

HPE ETHERNET 10GB 2-PORT SFP+ BCM57414 ADAPTER

Host Adapters

OVERVIEW

Do you need an adapter that is big on capability and small on CPU utilization?

The HPE Ethernet 10Gb 2-port SFP+ BCM57414 Adapter has been designed to efficiently deliver high performance, low latency and minimal CPU utilization by offloading many I/O processing within the adapter. Low latency dramatically improves application performance and frees up CPU resources in the host allowing it to do more important tasks

FEATURES

Improve Application Performance

The HPE Ethernet 10Gb 2-port SFP+ BCM57414 Adapter offloads packet processing to reduce CPU utilization with tunnel offloads (VXLAN and NVGRE). Now you can distribute network traffic across CPU cores in your data center.

Speed up packet processing to service more I/O requests by utilizing data plane development kit (DPDK) feature.

Increase I/O Bandwidth for Workload Intensive Applications

The HPE Ethernet 10Gb 2-port SFP+ BCM57414 Adapter delivers single root I/O virtualization (SR-IOV) which increases virtual network performance while decreasing CPU utilization.

Technical specifications

HPE Ethernet 10Gb 2-port SFP+ BCM57414 Adapter

Network processor	Broadcom Whitney+
Data rate	10 Gb
Bus type	PCIe Gen3x8
Form factor	Standup
Power	9,084 Typical 14W Maximum
Server type supported	Proliant Servers
IEEE compliance	802.3, 802.3ae, 802.3x, 802.2x, 802.3ad, 802.1Qaz, 802.1Qau, 802.1Qbb, 802.1Qbg, 802.1ax, 1588
Compatible operating systems	Microsoft Windows Server 2012 R2 all editions, Microsoft Server Semi-Annual channel release, Microsoft Windows Server 2016 All editions (LTSC Release), Microsoft Windows Server 2019 (LTSC Release), RHEL (7.6, 7.7, 8.0, 8.1), SLES12 (SP3, SP4, SP5), SLES15 SP1, VMware vSphere 6.5 (U2, U3), VMware vSphere 6.5 (U2, U3), 6.7 (U2, U3) and 7.0
Connector type	SFP+
Supported Cables	10 Gb - Active Optical Cable (AOC), 10 Gb - Direct Attach Copper (DAC)

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
