

HPE STORAGE INTEGRATION FOR MICROSOFT SYSTEM CENTER

Storage Device Management Software

WHAT'S NEW

- Create and view 3PAR thin provisioned deduped volumes in SCVMM
- Create and view 3PAR compressed volumes in SCVMM
- Workflow improvements in SCVMM that add enablement of Dedup and Compression on 3PAR volumes when creating VMs

OVERVIEW

HPE Storage Integrations for Microsoft System Center provides monitoring of HPE Storage products using System Center Operations Manager (SCOM) and storage provisioning and management for select HPE Storage products with Hyper-V based virtual machines from System Center Virtual Machine Manager (SCVMM).

FEATURES

Simple Monitoring and Management of HPE Storage Within Microsoft System Center

Health monitoring of physical, logical, virtual and backup storage infrastructure.

Event and alert monitoring for HPE Storage systems via pre-defined rules.

Supports comprehensive health monitoring of all the storage nodes in Hyper Converged system.

View of relationships between Hyper-V hosts, virtual machines, storage pools and storage volumes.

Unified monitoring of storage resources via HPE OneView when integrated within System Center.

Automated Virtual Machine Provisioning and Deployment with HPE Storage

Wizard-based deployment of multiple virtual machines on Hyper-V hosts and clusters with select HPE Storage.

Flexible storage expansion to easily manage growing capacity.

Deployment of HPE StoreVirtual Virtual Storage Appliances (VSA).

Easy Installation of HPE Storage Management Components for Microsoft System Center

One download package includes HPE storage management packs for System Center Operation Manager and additional components for using select HPE storage with System Center Virtual Machine Manager.

Wizard-driven installation for HPE Storage and HPE OneView integration kits for Operations Manager and Virtual Machine Manager.

HPE Storage Management packs can be installed, configured and upgraded using PowerShell.
