

# HPE DDR4 Standard Memory

---

## What's new

- Up to 16 GB DDR4-2666 MT/s memory options supported on HPE Gen10 servers.

## Overview

Are you looking for enterprise-quality server memory at a lower cost? Small and medium business owners often must choose between the need for high-performance server memory that supports their workloads and the simultaneous desire to control capital and operating expenses. With HPE DDR4 Standard Memory, you don't need to choose between performance and cost efficiency. HPE Standard Memory options are designed to deliver performance, reliability and efficiency at an affordable price. Unlike third-party alternatives, HPE Standard Memory is sourced from the highest-quality DRAMS and undergoes a rigorous testing and authentication process. This extensive testing ensures that it is completely compatible with and optimized for entry-level HPE server platforms to perform to industry-defined specifications.

## Features

### High Performance

HPE DDR4 Standard Memory matches the performance capabilities of the new generation of Intel® processors.

HPE DDR4 Standard Memory reduces downtime and lowers energy costs using advanced error detection.

**High Reliability**

HPE DDR4 Standard Memory provides excellent quality and support for a selection of HPE Gen10 and Gen9 servers.

HPE engineers quality and reliability into every HPE DDR4 Standard Memory product.

**Increased Efficiency**

HPE offers an affordable solution for small and medium business and remote and branch office customers with DDR4 Standard Memory.

**Technical specifications****HPE DDR4 Standard Memory**

<b>DIMM type</b>	UDIMM
<b>DIMM native speed</b>	2666 MT/s
<b>Voltage</b>	1.2 V
<b>Product dimensions (metric)</b>	8.89 x 19.05 x 1.91 cm
<b>Weight</b>	0.045 kg
<b>Warranty</b>	<a href="http://h20564.www2.hp.com/hpsc/doc/public/display?docId=c00383139">http://h20564.www2.hp.com/hpsc/doc/public/display?docId=c00383139</a>

**HPE Services**

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

**Consulting services**

Experts can help you map out your path to hybrid cloud and optimize your operations.

**Managed services**

HPE runs your IT operations, giving you unified control, so can focus on innovation.

**Operational services**

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

**Lifecycle Services**

Address your specific IT deployment project needs with tailored project management and deployment services.

**HPE Education Services**

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The Defective Media Retention (DMR) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. Comprehensive Defective Material Retention (CDMR) allows you to keep all data retentive components.

**HPE GreenLake**

HPE GreenLake edge-to-cloud platform is HPE’s market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
