

HPE SMART SAN FOR 3PAR

Storage Device Management Software

WHAT'S NEW

- 3PAR StoreServ Management Console (SSMC) now supports HPE Smart SAN for 3PAR offering greater graphical simplification for the automatic provisioning of Hosts via 3PAR and HPE StoreFabric FC SANs.
- Federated Target Driven Peer Zoning simplifies host provisioning/SAN zoning automatically in a 3PAR Federation with HPE StoreFabric SAN (host, switches and array).

OVERVIEW

Storage Area Networks and the tools that are used to manage them have become increasingly complex. SAN administrators spend more time in configuration tasks – tedious manual activities which can potentially result in unplanned downtime. The reasons for the complexity include the increased adoption of Virtualization – a complexity stemming from mapping the virtual and physical layers of the SAN and the adoption of multiple protocols - iSCSI, FC and FCoE. HPE Smart SAN for 3PAR makes SAN configuration and management simple and error-free through intelligent automation. It is a protocol agnostic application embedded in SAN components that enables the 3PAR to orchestrate configuration, settings and

- New CLI extensions allows for more meaningful information to be displayed about SAN zones.
- Expanded interoperability including Gen6 32 Gb FC support for host and switches.
- Additional FC standards support.

policies in a HPE StoreFabric SAN. HPE Smart SAN's Target Driven Peer Zoning enables you to configure zones accurately in minutes and not in hours and its automatic discovery mechanism creates a powerful platform which would enable real-time diagnostics and SAN analysis for more resiliency.

FEATURES

Intelligence Embedded in SAN Components that Simplifies SAN zoning of a 3PAR and StoreFabric FC SAN

Industry standards based Automated Target and Federated Driven Peer Zoning makes SAN zoning simple, error-free and more SAN resilient for HPE 3PAR all-flash deployments, and reduces the tedious nature of SAN zoning from hours to minutes.

From a single point in the 3PAR array, extract meaningful information about HPE Smart SAN supported HPE StoreFabric FC devices (hosts, switches, array) to ease network troubleshooting.

Automatic Security Profile Enforcement (Port Binding) for HPE 5900CP and HPE 5930 Switches.

Standards based automatic discovery using FC in-band FC-CT/FDMI access and a Diagnostics Ready Fabric.

Embedded in the firmware and doesn't require installation of any additional software.

Technical specifications

HPE Smart SAN for 3PAR

Supported hardware environment

HPE 3PAR StoreServ Storage, HPE StoreFabric FC B-series switches and FC HBAs.

Compatible operating systems

HPE 3PAR Operating System

Version

Smart SAN for 3PAR V2.0

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
