HPE FLEXFABRIC 5980 48SFP+ 6QSFP28 SWITCH (JQ026A)

Fixed Port L3 Managed Ethernet Switches

WHAT'S NEW

- High-density 10GbE with 100G uplink for spine and leaf deployments, also supporting 40GbE connections on the 100GbE ports.
- L2/L3 VXLAN and EVPN support for virtualized environments.
- OpenFlow support for investment protection and software-defined network (SDN) environments.

OVERVIEW

The HPE FlexFabric 5980 Switch Series is a high-performance and low-latency 10 GbE top-of-rack, data center switch designed to meet the increasing requirements for higher-performance server connectivity, convergence of Ethernet and storage traffic, the capability to handle virtual environments, and low latency. The switch includes 100Gbps uplink technology and is ideally suited for deployment at the aggregation or server access layer of large enterprise data centers or at the core layer of medium-sized enterprises.

- Unify management with HPE IMC.
- Data center convergence and resiliency with IRF.

FEATURES

High-Density, Advanced, Data Center Switches

The top-of-rack data center HPE FlexFabric 5980 Switch Series offers high performance and scalability of the server-edge 10/100GbE deployments with high-density 48 fixed x 10GbE SFP+ ports with 6 ports of 100GbE delivered in a 1 RU design.

Lossless Architecture with deep packet buffers ensures network continuity.

High-Performance Low-Latency Data Center Switching

The HPE FlexFabric 5980 Switch Series is constructed in a cut-through and non-blocking architecture to deliver low 10 Gbps latency of 10 s for very demanding enterprise applications.

Each switch delivers a high-performance switching capacity up 720 Mpps.

It supports up to 800 Gbps throughput for data-intensive environments.

Each switch supports up 250K/128K routing table entries (IPv4/IPv6).

Business Agility and Resilience

The HPE FlexFabric 5980 Switch Series delivers IRF technology which enables deployment of a resilient, scalable, and secure data center.

Redundant fans and power supplies ensure continuity for critical data center deployments.

Simplicity and Lower TCO

HPE FlexFabric 5980 Switch Series switch management is simplified with the use of HPE IMC with central configuration, updating, monitoring, and troubleshooting.

No hidden costs as Hewlett Packard Enterprise Comware 7 includes all software features.

Technical specifications

HPE FlexFabric 5980 48SFP+ 6QSFP28 Switch

Product Number	JQ026A
Ports	48 fixed 1000/10000 SFP+ and 6 QSFP28 100GbE ports
Latency	< 10 μs (64-byte packets)
Throughput	Up to 800 Gbps
Routing/switching capacity	Up to 720 Mpps
Input voltage	100–240 VAC, rated, or -40 to -60 VDC, rated (depending on power supply chosen)
Power Consumption	340W
Heat dissipation	986 BTU/hr (1040.29 kJ/hr)

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
