

HPE IMC SERVICE OPERATION MANAGEMENT SOFTWARE

Intelligent Management Software

WHAT'S NEW

- Real-time, accurate configuration database.
- Integration with alarming and configuration center.
- Centralized knowledge base for self-resolution of network issues.
- Complete service operation flow management.

OVERVIEW

The HPE IMC Service Operation Manager (SOM) Software platform is an Intelligent Management Center (IMC) module that focuses on operations and management flow to provide full IT lifecycle management adhering to ITIL v3.0 including services like policy design, operation, and configuration improvement.

The IMC SOM Software provides controls, measures, and audit capabilities for configuration changes, fault identification, and recovery, reducing IT manual involvement and cost by allowing end users to recognize known network issues and track service requests.

FEATURES

Lifecycle Management of IT Network Operations

The HPE IMC Service Operation Manager (SOM) Software provides lifecycle management of IT network operations from ticket creation to status checks to execution and resolution.

End users can manage and recognize their own network issues and track service requests, reducing overall IT involvement.

Configuration management allows for the automated and manual setting of control mechanisms and audit configuration changes.

Integration with alarming reduces maintenance by enabling problem recognition, improving network efficiency, stability, and quality.

Customization of Networking Experience

The HPE IMC Service Operation Manager (SOM) Software tailors flow management to operations management based on predefined templates appropriate for an organization.

Leverage a centralized knowledgebase for issue resolution and problem identification.

Easily interfaces between end users and administrators to reduce IT time in both operations and management.

Technical specifications

HPE IMC Service Operation Management Software

Differentiator

HPE IMC Service Operation Manager Software provides full lifecycle support for IT operations and management.

Platform required

HPE Intelligent Management Center Enterprise Software
HPE Intelligent Management Center Standard Software
