

HPE Networking Instant On Access Points AP22D

Что нового?

- Wi-Fi CERTIFIED 6™ wireless access point, with 2.5 GbE uplink port
- 2.5 GbE uplink port provides up to 2x more bandwidth than 1 GbE ports without the need for new Cat5/6(a) cables to be installed.
- Four 1 GbE downlink ports that supply up to 2x 15W of PoE (802.3af).
- Up to 1.7 Gbps aggregate wireless throughput.

Обзор

The HPE Networking Instant On Access Points AP22D is an SMB-focused Wi-Fi CERTIFIED 6™ access point that provides reliable wired and wireless connectivity over a 2.5 GbE uplink port with a minimal device footprint. This access point can reduce device clutter while powering downlink devices such as IP Phones or receipt printers with 2x 15W of PoE (802.3af) and supporting 75+ wireless devices over 802.11ax Wi-Fi 6 with an aggregate wireless throughput of 1.7 Gbps.

Easily manage the Instant On AP22D with the Instant On mobile app or portal to create guest and employee networks, govern access control lists, and set PoE schedules to customize power use. Make the most of your limited space in your small business by mounting the Instant On AP22D to a desk or wall with included mounting kits.

Функции

802.11ax Wi-Fi CERTIFIED 6™

HPE Networking Instant On Access Points AP22D features Orthogonal Frequency-Division Multiple Access (OFDMA) which allows access points to handle multiple Wi-Fi 6 capable clients on each channel simultaneously and improve efficiency by boosting overall capacity, reducing latency.

Target Wake Time (TWT): Ideal for IoT devices that communicate infrequently, TWT establishes a schedule for when clients need to communicate with an AP. This reduces power consumption and can extend the battery life of clients.

Multi-User, Multiple Input, Multiple Output (MU-MIMO), allows the access point to simultaneously serve multiple clients (Wi-Fi 5 and Wi-Fi 6).

2.5 Gigabit Ethernet Uplink Port

HPE Networking Instant On Access Points AP22D offers increased available bandwidth to allow for more traffic over Wi-Fi 6 or with the downlink ethernet ports.

Use existing cabling infrastructure like Cat5 or Cat6(a) cables and avoid the additional cost of running new cables across your facility.

Future-proof your environment with the added bandwidth capacity to handle the ever-growing world of cloud-based applications.

Four Downlink 1 Gigabit Ethernet Ports

Connect up to four copper RJ-45 devices to the HPE Networking Instant On Access Points AP22D without the need for an additional switch to manage.

Downlink ports can power two 15W PoE (802.3af) devices without the intervention of a bulky PoE-Injector.

Антенна Wi-Fi	Antennas: Dual semi-directional 2x2 MIMO Antenna Gain: 5.2 dBi in 2.4GHz and 5.4 dBi in 5 GHz Maximum transmit power: 5 GHz band: +21 dBm (+18 dBm per chain, 3 dB MIMO gain) 2.4 GHz band: +20 dBm (+17 dBm per chain, 3 dB MIMO gain)
Сертификаты и соответствие требованиям	Wi-Fi Alliance certified (WFA) 802.11ax with (Wi-Fi 6), WPA2, WPA3
Гарантия	Instant On 2-year warranty includes 24X7 phone support for the first 90 days and chat support for the entire warranty period . Community support is available for the life of the product.
Напряжение на входе	PoE: 802.3bt (class 6) Full functionality or 802.3at (class 4) limited functionality DC power (48V) PoE In: 802.3at/802.3bt POE Out: 2x 15W PoE (802.3af) Note: Power sources are sold separately unless you purchase the bundle SKU
Подключение, стандартное	Ultra-fast 802.11ax
Порты	1x 2.5 GbE Base-T PoE Class 4/6 uplink 2x 1 GbE Base-T PoE Class 3 downlink 2x 1 GbE Base-T downlink DC power connector LED status indicators Reset/LED control button Kensington security slot
Монтаж	Gang wall box-mount kit or Desk-mount kit
Потребляемая мощность	51W (PoE) or 50W (DC)
Зона радиопокрытия	Dual-radio 802.11ax 2x2 5 GHz/2.4 GHz MIMO

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so you can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
