

HPE Storage Integration for Microsoft System Center

What's new

- Create and view 3PAR thin provisioned deduped volumes in SCVMM
- Create and view 3PAR compressed volumes in SCVMM
- Workflow improvements in SCVMM that add enablement of Dedup and Compression on 3PAR volumes when creating VMs

Overview

HPE Storage Integrations for Microsoft System Center provides monitoring of HPE Storage products using System Center Operations Manager (SCOM) and storage provisioning and management for select HPE Storage products with Hyper-V based virtual machines from System Center Virtual Machine Manager (SCVMM).

Features

Simple Monitoring and Management of HPE Storage Within Microsoft System Center

Health monitoring of physical, logical, virtual and backup storage infrastructure.

Event and alert monitoring for HPE Storage systems via pre-defined rules.

Supports comprehensive health monitoring of all the storage nodes in Hyper

Converged system.

View of relationships between Hyper-V hosts, virtual machines, storage pools and storage volumes.

Unified monitoring of storage resources via HPE OneView when integrated within System Center.

Automated Virtual Machine Provisioning and Deployment with HPE Storage

Wizard-based deployment of multiple virtual machines on Hyper-V hosts and clusters with select HPE Storage.

Flexible storage expansion to easily manage growing capacity.

Deployment of HPE StoreVirtual Virtual Storage Appliances (VSA).

Easy Installation of HPE Storage Management Components for Microsoft System Center

One download package includes HPE storage management packs for System Center Operation Manager and additional components for using select HPE storage with System Center Virtual Machine Manager.

Wizard-driven installation for HPE Storage and HPE OneView integration kits for Operations Manager and Virtual Machine Manager.

HPE Storage Management packs can be installed, configured and upgraded using PowerShell.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The [Defective Media Retention \(DMR\)](#) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. [Comprehensive Defective Material Retention \(CDMR\)](#) allows you to keep all data retentive components.

HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
