

# HPE SN4000B Power Pack+ SAN Extension Switch (E7Y73C)

## What's new

- Supports Restriction of Hazardous Substances Directive (RoHS) compliant requirements for RoHS 2016.
- Twenty-four 16 Gbps Fibre Channel ports, sixteen 1/10 Gigabit Ethernet (GbE) ports, and two 40 GbE ports.
- Addresses growing requirement for high availability/disaster recovery with demands for increased performance/throughput, manageability, and “always on” reliability.
- Hardware-based capabilities to optimize data transfers over the IP link.
- Provides multiple modes to optimize compression ratios for various throughput

## Overview

Today's IT organizations are under pressure to keep pace with the growing avalanche of data traffic between data centers and the changes driven by virtualized application workloads. Faced with this challenge, coupled with rising Service Level Agreement (SLA) requirements and recovery expectations, enterprise data centers need their disaster recovery plans to enable fast, continuous, and easy access to mission-critical data from anywhere in the world.

The HPE B-series SN4000B SAN Extension Switch with Brocade Fabric Vision technology delivers unprecedented performance, continuous availability, and simplified management to handle the unrelenting growth of data traffic between data centers.

---

requirements.

The HPE SN4000B is a purpose-built data center extension solution that maximizes performance and scalability for large, complex environments, allowing IT organizations to future-proof their storage extension infrastructure by adding more throughput capacity as their needs grow.

## Features

### High Performance

The HPE B-series SN4000B moves more data faster and further with 16 Gb Fibre Channel and 40GbE ports, available with the HPE SN4000B WAN Rate Upgrade license.

The HPE B-series HPE SN4000B advanced performance and network optimization enable replication and backup applications to send more data over metro and WAN links in less time and to optimize available WAN bandwidth.

The HPE B-series SN4000B offers Twenty-four 16Gbps Fibre Channel ports, sixteen 1/10 Gigabit Ethernet (GbE) ports, and two 40GbE ports provide the bandwidth, port density, and throughput required for maximum application performance over WAN links.

### Scalable and Flexible SAN Extension

The HPE B-series SN4000B leverages cost effective IP WAN transport to extend open systems and mainframe disk and tape storage applications over distances that would typically be impractical.

The HPE B-series SN4000B provides flexibility and investment protection to add advanced extension, FICON, and SAN fabric services for evolving virtual server requirements.

### Simplified Disaster Recovery and Data Protection

The HPE B-series SN4000B supports simple point-to-point or comprehensive multisite SAN extension for a variety of strategic IT initiatives.

The HPE B-series SN4000B centralizes backup to consolidate infrastructure and administrative resources.

The HPE B-series SN4000B includes Built-in tools to validate conditions of the WAN links, network paths, and proper setup of FCIP configurations prior to deployment.

### Integrated Architecture and Management

The HPE B-series SN4000B Utilizes the same Fabric OS (FOS) that supports the entire B-Series product family to ensure interoperability.

The HPE B-series SN4000B Leverages existing and familiar B-Series management tools, including SAN Network Advisor, Web Tools, and the command line interface to simplify deployment and administration.

**Technical specifications****HPE SN4000B Power Pack+ SAN Extension Switch**

<b>Product Number</b>	E7Y73C
<b>Port speed</b>	16 Gb/s Fibre Channel 10/40 Gb/s Ethernet
<b>Aggregate switch bandwidth</b>	768 Gb/s Maximum
<b>Encryption capability</b>	IPSec
<b>Protocol supported</b>	Fibre Channel, Ethernet, FCIP
<b>Availability features</b>	Hot code load Ports on demand with no downtime
<b>Form factor</b>	2U
<b>Software (optional)</b>	Fabric Vision, SN4000B 10 Gb WAN Rate Upgrade License, SN4000B 40 Gb WAN Rate Upgrade License, SN4000B FICON Accelerator License

## HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

### Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

### Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

### Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

### Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

### HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

[The Defective Media Retention \(DMR\)](#) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. [Comprehensive Defective Material Retention \(CDMR\)](#) allows you to keep all data retentive components.

## HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please explore them [here](#).
