

HPE Smart SAN for 3PAR

What's new

- 3PAR StoreServ Management Console (SSMC) now supports HPE Smart SAN for 3PAR offering greater graphical simplification for the automatic provisioning of Hosts via 3PAR and HPE StoreFabric FC SANs.
- Federated Target Driven Peer Zoning simplifies host provisioning/SAN zoning automatically in a 3PAR Federation with HPE StoreFabric SAN (host, switches and array).
- New CLI extensions allows for more meaningful information to be displayed about SAN zones.
- Expanded interoperability including Gen6 32 Gb FC support for host and switches.

Overview

Storage Area Networks and the tools that are used to manage them have become increasingly complex. SAN administrators spend more time in configuration tasks – tedious manual activities which can potentially result in unplanned downtime. The reasons for the complexity include the increased adoption of Virtualization – a complexity stemming from mapping the virtual and physical layers of the SAN and the adoption of multiple protocols - iSCSI, FC and FCoE.

HPE Smart SAN for 3PAR makes SAN configuration and management simple and error-free through intelligent automation. It is a protocol agnostic application embedded in SAN components that enables the 3PAR to orchestrate configuration, settings and policies in a HPE StoreFabric SAN. HPE Smart SAN's Target Driven Peer Zoning enables you to configure zones accurately in minutes and not in hours and its automatic discovery mechanism creates a powerful platform

- Additional FC standards support.

which would enable real-time diagnostics and SAN analysis for more resiliency.

Features

Intelligence Embedded in SAN Components that Simplifies SAN zoning of a 3PAR and StoreFabric FC SAN

Industry standards based Automated Target and Federated Driven Peer Zoning makes SAN zoning simple, error-free and more SAN resilient for HPE 3PAR all-flash deployments, and reduces the tedious nature of SAN zoning from hours to minutes.

From a single point in the 3PAR array, extract meaningful information about HPE Smart SAN supported HPE StoreFabric FC devices (hosts, switches, array) to ease network troubleshooting.

Automatic Security Profile Enforcement (Port Binding) for HPE 5900CP and HPE 5930 Switches.

Standards based automatic discovery using FC in-band FC-CT/FDMI access and a Diagnostics Ready Fabric.

Embedded in the firmware and doesn't require installation of any additional software.

Technical specifications

HPE Smart SAN for 3PAR

Supported hardware environment	HPE 3PAR StoreServ Storage, HPE StoreFabric FC B-series switches and FC HBAs.
Compatible operating systems	HPE 3PAR Operating System
Version	Smart SAN for 3PAR V2.0
Warranty	Limited lifetime warranty. For more information about HP's Global Limited Warranty and Technical Support, visit: http://h18006.www1.hp.com/storage/warranty.html .

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The [Defective Media Retention \(DMR\)](#) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. [Comprehensive Defective Material Retention \(CDMR\)](#) allows you to keep all data retentive components.

HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
