance. Instantly identify which devices need an update and download only the deltas. Use policies to stage and schedule updates either in a governed or automated manner.

Monitor and manage: Instant at-a-glance views of group and device health and status. Get alerts with recommended actions to take, all from a single console.

Ubuntu Operating System Support

New operating system support for Ubuntu

Technical specifications	HPE Compute Ops Management Standard 1-year Upfront ProLiant SaaS
Product Number	R7A10AAE
Product type	SaaS
Evaluation	https://www.hpe.com/us/en/hpe-compute-ops-management.html
Platform supported	HPE ProLiant ML and DL Gen11 HPE ProLiant ML and DL Gen10 HPE ProLiant ML and DL Gen10 Plus HPE ProLiant ML and DL Gen12
Service method	SaaS
Billing frequency	Upfront
Duration (term)	1-year
Support coverage	24x7
Pre-requisites	https://www.hpe.com/info/com-gsg
Tier	#BLANK#

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

— **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.

— **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

— **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

— Streamline IT Operations across compute, storage, and networking without the chaos

— Unify and secure data, as you move faster

— Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
