HPE P6000 CONTINUOUS ACCESS SOFTWARE

Storage Replication Software

WHAT'S NEW

- Support for HPE P6300/P6500 Enterprise Virtual Array Systems.

OVERVIEW

Do you need to plan for advanced disaster recovery with simple configurations and management? HPE P6000 Continuous Access Software provides an array based application that uses advanced replication technologies to replicate data over almost any distance between HPE P6000 Enterprise Virtual Arrays. The HPE P6000 Continuous Access Software utilizes the powerfully simple graphical user interface (GUI) provided by Replication Solutions Manager (RSM) Software to create, manage and configure remote replication on the entire HPE P6000/EVA family of storage arrays. With the combination of unique remote replication technologies and the unparalleled easy to use RSM Software interface,

enterprises can be confident their information is protected in the event of a disaster. Furthermore, the P6000 Continuous Access Software provides the necessary components to solve enterprises business continuity objectives in a cost effective and easily deployable package.

FEATURES

Advanced Disaster Recovery

HPE P6000 Continuous Access Software uses advanced replication technologies, so information is protected from disaster or unplanned downtime.

Provides a fully automatic failover/failback of storage and servers by integrating with disaster tolerant solutions such as HPE P6000 Cluster Extension Software, Metro Cluster and Continental Cluster products.

Simple to Manage and Configure

HPE P6000 Continuous Access Software is easy to deploy and easy to configure.

HPE P6000 Continuous Access Software shares the exclusive unified, Replication Solutions Manager Software, with P6000 Business Copy Software. RSM provides automated scripts which reduces, steps involved in replication and job engines; wizards make configuration simple reducing workload and errors.

HPE P6000 Continuous Access Software has fewer tasks to manage which protects against configuration errors.

Flexible and Versatile

HPE P6000 Continuous Access Software offers both synchronous and asynchronous modes of data transfers. These two replication modes provide flexibility in recovery time and recovery point objective planning.

HPE P6000 Continuous Access Software has a single management interface that supports the full EVA product family and integrates with HPE P6000 Business Copy Software.

Technical specifications

HPE P6000 Continuous Access Software

Supported hardware environment	HPE P6000 Disk Arrays
Replication distance	Remote
Replication type	array based
Version	N/A
Warranty	Includes one year of HPE Software Support 9 x 5 (software technical support and software product and documentation updates)

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
