

HPE Integrity MC990 X TDI for SAP HANA Scale-up Configurations

Overview

Is the task of implementing SAP HANA for your company very challenging? The HPE Integrity MC990 X TDI for SAP HANA Scale-up Configurations solve your dilemma. These SAP configurations provide a certified, integrated, pre-configured system that fits smoothly, efficiently into your existing infrastructure of storage and networking. All of the HPE MC990 X TDI for SAP HANA Scale-up Configurations have been tested and are certified. When you select your configuration, you have confidence that it is efficient and effective and meets the SAP HANA performance indicators (KPIs). As your use of your data grows, the HPE MC990 X TDI for SAP HANA Scale-up Configurations are ready to accommodate your increased workloads smoothly, so that you have no concerns about future growth.

Features

Easing Your SAP HANA Scale-up Implementation into Your Data Center

HPE Integrity MC990 X TDI for SAP HANA Scale-up Configurations provide a certified, integrated, pre-configured system that fits smoothly, efficiently into your existing infrastructure of storage and networking.

You can tailor your HPE MC990 X TDI for SAP HANA Scale-up Configuration with a few sizing options such as 500 GB to 6 TB of memory to fit your budget and your needs. Your certified configuration arrives at your data center pre-configured and tested.

Making It Safe and Easy

SAP has certified the HPE Integrity MC990 X TDI for SAP HANA Scale-up Configurations for up to a 6 TB database and eight processors which means that SAP supports your installation.

All of the HPE MC990 X TDI for SAP HANA Scale-up Configurations have been tested and are certified. When you select your configuration, you have confidence that it is efficient and effective and meets the SAP HANA performance indicators (KPIs).

With the defined HPE MC990 X TDI for SAP HANA Scale-up Configurations your choices are directed which streamlines the process and makes it easy to implement and to run.

With the HPE MC990 X TDI for SAP HANA Scale-up Configurations simplify implementing SAP HANA which removes the risk of implementing SAP HANA.

Planning for Your Future Growth

As your use of your data grows, the HPE Integrity MC990 X TDI for SAP HANA Scale-up Configurations are ready to accommodate your increased workloads smoothly.

With the HPE MC990 X TDI for SAP HANA Scale-up Configurations, you can purchase the power you need now and when your application load and data demands increase, you can scale-up within the framework of your initial system.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

[Advisory & Professional services](#)

Experts can help you map out your path to hybrid cloud and optimize your operations.

[Managed services](#)

HPE runs your IT operations, giving you unified control, so can focus on innovation.

[Support services](#)

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

[Lifecycle Services](#)

Address your specific IT deployment project needs with tailored project management and deployment services.

[HPE Education Services](#)

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

[GreenLake](#) is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
