

HPE Slingshot SHMEM Software

What's new

- First release of HPE Slingshot SHMEM Software
- Native GPU support for NVIDIA® and AMD architectures
- Electronic right-to-use (E-RTU) licensing for 1-, 3-, or 5-year terms

Overview

HPE Slingshot SHMEM Software delivers high-performance, one-sided communication for distributed memory applications, supporting both CPUs and GPUs from AMD and NVIDIA®. Engineered for the HPE Slingshot interconnect, it enables direct memory access and atomic operations, making it ideal for data-driven workloads in exascale and AI environments.

Features

Optimized for HPE Slingshot

Harnesses adaptive routing and congestion control for maximum throughput and minimal latency, even at scale.

Cross-Platform and Open Standard

Based on OpenSHMEM for portability and future-proofing.

Heterogeneous Support

Enables direct, efficient data movement between NVIDIA® and AMD CPUs and CPUs.

Efficient One-Sided Operations

Supports put, get, atomic operations, and collectives, with minimal overhead.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

[GreenLake](#) is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
