

HPE CONVERGEDSYSTEM 100 FOR HOSTED DESKTOPS

On-Demand IT

WHAT'S NEW

- Deliver a personalized, remote experience for the most demanding users
- Start small and scale up with POC-sized Starter Kits
- Deliver persistent, bare-metal hosted desktops (remotely) with reliable performance similar to a local laptop or PC
- 64 GB SSD capacity available per user

OVERVIEW

Are you searching for a proven way to provide IT service for your mobile workers?

In the past, IT has not been able to deliver a satisfactory experience to remote workers requiring access to performance-driven workloads and with personal customization. The HPE ConvergedSystem 100 for Hosted Desktops is an all-in-one system that delivers 180 independent desktops for Citrix® XenDesktop® environments.

It provides a consistent, reliable PC experience for the most demanding mobile workers, while delivering up to 44% improvement in TCO and 63% lower power consumption. The ConvergedSystem 100 for Hosted Desktops deploys up to 90 times faster compared to distributed desktops, and drives improved security with centralization of data and applications.

FEATURES

Easy To Order and Deploy

The HPE ConvergedSystem 100 for Hosted Desktops provides up to 90X faster deployment versus desktop PCs.

The CS100 for Hosted Desktops is easy to order via a single part number.

With reduced complexity with no hypervisor layer or SAN storage the CS100 for Hosted Desktops is easy to deploy.

With simple, predictable sizing—180 users per chassis (4.3U) the CS100 for Hosted Desktops keeps your data center manageable.

Optimal PC Experience

The HPE ConvergedSystem 100 for Hosted Desktops supports dedicated compute and graphics for each user.

The CS100 for Hosted Desktops gives your users a more consistent, and reliable user experience.

The CS100 for Hosted Desktops provides equal or better performance for applications and multi-media workloads.

You have no application compatibility issues with the CS100 for Hosted Desktops.

You can use local SSD store as method to improve performance storing most commonly accessed data in closest proximity, on fastest medium.

Up to 44% Improvement in TCO Versus Desktop PCs

The HPE ConvergedSystem 100 for Hosted Desktops gives you predictable CAPEX and scalability with fixed cost per user.

The CS100 for Hosted Desktops offers up to 63% lower power consumption with HPE Moonshot.

You get increased worker productivity with access to any mobile device.

The CS100 for Hosted Desktops lowers support costs with centralized desktop administration.

Improved Security and Compliance

With the HPE ConvergedSystem 100 for Hosted Desktops you have centralization of corporate data, applications and desktop images into the data center.

You can easily implement policy-based, controlled access and tracking for compliance purposes. And all sensitive data resides behind your corporate firewalls and other security measures.
