

# HPE SYNERGY 20GB INTERCONNECT LINK MODULE

## Synergy Interconnect Link Modules

### OVERVIEW

Wouldn't you like to consolidate legacy hierarchical architectures based 20Gb architecture or do you need to increase data throughput and reduce latency with only a single hop within large domains of virtual machines or compute modules?

The HPE Synergy 20Gb Interconnect Link Module part of the HPE Synergy composable fabric extends satellite frame connectivity back to the primary frame. Based on disaggregated, rack-scale design, it uses a primary/satellite

architecture to consolidate data center network connections, reduce hardware and scale network bandwidth across multiple HPE Synergy Frames.

The primary module contains intelligent networking capabilities that extend connectivity to frames equipped with satellite modules. This reduces top of rack switch need and substantially decreases costs. The reduction in components simplifies fabric management at scale while consuming fewer ports at the data center aggregation layer.

## FEATURES

### **Reduces the Need for Fixed Ratios of Interconnects and Substantially Reduces Cost and Complexity**

The HPE Synergy 20Gb Interconnect Link Module part of the HPE Synergy composable fabric extends satellite frame connectivity back to the primary frame. This connectivity is through zero latency cables and replaces fixed ratio of interconnects with flexible ratio of networking pool of resources.

Satellite frames inherit all the benefits of primary module. Up to four additional satellite frames can be connected to the primary module with one Synergy 20Gb Interconnect Link Module.

Firmware upgrades on the primary module won't affect the Synergy Interconnect Link Modules making software upgrades on the primary module less impactful to satellite modules.

Adding a satellite frame doesn't increase east/west traffic hop count between Synergy Compute Modules connected to same primary module. Up to 36 Synergy Compute Modules with one-hop can be supported with primary module.

Adding frames with Synergy 20Gb Interconnect Link Modules doesn't consume ports on the aggregation switch.

### **Flexible with Different Edge Network Architecture**

The HPE Synergy 20Gb Interconnect Link Module fits into different architecture based on edge interconnect needs.

Supports both the HPE Virtual Connect SE 40Gb F8 Module for Synergy and the HPE Synergy 40Gb F8 Switch Module for increased flexibility.

## Technical specifications

## HPE Synergy 20Gb Interconnect Link Module

---

**Warranty**

3 year Parts, 3 year Labor, 3 year On-site support

## HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

### Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

**HPE Integration and Performance Services** help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

### Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please [explore them here](#).

**Make the right purchase decision.**
