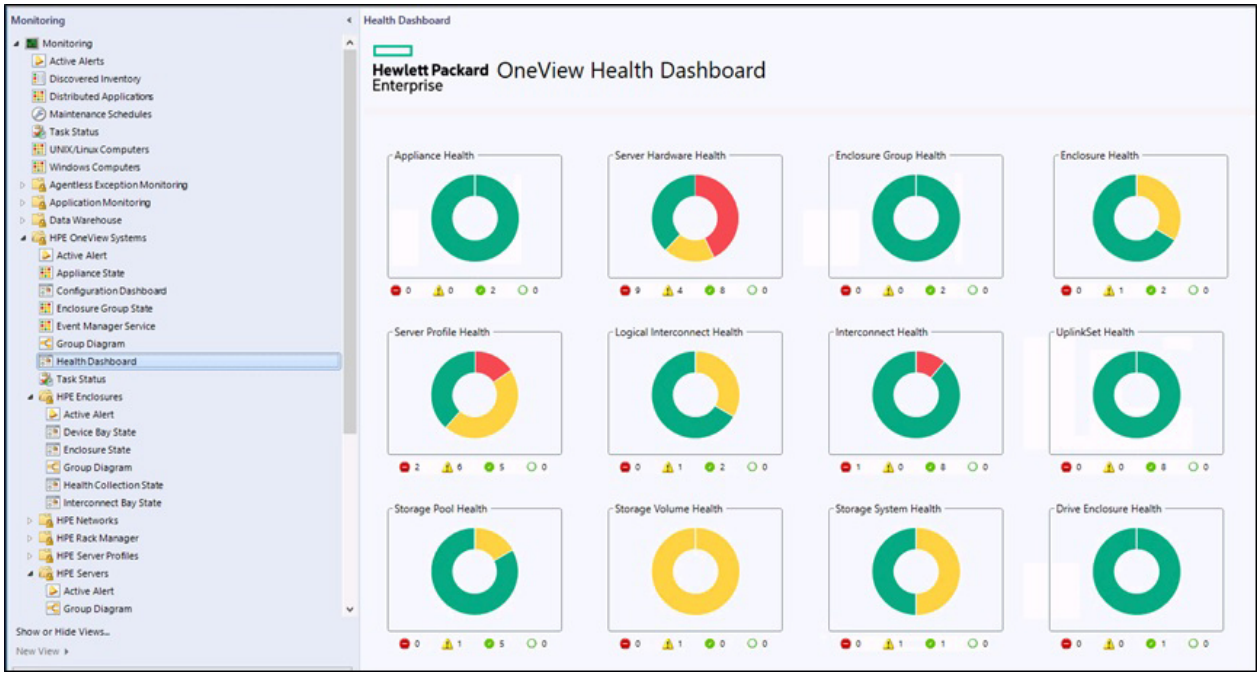
Data sheet

HPE OneView for Microsoft System Center



What's new

- Support for latest versions of HPE OneView.
- Performance and discovery enhancements in SCOM.
- The HPE OneView SCVMM Integration Kit and the HPE Storage SCOM Integrations Kit have been removed from HPE OneView for Microsoft System Center.
- The SCVMM Kit can still be downloaded from HPE OneView for Microsoft System Center version 10.1.
- The HPE Storage SCOM Integration Kit can be downloaded separately.

Overview

Could managing your HPE Synergy infrastructure, HPE ProLiant Servers, HPE enclosures, and HPE Virtual Connect with a single, effective product be a benefit to your business?

HPE OneView for Microsoft System Center provides seamless integration of the powerful HPE Synergy, HPE ProLiant, and HPE BladeSystem manageability features into Microsoft® System Center. Licensed with HPE Synergy and HPE OneView, these extensions deliver comprehensive system health and alerting, driver and firmware updates, and detailed inventory. Integrating the management features of HPE Synergy, HPE ProLiant Servers, and HPE BladeSystem into Microsoft System Center consoles, administrators can gain greater control of their technology environments. This provides consistency for software deployment and updates and enables a faster response in the event of server or storage failure, reducing the risk of downtime.

Features

Support for System Center Operations Manager (SCOM)

HPE OneView for Microsoft System Center proactively monitors and manages hardware health and intelligently responds to hardware events on HPE Synergy infrastructure, HPE ProLiant servers, enclosures, HPE Virtual Connect, and HPE storage.

Use HPE OneView for Microsoft System Center to monitor the health of HPE ProLiant and HPE Synergy Servers without the need for loading OS-based SNMP agents or WBEM providers.

HPE Storage Management Pack for SCOM enables Hewlett Packard Enterprise storage monitoring and management for events and alerts, capacity and health dashboards, and detailed virtual infrastructure.

Support for System Center Configuration Manager (SCCM)

Verifies consistency and improves uptime with simplified Windows driver and firmware updates using the HPE ProLiant Updates Catalog.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

— **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.

— **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

— **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

— Streamline IT Operations across compute, storage, and networking without the chaos

— Unify and secure data, as you move faster

— Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
