

HPE SECURE MANAGER TAPE LIBRARY SOFTWARE

Storage Device Management Software

WHAT'S NEW

- Delivers complete remote manageability for ESL tape libraries in SANs. You can now configure, manage, and monitor all library components from any location, on a single screen.
- Enhances reliability and interoperability of ESL tape libraries in SANs. The new Interface Manager card enables best-in-class interoperability in complex SANs,

OVERVIEW

The HPE Secure Manager for Tape Libraries software advanced feature option provides secure, device-level access, virtual library partitions, and configuration flexibility designed for SAN environments. As a component of HPE Command View for Tape Libraries (CV-TL), it provides centralized, web-based management for HPE ESL9000 and ESL E-Series enterprise class tape libraries, increases reliability and robustness of tape libraries in the SAN, and integrates with leading enterprise management applications. Secure Manager for Tape Libraries allows system

without requiring users to dig through expert-level details.

- Automates setup and configuration of ESL tape libraries in SANs. Previously, each Fibre Channel (FC) interface controller needed to be set up separately. Automated configuration and a single point of control delivers simplicity in the face of complexity.
- Increases speed and uptime with the server-less Direct Backup option. The Extended Tape Library Architecture goes beyond basic protocol-level support to deliver one-step configuration and a certified hardware/software solution.
- Prevents unauthorized servers from interrupting critical backup jobs with Secure Manager ESL, delivering advanced device-level access control while being easier to use than ever.

administrators to design reliability and security into backup SAN environments, providing backup security against extraneous SAN events and protecting host servers with the benefit of simplified SAN management. Virtual library partitions provide security between separated SAN environments.

Technical specifications

HPE Secure Manager Tape Library Software

Compatible operating systems

Microsoft® Windows® 2000 Professional
Microsoft® Windows® 2000 Server edition SP3
Microsoft Windows XP Professional
Microsoft Windows Server 2003
HP-UX

AIX

Linux

NetWare

OVMS

Tru64

Solaris
