HPE SANNAV MANAGEMENT SOFTWARE

Storage Device Management Software

OVERVIEW

Would you like to visualize, manage, and analyze SAN performance and overall operational health intelligently? As organizations race to modernize the data center to support innovation and digital transformation, storage networks are evolving faster to accommodate the new applications. Administrators, therefore, need ways to visualize and manage SAN health and performance efficiently. HPE SANnav Management Software is the next-gen SAN management application suite for HPE B-series Fibre Channel SAN environments. It consists of SANnav Management Portal

Software and SANnav Global View Software. SANnav Management Portal builds the foundation for an autonomous SAN with a modernized and simple browser-based UI to monitor and streamline common workflows, such as configuration, zoning, deployment, troubleshooting, and reporting. SANnav Global View enables visualization of health, performance, and inventory of multiple SANnav Management Portal instances using a simple yet intelligent dashboard.

FEATURES

Simplified yet Comprehensive Manageability

Provides modern UI with intuitive use-case driven workflows for common configuration tasks.

Enhances monitoring with customizable health, performance, event, inventory, security, and status dashboards.

Troubleshoots rapidly with instant view of fabric, powerful log–analysis, historical, and real-time data.

Displays in-context topology views based on host, target, fabric, and zone.

Focused Global Visibility

Captures global inventory across geographical locations and visualizes SAN usage.

Provides a single pane-of-glass view to monitor overall SAN health, events, violations, and drifts.

Enables quick drill-down troubleshooting across local instances.

Flexible and Scalable

Implements a highly scalable client-server architecture for SAN management.

Available with flexible options of 1-year, 3-year, and 5-year term-based licensing.

Supports the existing and future HPE B-series SAN Infrastructure - 8 Gb, 16 Gb, and 32 Gb switches and directors.

Technical specifications   HPE SANnav Management Software

Supported hardware environment	HPE B-series Fibre Channel Directors and Switches
Version	HPE SANnav Management Portal Base Edition (1-year, 3-year, and 5-year term-license); HPE SANnav Management Portal Enterprise Edition (1-year, 3-year, and 5-year term-license); HPE SANnav Global View (1-year, 3-year, and 5-year term-license)

HPE POINTNEXT SERVICES

HPE Pointnext Services brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

HPE Pointnext Tech Care provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

HPE Pointnext Complete Care is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development
