

# HPE Intelligent Management Center Basic Software Platform

---

## What's new

- Integration with Aruba AirWave, ClearPass and HPE OneView.
- Cisco Nexus support.
- VXLAN support.
- API enhancements.

## Overview

The HPE Intelligent Management Center (IMC) Basic Software Platform is a network management, software tool with unified resource and device management providing a lower total cost of ownership. The platform is designed for small- to medium-sized businesses with small network environments that need a single display screen to show their network infrastructures. It also provides information for trend analysis and capacity planning.

The Intelligent Management Center (IMC) Basic Software Platform supports Hewlett Packard Enterprise and third-party devices and has a fixed-device limit of 50 nodes.

## Features

### Comprehensive Network Management for Small Networks

The HPE Intelligent Management Center Basic Software Platform is aimed at small- and medium-sized businesses or customers with small network environments and integrates fault management, element configuration, and network monitoring from a central vantage point with multi-vendor device support.

Contains license support for a maximum of 50 managed devices.

Simply and easily manage smaller networks from a central point.

Experience lower total cost of ownership (TCO) with less need for maintenance.

### Leverage Data to Better Manage Your Networks

The HPE IMC Intelligent Management Center Basic Software Platform includes flexible and centralized reporting to provide information needed for network trend analysis and capacity planning. Customization options allow you to define parameters.

Integrated sFlow traffic analysis collects flow information from capable devices to identify bottlenecks, recognize anomalous traffic, and measure varying levels of traffic bandwidth to different services and applications. Provides a top-down view of traffic topology.

Monitors performance through TopN, trend analysis, summary data, and graph displays for wireless device statuses, alarm statistics, and AP traffic monitoring.

## Technical specifications

## HPE Intelligent Management Center Basic Software Platform

### Browser supported

Firefox 30 or later  
 Chrome 35 or later  
 Internet Explorer 10 or 11.

### Software (required)

Database:  
 Microsoft SQL Server 2008 Service Pack 3 (Windows only)  
 Microsoft SQL Server 2008 R2 Service Pack 2 (Windows only)  
 Microsoft SQL Server 2012 Service Pack 2 (Windows only)  
 Microsoft SQL Server 2014 (Windows only)  
 MySQL Enterprise Server 5.5 (Windows only)  
 MySQL Enterprise Server 5.6 (Windows only).

### Software (recommended)

Client: Windows XP SP3 or later.

### Minimum system requirements

Server: Intel® Pentium® 4 3.0 GHz, 4 GB RAM memory, 50 GB storage, 10/100 Mbps NIC  
 Client: Intel® Pentium® 4 2.0 GHz, 2 GB RAM memory, 50 GB storage, 10/100 Mbps NIC.

### System requirements, recommended

Server: 3.0 GHz Intel® Xeon® or Intel® Core™ 2 Duo processor or equivalent  
 4 GB RAM  
 100 GB  
 10/100 Mbps.

### Technical notes

Operating systems marked X64 are recommended. Client: JRE 1.6.0\_update 27 or later is recommended. For 50 nodes, (1) CPU is sufficient.

## HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

### Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

### Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

### Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

### Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

### HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The [Defective Media Retention \(DMR\)](#) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. [Comprehensive Defective Material Retention \(CDMR\)](#) allows you to keep all data retentive components.

## HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
