

# HPE ProLiant Compute ML350 Gen12

**HPE ProLiant Compute ML350 Gen12 6505P 12c 1P 1x32GB-R 4LFF MR408i-o 2x4TB HDD 2x1000W PS EU Server (P89974-425)**

## Что нового?

- Powered by Intel® Xeon® 6700 and 6500 series with P-cores; up to 86 P-cores per socket (172 P-cores per server), 350W (TDP); increased memory bandwidth to 6400 MT/s[2], up to 8 TB DDR5 memory capacity
- Supports ultra-high SSD performance with NVMe x4 and EDSFF drive cages, and allowing mixed dual-mode LFF and tri-mode SFF drive cages as hybrid storage optimization solution
- Provides up to 24 NVMe drives with PCIe Gen5 x2 bandwidth to have maximum

## Обзор

Are you looking for our most flexible and powerful tower server for your SMB and remote offices?

The HPE ProLiant Compute ML350 Gen12 is a robust 2P tower server with optional rackable chassis for various environments, and delivers exceptional compute performance, security, reliability, and expandability.

Powered by latest Intel® Xeon® 6700/6500 P-series processors (up to 86 P-cores per socket), up to 8 TB DDR5 6400 memory, the HPE ProLiant Compute ML350 Gen12 server fulfills a wide range of demanding workloads.

The silicon root of trust anchors the server firmware to an HPE-exclusive ASIC,

storage capacity with balanced performance solution

- Includes HPE Integrated Lights-Out 7 (iLO 7) server management software that enables you to securely configure, monitor, and update your HPE ProLiant Compute Gen12 servers seamlessly from anywhere
- Supports new NS204i-u V2 as hot-pluggable, high-availability, RAID1-protected M.2 NVMe boot option
- Supports NVIDIA® L4 24GB Accelerator.

creating a fingerprint for the Intel® Xeon® 6700/6500 P-series processors that must be matched exactly before the server will boot.

The HPE ProLiant Compute ML350 Gen12 server is an excellent choice for diverse workloads such as IT infrastructure, data management, VDI, and ERP/CRM. Scale and adapt to any environment with this server and accelerate your growing business.

## Функции

### Next-Level Security, Chip to Cloud

From silicon to software, from factory to cloud, and from generation to generation, HPE ProLiant Compute Gen12 is engineered with a fundamental security approach to defend against increasingly complex threats through an uncompromising commitment to constant security advancements.

Silicon root of trust from HPE, establishes a zero-trust security framework at the silicon level to ensure firmware integrity. Continuous protection detects compromised servers and prevents them from booting if malicious code is found. Edge servers are safeguarded with default iDevID certificates.

HPE ProLiant Compute servers provide automated recovery from a security event, including restoration of validated firmware, and facilitating recovery of operating system, application and data connections, providing the fastest path to bring a server back online and into normal operations.

Intel® Xeon® 6 processors add hardware- and software-assisted security features such as Intel® Software Guard Extensions (SGX) for application isolation and Trusted Domain Extensions (TDX) for VM Isolation, which help protect the server hardware foundation and safeguard data in memory.

HPE iLO 7 supports quantum-resistant (PQC) algorithms and signs HPE ProLiant Compute Gen12 firmware with algorithms approved by CNSA 2.0, which enhances resilience against potential future attacks by quantum computers.

### Optimized Performance for your Workloads: Accelerated, Open, and Efficient

The HPE ProLiant Compute ML350 Gen12 server is an excellent choice for compute and data storage demanding workloads (AI, machine learning [ML], telco, DB analytics,) requiring high core count, GPU capabilities, and network and I/O bandwidth.

Harness major compute performance. The HPE ProLiant Compute ML350 Gen12 server is powered by Intel® Xeon® 6700P/6500P-series processors that support up to 86 P-cores (172 P-cores per server) at 350W TDP.

Enjoy advanced data transfer rates and higher network speeds from the PCIe Gen5 serial expansion bus, with up to 4 x16 PCIe Gen5 and 2 x16 OCP slots to improve I/O throughput and reduce latency.

Utilize 32 DIMM slots for up to 8 TB DDR5 memory with increased memory bandwidth and performance.

### Intuitive Cloud Operating Experience: Simple, Self-service, and Automated

HPE ProLiant Compute ML350 Gen12 servers are engineered for your hybrid world. The new HPE ProLiant Compute Gen12 servers simplify the way you control your business's compute—from edge to cloud—with a cloud operating experience.

Transform business operations and pivot your team from reactive to proactive with global visibility and insight through a self-service console.

Automate tasks for efficiency in deployment, instant scalability, and seamless, simplified support and lifecycle management reducing tasks and shortening maintenance windows.

These experiences are engineered and built into all HPE ProLiant Compute Gen12 servers, whether purchased as physical servers or consumed as-a-service using GreenLake as your compute and storage demands grow.

### **Industry-leading Services and Ease of Deployment**

The HPE ProLiant Compute ML350 Gen12 server comes with a complete set of HPE Services, delivering confidence, reducing risk, and helping customers realize agility and stability.

HPE Services simplify all stages of the IT journey. Advisory and Transformation Services professionals understand your challenges and design an effective solution. Professional Services enable rapid deployment of solutions and Operational Services provide ongoing support.

Services provided under Operational Services include: HPE Flexible Capacity, HPE Datacenter Care, HPE Infrastructure Automation, HPE Campus Care, HPE Proactive Services and multi-vendor coverage.

HPE IT investment solutions help you transform into a digital business with IT economics that align with your business goals.

Benefit from real-time operational feedback on server performance plus recommendations for fine-tuning BIOS settings to customize for changing business needs.

Технические характеристики	HPE ProLiant Compute ML350 Gen12 6505P 12c 1P 1x32GB-R 4LFF MR408i-o 2x4TB HDD 2x1000W PS EU Server
Product Number	P89974-425
Количество ядер процессора	12 core
Кэш процессора	48 MB L3
Модель процессора	Intel® Xeon® 6505P (12 core, 2.20 GHz, 48 MB L3, 150W)
Количество процессоров	1 processor included
Быстродействие процессора	2.20 GHz
Тип памяти	HPE DDR5 Smart Memory
Жесткие диски в комплекте	2x HPE 4TB SATA 6G Business Critical 7.2K LFF LP 1-year Warranty Multi Vendor HDD
Оптический привод	Optional DVD-ROM or DVD-RW. Refer to the QuickSpecs for more detail.
Защита на физическом уровне	<p>UEFI Secure Boot and Secure Start support.            Intel® Software Guard Extensions (SGX) support.            Immutable Silicon Root of Trust.            TPM (Trusted Platform Module) 2.0 support.            Front bezel key-lock feature, Intrusion Cable (Optional), Padlock slot and Kensington Lock slot support.</p> <p>For full security features refer to the QuickSpecs.</p>
Управление инфраструктурой	<p>HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download); HPE iLO Advanced, HPE OneView Advanced (require licenses), and HPE Compute Ops Management (optional subscription available).</p> <p>Refer to the <a href="#">iLO 7 User Guide</a></p>
Блок питания	2x HPE 1000W Flex Slot Titanium Hot Plug Power Supply Kit
Слоты расширения	Up to 10[1] PCIe Gen5 and 2 OCP slots. Refer to the <a href="#">QuickSpecs</a> for more detail.
Сетевой контроллер	Broadcom BCM5719 Ethernet 1Gb 4-port BASE-T OCP3 Adapter for HPE
Контроллер хранилища	HPE MR408i-o Gen11 x8 Lanes 4GB Cache OCP SPDM Storage Controller
Функции системных вентиляторов	3x Standard Fans
Форм-фактор	4U Tower
Гарантия	<p>3/3/3: Server Warranty includes three years of parts, three years of labor, and three years of on-site support coverage. Additional information regarding worldwide limited warranty and technical support is available at: <a href="https://support.hpe.com/hpesc/public/docDisplay?docId=sd00004309en_us">https://support.hpe.com/hpesc/public/docDisplay?docId=sd00004309en_us</a>. Additional HPE support and service coverage, to supplement the product warranty, is available. For more information, visit: <a href="https://www.hpe.com/support">https://www.hpe.com/support</a>.</p>

[1] Tertiary riser kit to support Slot 9/10 with PCIe Gen5 will be available in Q2, 2025.

[2] The maximum memory speed is a function of the memory type, memory configuration, and processor model.

# HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

## Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

## Managed services

HPE runs your IT operations, giving you unified control, so you can focus on innovation.

## Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

## Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

## HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## **GreenLake**

[GreenLake](#) is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
