

# HPE CONTINUOUS ACCESS EVA SOFTWARE

## Storage Replication Software

---

### WHAT'S NEW

- Support for EVA 6400/8400
- Update Warranty support for the EVA SW LTUs from 24x7 to 9x5

### OVERVIEW

Do you need to plan for advanced Disaster Recovery with simple configurations and management? HPE Continuous Access EVA Software provides an array based application that uses advanced replication technologies to replicate data over distance between HPE Enterprise Virtual Arrays. The HPE Continuous Access EVA utilizes the powerfully simple graphical user interface (GUI) provided by Replication Solutions Manager (RSM) Software to create, manage and configure remote replication on the entire HPE EVA family of storage arrays. With the combination of unique remote replication technologies and the unparalleled easy to use RSM Software interface, enterprises can be confident their information is protected in the event of a disaster. Furthermore, Continuous Access EVA Software provides the necessary components to solve enterprises business continuity objectives in a cost effective and easily deployable package.

### FEATURES

#### Advanced Disaster Recovery

HPE Continuous Access Software helps enable compliance to business continuity and regulatory goals. Using advanced replication technologies, information is protected from disaster or unplanned downtime

Provides a fully automatic failover/failback of storage and servers by integrating with disaster tolerant solutions such as HPE Cluster Extension EVA Software, Metro Cluster and Continental Cluster products

### Simple to Manage and Configure

Continuous Access EVA shares the exclusive unified, Replication Solutions Manager Software, with Business Copy EVA Software. This interface offers users a simple control point that utilizes job engines, wizards and host integration and an Interactive Topology Manager that reduces workload and errors

RSM provides automated scripts which reduce configuration time, number of clicks, steps involved in replication and job engines, wizards that makes configuration simple reducing workload and errors

### Flexible and Versatile

Continuous Access EVA offers both synchronous and asynchronous modes of data transfers. These two replication modes provide flexibility in recovery time and recovery point objective planning.

Single management interface that supports the full EVA product family and integrates with HPE Business Copy EVA.

## Technical specifications

## HPE Continuous Access EVA Software

<b>Supported hardware environment</b>	HPE EVA disk arrays
<b>Replication distance</b>	Remote
<b>Replication type</b>	array based
<b>Version</b>	N/A
<b>Product Dimensions (metric)</b>	22.225 x 0.635 x 14.287 cm
<b>Weight</b>	0.453 kg
<b>Warranty</b>	Includes one year of HPE Software Support 9 x 5 (software technical support and software product and documentation updates)

For additional technical information, available models and options, please reference the [QuickSpecs](#)

## HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

### Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

**HPE Integration and Performance Services** help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

### Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
