HPE SYNERGY 10GB INTERCONNECT LINK MODULE (779215-B21)

Synergy Interconnect Link Modules

WHAT'S NEW

- Available for ordering Q3CY2016

OVERVIEW

Wouldn't you like to consolidate legacy hierarchical architecture based on north/south design with oversubscription bottlenecks into a flat, east/west based architecture? In addition increase data throughput and reduce latency with only a single hop within large domains of virtual machines or compute modules?

The HPE Synergy 10Gb Interconnect Link Module, satellite module, based on composable fabric is designed for Composable Infrastructure. Based on disaggregated, rack-scale

design, it uses a primary/satellite architecture to consolidate data center network connections, reduce hardware and scale network bandwidth across multiple HPE Synergy Frames.

The primary module contains intelligent networking capabilities that extend connectivity to frames equipped with satellite modules. This reduces top of rack switch need and substantially decreases cost. The reduction in components simplifies fabric management at scale while consuming fewer ports at the data center aggregation layer.

FEATURES

Reduces the Need for Fixed Ratios of Interconnects and Substantially Reduces Cost and Complexity

The HPE Synergy 10Gb Interconnect Link Module of HPE Synergy composable fabric extends satellite frame connectivity to primary frame. The connectivity to primary frame is through zero latency cables and replaces fixed ratio of interconnects with flexible ratio of networking pool of resources.

Inherits all the benefits of primary module. Up to four additional satellite frames can be connected to primary module with Synergy 10Gb Interconnect Link Module.

Firmware upgrade on primary module won't affect Synergy 10Gb Interconnect Link Modules making software upgrade on primary module less impactful to the satellite modules.

Adding a satellite frame doesn't increase east/west traffic hop count between Synergy Compute Modules connected to same primary module. Up to 60 Synergy Compute Modules with one-hop can be supported with primary module.

Adding frames with Synergy 10Gb Interconnect Link Modules doesn't consume ports on the aggregation switch.

Flexible with Different Edge Network Architecture

The HPE Synergy 10Gb Interconnect Link Module fits into different architecture based on edge interconnects needs.

Supports HPE Virtual Connect SE 40Gb F8 Module for Synergy and HPE Synergy 40Gb F8 Switch Module.

Technical specifications**HPE Synergy 10Gb Interconnect Link Module**

Product Number	779215-B21
Performance	Non-blocking architecture
Ports	12 x 10GbE downlinks through the mid-plane and 1 x 120GbE interconnect link ports to master module
Connectors and cabling	Interconnect Link module cables
Indicators and buttons	Health LED, UID LED, Link cable part LEDs, and Compute Module Link LEDs
Power specifications	12V @ 13.75A (165 W)
Latency	Low-latency design (<5ns round trip)
Product Dimensions (metric)	398 x 496 x 149.5 mm (shipping)
Weight	2.81 kg (shipping)
Warranty	3 year Parts, 3 year Labor, 3 year On-site support

HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please [explore them here](#).
