

HPE IMC TACACS+ AUTHENTICATION MANAGER SOFTWARE MODULE WITH 50-NODE E-LTU (JG764AAE)

Intelligent Management Software

WHAT'S NEW

- Support for device identification and authentication.
- Comprehensive user and log monitoring.
- Centralized management of all device users.
- Flexible authorization policies.
- Batch upload for device users.

OVERVIEW

The HPE IMC TACACS+ Authentication Manager (TAM) Software is an Intelligent Management Center (IMC) optional module that provides basic authentication, authorization, and accounting functions for network devices or IT users in order to deliver network device management security.

The IMC TACACS+ TAM Software can assign users with different privileges, monitor login and command execution operations as well as simplify user management which work with devices that support the TACACS+ protocol.

FEATURES

Easily Identify, Authenticate, and Manage Devices

The HPE IMC TACACS+ Authentication Manager Software supports multiple device access methods like Telnet, SSH, and FTP for increased flexibility.

Supports multiple identity verification methods including ASCII, PAP, and CHAP for greater security.

Uses unified authentication with a light weight assisted protocol (LDAP) server, Windows domain server, or third-party LDAP enabled email system.

Executes granular device control of operator privileges for both assigning the operator's operational limits as well as their power to add, change, and remove functions.

Easily Manage Users and Log Activities

The HPE IMC TACACS+ Authentication Manager Software comprehensively monitors users and automatically adds malicious users into a denylist for further monitoring, auditing, and investigation. User information is archived and the user can be deleted.

Leverage group management for device users through multi-administrator management and perform batch operations on users to speed operations and minimize IT management intervention.

Synchronizes device user information from LDAP systems for latest updates.

Technical specifications

HPE IMC TACACS+ Authentication Manager Software Module with 50-node E-LTU

Product Number	JG764AAE
Differentiator	Electronic delivery of license for HPE IMC TACACS+ Authentication Manager Software Module with 50-node E-LTU
Platform required	HPE Intelligent Management Center Enterprise Software HPE Intelligent Management Center Standard Software
Technical notes	See the HPE IMC Standard or Enterprise Platform data sheet for the required software environment.
