

# HPE ProLiant DL345 Gen10 Plus 7313P 3.0GHz 16-core 1P 32GB-R 8SFF 500W PS Server (P39266-B21)

---

## What's new

- Provide versatility and upgradeability for storage with one processor in a 2U rack enclosure.
- Powered by the 3rd Generation AMD EPYC™ Processors with more compute performance compared to the previous generation.
- Enhanced storage management with Tri-mode storage controllers supporting NVMe/SAS/SATA drives.

## Overview

Do you need a single socket server with a 2U rack storage capacity to address your data intensive workloads?

Building on HPE ProLiant as the intelligent foundation for hybrid cloud, the HPE ProLiant DL345 Gen10 Plus server offers the 3rd Generation AMD EPYC™ Processors, delivering excellent performance on a single socket design. Equipped with PCIe Gen4 capabilities, HPE ProLiant DL345 Gen10 Plus server offers improved data transfer rates and higher networking speeds. Enclosed in a 2U server chassis, this one-socket server improves storage capacity across SAS/SATA/NVMe storage options, making it an ideal solution for key applications such as structured/unstructured database management.

## Features

### Workload Optimization

Harness major compute power: The HPE ProLiant DL345 Gen10 Plus server supports the 3rd Generation AMD EPYC™ processors with up to 64-core 280W.

It provides up to 128 lanes of PCIe Gen4 improves I/O throughput and reduces latency.

Tri-mode storage controllers enhance storage management coupled with an advanced storage RAID solution.

It provides real-time operational feedback on server performance plus recommendations for fine-tuning BIOS settings to customize for changing business needs.

### 360 Degree Security

The HPE ProLiant DL345 Gen10 Plus server is tied into the silicon root of trust and the AMD Secure Processor, a dedicated security processor embedded in the AMD EPYC system on a chip (SoC) to manage secure boot, memory encryption, and secure virtualization.

HPE ProLiant security begins with the corruption-free manufacture of the server and auditing the integrity of every component – hardware and firmware – to provide verification that the server begins its lifecycle through an uncompromised supply chain.

HPE ProLiant servers provide rapid detection of a security-compromised server, even to the point of not allowing it to boot, identifies and contains malicious code, and protect healthy servers.

HPE ProLiant servers provide automated recovery from a security event, including restoration of validated firmware, and facilitating recovery of operating system, application, and data connections, providing the fastest path to bring a server back online and into normal operations.

When it's time to retire or repurpose an Hewlett Packard Enterprise ProLiant server, one button secure erase speeds and simplifies the complete removal of passwords, configuration settings and data, preventing inadvertent access to previously secured information.

### Intelligent Automation

The HPE ProLiant DL345 Gen10 Plus server simplifies and automates management tasks, establishing a solid foundation for an open, hybrid cloud platform enabled by composability.

Embedded in HPE servers, HPE Integrated Lights-Out (iLO) is an exclusive core intelligence that monitors server status, providing the means for reporting, ongoing management, service alerting, and local or remote management to quickly identify and resolve issues.

Automation and software defined control reduces time spent on provisioning and maintenance, and reduces deployment time.

### Delivered as-a Service

The HPE ProLiant DL345 Gen10 Plus server supported by HPE GreenLake simplifies IT infrastructure management across your entire hybrid estate. With 24x7 monitoring and management, our experts do the heavy lifting to manage your environment with services built into consumption-based solutions.

Rapidly deploy a broad portfolio of cloud services such as machine learning operations (ML Ops), containers, storage, compute, virtual machines (VMs), data protection, and more. Workload-optimized, preconfigured solutions can be delivered to your facility quickly, decreasing your downtime.

Hewlett Packard Enterprise provides customers choice in how they acquire and consume IT beyond traditional financing and leasing, offering options that free trapped capital, accelerate infrastructure updates, and provide on-premises pay-per-use consumption with HPE GreenLake.

## Technical specifications

## HPE ProLiant DL345 Gen10 Plus 7313P 3.0GHz 16-core 1P 32GB-R 8SFF 500W PS Server

<b>Product Number</b>	P39266-B21
<b>Processor name</b>	AMD EPYC™ 7313P (16 core, 3.0 GHz, 128 MB L3, 155W)
<b>Processor number</b>	1 processor included
<b>Processor core available</b>	16 core
<b>Processor cache</b>	128 MB L3
<b>Processor speed</b>	3.0 GHz
<b>Power supply type</b>	1x HPE 500W Flex Slot Platinum Hot Plug Low Halogen Power Supply Kit
<b>Expansion slots</b>	4 maximum, for detailed descriptions refer to the QuickSpecs
<b>Memory type</b>	HPE DDR4 Smart Memory
<b>Included hard drives</b>	None ship standard, 8 SFF supported
<b>Optical drive type</b>	Optional, None ship standard
<b>System fan features</b>	6x Standard Fans
<b>Network controller</b>	Intel I350-T4 Ethernet 1Gb 4-port BASE-T OCP3 Adapter for HPE
<b>Storage controller</b>	HPE Smart Array P408i-a SR Gen10 x8 Lanes 2GB Cache SAS 12G Modular Controller
<b>Product dimensions</b>	8.75 x 44.54 x 71.1 cm
<b>Weight</b>	16.33 kg
<b>Infrastructure management</b>	HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download) HPE iLO Advanced, HPE iLO Advanced Premium Security Edition, and HPE OneView Advanced (require licenses)
<b>Warranty</b>	3/3/3: Server Warranty includes three years of parts, three years of labor, and three years of on-site support coverage. Additional information regarding worldwide limited warranty and technical support is available at: <a href="http://h20564.www2.hp.com/hpsc/wc/public/home">http://h20564.www2.hp.com/hpsc/wc/public/home</a> . Additional HPE support and service coverage for your product can be purchased locally. For information on availability of service upgrades and the cost for these service upgrades, refer to the HPE website at <a href="http://www.hp.com/support">http://www.hp.com/support</a> .
